*Please report on major activities conducted to strengthen immunization, as well as problems encountered in relation to implementing your multi-year plan.*

#### Attachments:

Three (additional) documents are required as a prerequisite for continued GAVI ISS support in 2010:

- c) Detailed Financial Statement of funds (DOCUMENT N°.....) spent during the reporting year (2008).
- d) The detailed Financial Statement must be signed by the Financial Controller in the Ministry of Health and/or Ministry of Finance and the chair of the ICC, as indicated below:

### 1.1.4 Immunization Data Quality Audit (DQA)

*If a DQA was implemented in 2007 or 2008 please list the recommendations below:*

List major recommendations (DQA carried out in March 2008)

#### **Filing and reporting**

- To develop directives for the effective filing of the various supports
- To equip the data management service with the hardware for the backing up of data (server, system network, CD burner, USB key) at all levels.
- To set up a procedure for the backing up of informatics data at all levels
- To complete all the headings on the monthly reports at the level of health units and the district (situation of antigens)
- To make the annual summary at the level of health units.

#### **Monitoring and Evaluation**

- To strengthen supervision ++++
- To monitor the various indicators and to post them

- To set up systematic retro information formats at all levels.
- To disseminate data-gathering tools at all levels

Has a plan of action to improve the reporting system based on the recommendations from the last DQA been prepared?

YES

NO

If yes, what is the status of recommendations and the progress of implementation and attach the plan.

**An action plan intended to improve the reporting system on the basis of the recommendations of the DQA 2008 is in course of preparation.**

**Please highlight in which ICC meeting the plan of action for the last DQA was discussed and endorsed by the ICC. [mm/yyyy]**

Please report on any studies conducted and challenges encountered regarding EPI issues and administrative data reporting during 2008 (for example, coverage surveys, DHS, house hold surveys, etc).

List studies conducted:

**In 2008, no studies were carried out in the immunization field**

List challenges in collecting and reporting administrative data: **the problems encountered are for the most part related to a lack of training and monitoring of the personnel on the ground. Very little supervision is carried out at the peripheral units and it is therefore here where the majority of the problems involved in the reporting system are identified at the time of the DQA. We can quote the lack of filing, the poor quality of the data and also and especially the weakness in the promptness and completeness of the monthly reports;**

### 1.3 Injection Safety

#### 1.3.1 Receipt of injection safety support (for relevant countries)

Are you receiving Injection Safety support in cash or supplies?.....I

**In 2008, Mauritania did not receive injection safety support**

*If support has ended, please report how injection safety supplies are funded.*

[List sources of funding for injection safety supplies in 2008] **Mauritania has provided for the purchase of traditional vaccines, vaccinal consumables and injection safety supplies (Receptacles, AD syringes). GAVI's support for injection safety has been used during the three years (2004, 2005, 2006) for the construction and maintenance of incinerators in health districts.**

*Please report how sharps waste is being disposed of.*

[Describe how sharps is being disposed of by health facilities] **Mauritania has adopted the use of AD syringes, safety boxes (receptacles) and waste incineration on a wide scale. In the zones where an incinerator is available, vaccinal waste is collected, stored and eliminated by incineration. In the absence of an incinerator, other forms of elimination are still used (burying and burning). At the time of mass vaccination campaigns, the source of large quantities of waste, the plan envisages the collection, storage and transport of waste to the chief towns of districts which have incinerators and finally exclusive incineration.**

*Please report problems encountered during the implementation of the transitional plan for safe injection and sharps waste.*

[List problems] **No major difficulty has been noted as a result of the fact that injection safety supplies were and still remain paid for by the State.**

**1.3.3. Statement on use of GAVI Alliance injection safety support in 2008 (if received in the form of a cash contribution)**

*The following major areas of activities have been funded (specify the amount) with the GAVI Alliance injection safety support in the past year:*

If either of the latter two is applicable, please explain the strategies being pursued to address the gaps and indicate the sources/causes of the gaps.

## Future Country Co-Financing (in US\$)

Please refer to the excel spreadsheet Annex 1 and proceed as follows:

- Please complete the excel sheet's "Country Specifications" Table in Tab 1 of Annex 1, using the data available in the other Tabs: Tab 3 for the commodities price list, Tab 5 for the vaccine wastage factor and Tab 4 for the minimum co-financing levels per dose.
- Then please copy the data from Annex 1 (Tab "Support Requested" Table 2) into Tables 2.2.1 (below) to summarize the support requested, and co-financed by GAVI and by the country.

Please submit the electronic version of the excel spreadsheets Annex 1 (one Annex for each vaccine requested) together with the application.

Table 2.2.1 is designed to help understand future country level co-financing of GAVI awarded vaccines. If your country has been awarded more than one new vaccine please complete as many tables as per each new vaccine being co-financed (Table 2.2.2; Table 2.2.3; ....)

## 4. Health Systems Strengthening (HSS)

### Instructions for reporting on HSS funds received

1. As a Performance-based organisation the GAVI Alliance expects countries to report on their performance – this has been the principle behind the Annual Progress Reporting –APR- process since the launch of the GAVI Alliance. Recognising that reporting on the HSS component can be particularly challenging given the complex nature of some HSS interventions the GAVI Alliance has prepared these notes aimed at helping countries complete the HSS section of the APR report.
2. All countries are expected to report on HSS on the basis of the January to December calendar year. Reports should be received by 15<sup>th</sup> May of the year after the one being reported.
3. This section **only needs to be completed by those countries that have been approved and received funding for their HSS proposal before or during the last calendar year**. For countries that received HSS funds within the last 3 months of the reported year can use this as an inception report to discuss progress achieved and in order to enable release of HSS funds for the following year on time.
4. It is very important to fill in this reporting template thoroughly and accurately, and to ensure that **prior to its submission to the GAVI Alliance this report has been verified by the relevant country coordination mechanisms** (ICC, HSCC or equivalent) in terms of its accuracy and validity of facts, figures and sources used. Inaccurate, incomplete or unsubstantiated reporting may lead to the report not being accepted by the Independent Review Committee (IRC) that monitors all APR reports, in which case the report might be sent back to the country and this may cause delays in the release of further HSS funds. Incomplete, inaccurate or unsubstantiated reporting may also cause the IRC to recommend against the release of further HSS funds.
5. Please use additional space than that provided in this reporting template, as necessary.

**4.1 Information relating to this report:**

- a) Fiscal year runs from .....(month) to .....(month).
- b) This HSS report covers the period from .....(month/year) to .....(month year)
- c) Duration of current National Health Plan is from .....(month/year) to .....(month/year).
- d) Duration of the immunisation cMYP:
- e) Who was responsible for putting together this HSS report who may be contacted by the GAVI secretariat or by the IRC for any possible clarifications?

It is important for the IRC to understand key stages and actors involved in the process of putting the report together. For example: *'This report was prepared by the Planning Directorate of the Ministry of Health. It was then submitted to UNICEF and the WHO country offices for necessary verification of sources and review. Once their feedback had been acted upon the report was finally sent to the Health Sector Coordination Committee (or ICC, or equivalent) for final review and approval. Approval was obtained at the meeting of the HSCC on 10<sup>th</sup> March 2008. Minutes of the said meeting have been included as annex XX to this report.'*

Name	Organisation	Role played in report submission	Contact email and telephone number
<b>Government focal point to contact for any clarifications</b>			
<b>Other partners and contacts who took part in putting this report together</b>			

- f) Please describe briefly the main sources of information used in this HSS report and how was information verified (validated) at country level prior to its submission to the GAVI Alliance. Were any issues of substance raised in terms of accuracy or validity of information and, if so, how were these dealt with or resolved?

This issue should be addressed in each section of the report, as different sections may use different sources. In this section however one might expect to find what the MAIN sources of information were and a mention to any IMPORTANT issues raised in terms of validity, reliability, etcetera of information presented. For example: *The main sources of information used have been the external Annual Health Sector Review undertaken on (such date) and the data from the Ministry of Health Planning Office. WHO questioned some of the service coverage figures used in section XX and these were tallied with WHO's own data from the YY study. The relevant parts of these documents used for this report have been appended to this report as annexes X, Y and Z.*

- g) In putting together this report did you experience any difficulties that are worth sharing with the GAVI HSS Secretariat or with the IRC in order to improve future reporting? Please provide any suggestions for improving the HSS section of the APR report? Are there any ways for HSS reporting to be more harmonised with existing country reporting systems in your country?

#### 4.2 Overall support breakdown financially

Period for which support approved and new requests. For this APR, these are measured in calendar years, but in future it is hoped this will be fiscal year reporting:

**Table 4.3 note:** This section should report according to the original activities featuring in the HSS proposal. It is very important to be precise about the extent of progress, so please allocate a percentage to each activity line, from 0% to 100% completion.. Use the right hand side of the table to provide an explanation about progress achieved as well as to bring to the attention of the reviewers any issues relating to changes that have taken place or that are being proposed in relation to the original activities.

Please do mention whenever relevant the **SOURCES** of information used to report on each activity. The section on **support functions** (management, M&E and Technical Support) is also very important to the GAVI Alliance. Is the management of HSS funds effective, and is action being taken on any salient issues? Have steps been taken to improve M&E of HSS funds, and to what extent is the M&E integrated with country systems (such as, for example, annual sector reviews)? Are there any issues to raise in relation to technical support needs or gaps that might improve the effectiveness of HSS funding?

The column on Planned expenditure in coming year should be as per the estimates provided in the APR report of last year (Table 4.6 of last year’s report) or –in the case of first time HSS reporters- as shown in the original HSS proposal.

Any significant differences (15% or higher) between previous and present “planned expenditure” should be explained in the last column on the right.

#### 4.6 Programme implementation for reporting year:

- a) Please provide a narrative on major accomplishments (especially impacts on health service programs, notably the immunization program), problems encountered and solutions found or proposed, and any other salient information that the country would like GAVI to know about. Any reprogramming should be highlighted here as well.

This section should act as an executive summary of performance, problems and issues linked to the use of the HSS funds. This is the section where the reporters point the attention of reviewers to **key facts**, what these mean and, if necessary, what can be done to improve future performance of HSS funds.

- b) Are any Civil Society Organizations involved in the implementation of the HSS proposal? If so, describe their participation? For those pilot countries that have received CSO funding there is a separate questionnaire focusing exclusively on the CSO support after this HSS section.

#### 4.7 Financial overview during reporting year:

*4.7 note:* In general, HSS funds are expected to be visible in the MOH budget and add value to it, rather than HSS being seen or shown as separate “project” funds. These are the kind of issues to be discussed in this section

- a) Are funds on-budget (reflected in the Ministry of Health and Ministry of Finance budget): Yes/No If not, why not and how will it be ensured that funds will be on-budget ? Please provide details.

- b) Are there any issues relating to financial management and audit of HSS funds or of their linked bank accounts that have been raised by auditors or any other parties? Are there any issues in the audit report (to be attached to this report) that relate to the HSS funds? Please explain.
