

Country	Website/Document	Location	Programmatic Area	HSJ objective	Activity	Partner	Jan-21	Nov-21	Jan-22	If applicable, enter the code to the Grant Performance framework underpin to which this activity is linked	Expected Outcome	TOTM
See Time and Principle	Monitor	National & Subnational	Supply Chain	Logistics conditions for EPI implementation in 6 districts of Sao Tome and Autonomous Region of Principe	Conduct formative monitoring visits in the health Districts on Cold Chain equipment management and maintenance. Support is set up as working sheet in the sites to register preventive maintenance activities.	UNICEF	Service delivery approach suitable to reach missed communities (identified and not reached)	Tools and approaches developed to improve and sustain quality and safety of immunisation services	working sheet in the sites to register preventive maintenance activities		Cold Chain equipment in satisfactory working order	
See Time and Principle	Monitor	National & Subnational	Supply Chain	Logistics conditions for EPI implementation in 6 districts of Sao Tome and Autonomous Region of Principe	Support TOT immunisation programme to plan, conduct Effective Vaccine Management Assessment (EVMA) and contribute to drafting key indicator report	UNICEF	EVMA conducted using the new format and report sheet	EVMA improvement plan developed and tested	Improved vaccine management		At least 30% of planned activities in the improvement plan implemented	
See Time and Principle	Monitor	National & Subnational	Supply Chain	Logistics conditions for EPI implementation in 6 districts of Sao Tome and Autonomous Region of Principe	Support for the installation of temperature monitoring devices (Fridge Tags) in the CCE of the 7 districts	UNICEF	% of target sites demonstrating active use of new supply chain tool (e.g. monthly KPI reporting, ordering, inventory review meeting) at target sites in preceding 30 months	% of target sites demonstrating active use of new supply chain tool (e.g. monthly KPI reporting, ordering, inventory review meeting) at target sites in preceding 30 months	% of target sites demonstrating active use of new supply chain tool (e.g. monthly KPI reporting, ordering, inventory review meeting) at target sites in preceding 30 months		All CCE in all 7 districts with temperature monitoring devices	8
See Time and Principle	Monitor	National	Vaccine-Specific Support	Logistics conditions for EPI implementation in 6 districts of Sao Tome and Autonomous Region of Principe	Support implementation of supplementary immunisation activities to increase vaccine coverage, mainly BivalentPolio and Penta	UNICEF	% of districts/provinces triangulating stock and performance data on monthly basis	% of target sites achieving quality benchmarks (e.g. reporting completeness, accuracy) in preceding 30 months	CHES2 Data on children who were caught up for measles		Vaccine coverage, especially for Measles/ Rubella and Polio increased to at least 90%	
See Time and Principle	Advocate	National	Immunisation Financing	MEAS capacity - EPI activity coordination and planning in context of NNDP implementation	Provide technical support to carry out sustainable immunisation financing study (Development of Immunisation Financing Framework), document the evidence in support of continued and increased investment for vaccines, develop financial sustainability plan for the EPI, EPI program and identify synergies in the national and county planning and budgeting process including MTEF	WHO	Concept note elaborated	Tufts developed and consultant recruited	Sustainability study completed, EPI sustainability plan and EPI evidence document produced to be used for advocacy for increased immunisation financing		Service delivery related barriers of missed communities to access immunisation services identified and prioritised	
See Time and Principle	Monitor	National	Human Resources for Health	MEAS capacity - EPI activity coordination and planning in context of NNDP implementation	Immunisation officer / planner to support the Ministry in programme and financial planning, implementation and evaluation of HSD/TCA and immunisation activities. Support a multi-component multi-year plan (MUPY) or National Immunisation Strategy (NIS) for the country	WHO	Tufts for the National Immunisation Strategy (NIS) or comprehensive multi-year plan (MUPY) available and shared	National Immunisation Strategy (NIS) or comprehensive multi-year plan (MUPY) available and shared	Monthly reports meetings with MHP teams to monitor implementation of HSD and TCA activities			8
See Time and Principle	Measure	National	Immunisation Financing	MEAS capacity - EPI activity coordination and planning in context of NNDP implementation	Support for the completion of the national accounts for public health 2018-2019	WHO	Concept note developed	National account ongoing	National account report available		National account 2018-2019 available	300,063
See Time and Principle	Advocate	National	Immunisation Financing	MEAS capacity - EPI activity coordination and planning in context of NNDP implementation	Evaluation of the DHS pillars serving as the CUS	WHO	Concept note elaborated	Evaluation of National Health System completed			Roadmap to accelerate progress towards UHC in EPI available	
See Time and Principle	Monitor	National & Subnational	Vaccine-Specific Support	MSE - Health system strengthening and epidemiological surveillance for monitoring and evaluation and EPI activity planning	Support for the evaluation of the PNDS 2017/2021 and implementation of the new PNDS 2022/2026	WHO	Concept note developed	Evaluation of PNDS 2017/2021 conducted	proposal of a new PNDS available		New PNDS focused on Universal coverage	
See Time and Principle	Vaccine-Specific Support			Assist with development of national microplanning for national rollout, e.g. chronogram, data recording & reporting forms, cold chain assessment, logistics & transportation, etc.	PNCH	All necessary documents for introduction completed						
See Time and Principle	Vaccine-Specific Support			Assist with development of refresher training plans and materials for staff vaccinators	PNCH	Training plans and materials finalised						
See Time and Principle	Vaccine-Specific Support			Assist implementing refresher training plans at national level for EPI introduction	PNCH	National TOT conducted						
See Time and Principle	Vaccine-Specific Support			Assist with rollout of social mobilisation plans and materials for HPV introduction, based on focus experience	PNCH	Social mobilisation plans and materials finalised						
See Time and Principle	Vaccine-Specific Support			Provide technical support for monitoring at national or sub-national level of EPI activities	PNCH	Support for monitoring rollout completed						
See Time and Principle	Vaccine-Specific Support			Roll planning and TWG meetings for HPV in sites	PNCH	Support to roll out attendance at planning and TWG meetings at sub-national level						
See Time and Principle	Vaccine-Specific Support			MTAG/CCA, MCH, MOP, MOE, and other stakeholder meetings for HPV sites	PNCH	Support to roll out attendance at meetings in completed to discuss with co-						
See Time and Principle	Data			Support transitioning to CHES2 for EPI	UNI-OF CSILO	1. EPI Legacy data migrated 4. Training given						
See Time and Principle	Data			Support planning, configuration and management of immunisation registries	UNI-OF CSILO	Immunisation registry digital package configured and installed						
See Time and Principle	Data			Support activities enhancing data analysis and use	UNI-OF CSILO	5. EPI Legacy data migrated (if fully completed) 6. Scorecard app installed						
See Time and Principle	Data			Support planning, configuration and management of COVID-19 surveillance	UNI-OF CSILO	Covid-19 digital package installed
