

# **Annual Progress Report 2009**

Submitted by

# The Government of

#### Mauritania

Reporting on year: 2009

Requesting for support year: 2011

Date of submission: May, 2010

**Deadline for submission: 15 May 2010** 

Please send an electronic copy of the Annual Progress Report and attachments to the following e-mail address: <a href="mailto:apr@gavialliance.org">apr@gavialliance.org</a>

any hard copy could be sent to:

GAVI Alliance Secrétariat, Chemin de Mines 2. CH 1202 Geneva, Switzerland

Enquiries to: **apr@gavialliance.org** or representatives of a GAVI partner agency. The documents can be shared with GAVI partners, collaborators and general public.

**Note:** Before starting filling out this form get as reference documents the electronic copy of the APR and any new application for GAVI support which were submitted the previous year.

# GAVI ALLIANCE GRANT TERMS AND CONDITIONS

#### **FUNDING USED SOLELY FOR APPROVED PROGRAMMES**

The applicant country ("Country") confirms that all funding provided by the GAVI Alliance will be used and applied for the sole purpose of fulfilling the programme(s) described in the Country's application. Any significant change from the approved programme(s) must be reviewed and approved in advance by the GAVI Alliance. All funding decisions for the application are made at the discretion of the GAVI Alliance Board and are subject to IRC processes and the availability of funds.

#### AMENDMENT TO THE APPLICATION

The Country will notify the GAVI Alliance in its Annual Progress Report if it wishes to propose any change to the programme(s) description in its application. The GAVI Alliance will document any change approved by the GAVI Alliance, and the Country's application will be amended.

#### **RETURN OF FUNDS**

The Country agrees to reimburse to the GAVI Alliance all funding amounts that are not used for the programme(s) described in its application. The country's reimbursement must be in US dollars and be provided, unless otherwise decided by the GAVI Alliance, within sixty (60) days after the Country receives the GAVI Alliance's request for a reimbursement and be paid to the account or accounts as directed by the GAVI Alliance.

#### SUSPENSION/ TERMINATION

The GAVI Alliance may suspend all or part of its funding to the Country if it has reason to suspect that funds have been used for purpose other than for the programmes described in the Country's application, or any GAVI Alliance-approved amendment to the application. The GAVI Alliance retains the right to terminate its support to the Country for the programmes described in its application if a misuse of GAVI Alliance funds is confirmed.

#### **ANTICORRUPTION**

The Country confirms that funds provided by the GAVI Alliance shall not be offered by the Country to any third person, nor will the Country seek in connection with its application any gift, payment or benefit directly or indirectly that could be construed as an illegal or corrupt practice.

#### **AUDITS AND RECORDS**

The Country will conduct annual financial audits, and share these with the GAVI Alliance, as requested. The GAVI Alliance reserves the right, on its own or through an agent, to perform audits or other financial management assessment to ensure the accountability of funds disbursed to the Country.

The Country will maintain accurate accounting records documenting how GAVI Alliance funds are used. The Country will maintain its accounting records in accordance with its government-approved accounting standards for at least three years after the date of last disbursement of GAVI Alliance funds. If there is any claims of misuse of funds, Country will maintain such records until the audit findings are final. The Country agrees not to assert any documentary privilege against the GAVI Alliance in connection with any audit.

#### CONFIRMATION OF LEGAL VALIDITY

The Country and the signatories for the Country confirm that its application, and Annual Progress Report, are accurate and correct and form legally binding obligations on the Country, under the Country's law, to perform the programmes described in its application, as amended, if applicable, in the APR.

#### CONFIRMATION OF COMPLIANCE WITH THE GAVI ALLIANCE TRANSPARANCY AND ACCOUNTABILITY POLICY

The Country confirms that it is familiar with the GAVI Alliance Transparency and Accountability Policy (TAP) and complies with the requirements therein.

#### **USE OF COMMERCIAL BANK ACCOUNTS**

The Country is responsible for undertaking the necessary due diligence on all commercial banks used to manage GAVI cash-based support. The Country confirms that it will take all responsibility for replenishing GAVI cash support lost due to bank insolvency, fraud or any other unforeseen event.

#### ARBITRATION

Any dispute between the Country and the GAVI Alliance arising out of or relating to its application that is not settled amicably within a reasonable period of time, will be submitted to arbitration at the request of either the GAVI Alliance or the Country. The arbitration will be conducted in accordance with the then-current UNCITRAL Arbitration Rules. The parties agree to be bound by the arbitration award, as the final adjudication of any such dispute. The place of arbitration will be Geneva, Switzerland. The language of the arbitration will be English.

For any dispute for which the amount at issue is US\$ 100,000 or less, there will be one arbitrator appointed by the GAVI Alliance. For any dispute for which the amount at issue is greater than US \$100,000 there will be three arbitrators appointed as follows: The GAVI Alliance and the Country will each appoint one arbitrator, and the two arbitrators so appointed will jointly appoint a third arbitrator who shall be the chairperson.

The GAVI Alliance will not be liable to the country for any claim or loss relating to the programmes described in the application, including without limitation, any financial loss, reliance claims, any harm to property, or personal injury or death. Country is solely responsible for all aspects of managing and implementing the programmes described in its application.

#### By filling this APR the country will inform GAVI about :

- accomplishments using GAVI resources in the past year
- important problems that were encountered and how the country has tried to overcome them
- Meeting accountability needs concerning the use of GAVI disbursed funding and in-country arrangements with development partners
- Requesting more funds that had been approved in previous application for ISS/NVS/HSS, but have not yet been released
- how GAVI can make the APR more user-friendly while meeting GAVI's principles to be accountable and transparent.

# Government Signatures Page for all GAVI Support (ISS, INS, NVS, HSS, CSO)

By signing this page, the Government hereby attest the validity of the information provided in the report, including all attachments, annexes, financial statements and/or audit reports. The Government further confirms that vaccines, supplies and funding were used in accordance with the GAVI Alliance Standard Grant Terms and Conditions as stated in page 2 of this Annual Progress Report (APR).

For the Government of [Name of Country]	
Please note that this APR will not be reviewed or without the signatures of both the Minister of Hea	approved by the Independent Review Committee lth & Finance or their delegated authority.

## **ICC Signatures Page**

If the country is reporting on ISS, INS, NVS support

We, the undersigned members of the immunisation Inter-Agency Co-ordinating Committee (ICC) endorse this report. Signature of endorsement of this document does not imply any financial (or legal) commitment on the part of the partner agency or individual.

The GAVI Alliance Transparency and Accountability Policy is an integral part of GAVI Alliance monitoring of country performance. By signing this form the ICC members confirm that the funds received from the GAVI Alliance have been used for purposes stated within the approved application and managed in a transparent manner, in accordance with government rules and regulations for financial management.

## **Annual Progress Report 2009: Table of Contents**

This APR reports on activities between January - December 2009 and specifies requests for the period January - December 2011

#### 1. General Programme Management Component

- 1.1 Updated baseline and annual targets. Table 1 in Annex 1
- 1.2 Immunisation achievements in 2009
- 1.3 Data assessments
- 1.4 Overall Expenditure and Financing for Immunisation
- 1.5 Interagency Coordinating Committee (ICC)
- 1.6 Priority actions in 2010-11

#### 2. Immunisation Services Support (ISS)

- 2.1 Report on 2009 ISS funds (received reward)
- 2.2 Management of ISS funds
- 2.3 Detailed expenditure of ISS funds during 2009 calendar year
- 2.4 Request for ISS reward

#### 3. New and Under-used Vaccines Support (NVS)

- 3.1 Receipt of new & under-used vaccines for 2009 vaccination programme
- 3.2 Introduction of a New Vaccine in 2009
- 3.3 Report on country co-financing in 2009
- 3.4 Effective Vaccine Store Management/Vaccine Management Assessment
- 3.5 Change of vaccine presentation
- 3.6 Renewal of multi-year vaccines support
- 3.7 Request for continued support for vaccines for 2011 vaccination programme

## 4. Injection Safety Support (INS)

- 4.1 Receipt of injection safety support (for relevant countries)
- 4.2 Progress of transition plan for safe injections and management of sharps waste
- 4.3 Statement on use of GAVI Alliance injection safety support received in cash

#### 5. Health System Strengthening Support (HSS)

- 5.1 Information relating to this report
- 5.2 Receipt and expenditure of HSS funds in the 2009 calendar year
- 5.3 Report on HSS activities in 2009 reporting year
- 5.4 Support functions
- 5.5 Programme implementation for 2009 reporting year
- 5.6 Management of HSS funds
- 5.7 Detailed expenditure of HSS funds during the 2009 calendar year
- 5.8 General overview of targets achieved
- 5.9 Other sources of funding in pooled mechanism

### 6. Civil Society Organisation Support (CSO)

- 6.1 TYPE A: Support to strengthen coordination and representation of CSOs
- 6.2 TYPE B: Support for CSOs to help implement the GAVI HSS proposal or cMYP

#### 7. Checklist

#### 8. Comments

#### **Annexes**

Annex 1: [Country]'s APR calculation of ISS-NVS for 2011 (Excel file attached)

Annex 2: TOR & Example of ISS Financial Statement

Annex 3: TOR & Example of HSS Financial Statement

Annex 4: TOR & Example of CSO Type B Financial Statement

	External audit report for CSO 'Type B' funds during the most recent fiscal year (if available)	6.2.4

## 1. General Programme Management Component

#### 1.1 Updated baseline and annual targets (fill in Table 1 in Annex1-excell)

The numbers for 2009 in Table 1 must be consistent with those that the country reported in the **WHO/UNICEF Joint Reporting Form (JRF) for 2009.** The numbers for 2010-15 in Table 1 should be consistent with those that the country provided to GAVI in previous APR or in new application for GAVI support or in cMYP.

In the space below, please provide justification and reasons for those numbers that in this APR are different from the referenced ones:

Provide justification for any changes in births:

The number of births has not changed as compared with the 2008 APR and the same projections are applicable to the 2009 JRF and to Annex 1 of the 2009 APR.

Provide justification for any changes in surviving infants:

Likewise for the number of surviving infants; this has not changed as compared with the 2008 APR and the same projections are applicable to the 2009 JRF and the 2009 Excel file (Annex 1).

Provide justification for any changes in Targets by vaccine:

For the BCG vaccine, we can see that Annex 1 to the 2009 APR form calculates coverage as compared to <u>total births</u>; while in Mauritania's case, this calculation has always been completed as compared with the total <u>surviving infants</u>. This results in a notable difference between the figures included in our 2009 JRF (81%) for 2009 and which automatically appear in Annex 1 to the 2009 APR (75%) for that same year. For the other vaccines, no changes have been noted.

Concerning the coverage targets set for 2009 in the 2008 APR, these targets were not able to be achieved: In 2009, BCG vaccination coverage was 81%, Penta3 was 64%, OPV3 was 63% and VAR was 59%. In the 2008 APR, the targets expected for 2009 were 90% for Penta3 and OPV3 and 95% for BCG. We have noted the CEI/GAVI's recommendation in its decision letter dated December 21, 2009 concerning a readjustment of these targets. In light of the poor performance shown by the routine EPI in 2009 and the results from the past 5 years, the country has decided to lower its targets for future projections and to make them more achievable.

Antigens			Years			
	2010	2011	2012	2013	2014	2015
BCG	83%	85%	89%	91%	93%	95%
OPV3	70%	75%	80%	84%	85%	85%
DTP3	70%	75%	80%	84%	85%	85%

Provide justification for any changes in Wastage by vaccine:

The same is true of wastage rates which have also been lowered

	20	10	2011	2012	2013	2014	2015
Wastage rate	15	5%	10%	5%	5%	5%	5%
Wastage factor	1.18	1.11		1.05	1.05	1.05	1.05

#### 1.2 Immunisation achievements in 2009

Please comment on the achievements of immunisation programme against targets (as stated in last year's APR), the key major activities conducted and the challenges faced in 2009 and how

these were addressed:

As described above, the coverage targets stated in the 2008 APR were not reached in 2009:

At the end of 2009, BCG vaccination coverage was 81%, Penta3 was 64%, OPV3 was 63% and VAR was 59%. As stated in the 2008 APR, the expected target for Penta3 in 2009 was 90%. As stated in the CEI's comments in the decision letter, the targets were ambitious. This led the country to lower its targets for projections for upcoming years.

In terms of activities carried out in 2009, we should mention:

- -Many (4) meetings were held between the regional EPI coordinators and surveillance coordinators. In certain cases these also involved the participation of head district physicians.
- -A meeting was held with regional health directors. The goal of this meeting was to discuss the difficult situation that the EPI is in and to make them more aware of the necessity of establishing a reliable and regular data collection system.
- -Vaccine and consumables supplies continued, using central government funds for traditional vaccines and GAVI funds for the pentavalent, all through UNICEF channels.
- -Three rounds of a vaccination campaign against maternal and neonatal tetanus were organized.
- -Two rounds (in December) of a vaccination campaign against poliomyelitis were organized, in response to many cases of wild poliovirus, with the most recent case traced to 2001. These response campaigns continued in 2010.

In terms of difficulties affecting the program's implementation, in 2009 we note the lack of a national EPI coordinator, insufficient financial resources and the lack of a trusted partner for the EPI. Only traditional partners such as the WHO and UNICEF are still continuing to support this program in any major way. GAVI supports the country in the component involving the introduction of new vaccines (Pentavalent) with co-financing from the central government in the amount of US \$0.20 per dose.

In addition, during various meetings held in 2009, it became apparent that there is a growing need to rehabilitate the cold chain. This is also apparent in the district micro-plans completed for the poliomyelitis response campaign at the end of 2009. These insufficiencies relate both to the various types of equipment and to other hardware such as the 25 liter freezers and especially vaccine carriers. The vaccine carriers are in poor condition and of poor quality, which has led the country to use its own money to purchase thermoses for the regional polio campaign. These thermoses meet only a very few of the standards for vaccine storage.

Thus, an evaluation of the management of the cold chain is necessary in order to prepare an update on this equipment and to make observations in comparison with the storage capacity, especially in light of the introduction of new vaccines such as pneumococcus, planned for 2011. UNICEF has agreed to finance an evaluation in 2010, which would enable revision of the existing database, but the multiple (6) polio campaigns organized in 2010 delayed this activity.

In terms of solutions implemented, we note:

- -An appeal to the highest level, carried out by the ICC (United Nations agencies) to the President of the Republic, reminding him of the difficult situation concerning vaccination, and the fact that this situation is likely at the root of the measles and poliomyelitis epidemics which are raging in the country. They also requested that he give useful instructions for reversing this trend.
- -The recent appointment of a national EPI coordinator. This person is a public health physician who has substantial experience in managing health programs, as he worked as the national surveillance coordinator for the central government.
- -The revitalization of the ICC, with a draft of a decree that would change the members of the committee.
- -Monthly data harmonization meetings involving the EPI data manager, the epidemiological surveillance data manager, the national measles laboratory coordinator, the EPI/WHO coordinator and the EPI/UNICEF coordinator. We would like to reiterate that the EPI and surveillance departments are under two different parts of the ministry of health: the

If targets were not reached, please comment on reasons for not reaching the targets:

As described above, the failure to reach these targets was partially related to our ambitious targets and partially to institutional factors such as the lack of a coordinator to provide leadership. Also, the insufficient partnerships for the EPI led to a notable lack of necessary financial resources for executing the action plan.

#### 1.3 Data assessments

1.3.1 Please comment on any discrepancies between immunisation coverage data from different sources (for example, if survey data indicate coverage levels that are different than those measured through the administrative data system, or if the WHO/UNICEF Estimate of National Immunisation Coverage and the official country estimate are different)<sup>1</sup>.

The EPI's most recent vaccination coverage study dates to 2004. Since that time, no other evaluations of the EPI have been completed and we are using the only administrative data available. A vaccination coverage study was planned in the 2010-2011 action plan, but financing has not been secured.

However, we note a significant disparity between the data in the 2007 MICS, which lists vaccination coverage of 57% as compared with 75% for DTP, 76% as compared with 67% for VAR and 46% as compared with 75% for OPV for the same year. This comparison is against the administrative data for the third DTP dose and for the OPV dose.

1.3.2 Have any assessments of administrative data systems been conducted from 2008 to the present? [YES / NO]. If YES:

Please describe the assessment(s) and when they took place.

Other than the DQA completed in March 2008, for which the country received a verification factor of 73%, no other evaluation of the data production systems has been carried out. Reinvigoration of the GAVI file is planned as one of the responsibilities for the new national EPI coordinator.

- 1.3.3 Please describe any activities undertaken to improve administrative data systems from 2008 to the present.
  - 1. Subsequent to the recommendations in the DQA carried out in March 2008 and in which the country earned a 73% verification factor, a revision of the national plan for preparing EPI reports was completed. The primary elements of this plan are: Revision of EPI management tools: this revision related to all of the tools used by the program, including the new vaccines such as the Pentavalent, pneumococcus, rota and vitamin A. This was intended to avoid revising the tools every time a new vaccine is included in the routine program.
  - 2. Preparation of national directives for preparing reports and distributing them on a wide scale. These directives concern the various levels of the system:

-Vaccination unit level: A deadline calendar and an injection log, including injection forms for every session. The vaccine log must be updated after every vaccination session. At the

Please note that the WHO UNICEF estimates for 2009 will only be available in July 2010 and can have retrospective changes on the time series

end of every month, the vaccination unit coordinator must count the vaccinations completed during that month, using the injection forms for each session. This information must be copied over into the monthly report register which contains four (4) different-colored sheets. By the 5<sup>th</sup> of the month, the health post coordinator must:

- -Keep one sheet in the "monthly tracking sheet for unit's vaccinations" register.
- -Send three (3) sheets to the Moughataa, one (1) for the Moughataa and two (2) for the Wilaya.
- -Moughataa (district) level

In the context of reducing the number of reports that are sent to the central level, a vaccination register for the routine EPI has been introduced, in the form of a "summary of Moughataa monthly activities form." This register also contains three (3) different-colored sheets. On the 7<sup>th</sup> of the month, the head physician prepares a summary of the monthly reports for the permanent vaccination unit. The physician must:

- -Keep one sheet in the "summary of Moughataa monthly activities form" register
- -Send two (2) sheets to the EPI coordinator (Wilaya)
- -Wilaya (region) level

At the Wilaya level, the regional coordinator is responsible for receiving the summary reports for each Moughataa. After analyzing and interpreting the data, the coordinator must:

- -Keep one copy of the summary of Moughataa monthly activities form reports
- -Send the Moughataa summary reports to the EPI data management division (central level) along with a regional summary, before the 10<sup>th</sup> of each month.
- -Central level

At the central level, the data management division is responsible for:

- -receiving Moughataa (district) reports from the regions, "summary of Moughataa monthly activities form"
- -Updating the database
- -Updating the central dashboard
- -Producing periodic informational summaries.

# 1.3.4 Please describe any plans that are in place, or will be put into place, to make further improvements to administrative data systems.

As described above, a revision of the action plan in order to prepare reports based on the 2008 DQA recommendations was prepared.

It is clearly apparent from the various meetings and discussions about the EPI that improvement of the data management system is a priority. Activities related to this are planned in the EPI 2010-2011 action plan and have been identified as a major challenge to be included in the new national coordinator's tasks.

#### 1.4 Overall Expenditures and Financing for Immunisation

The purpose of Table 2 is to guide GAVI understanding of the broad trends in immunisation programme expenditures and financial flows. Please fill the table using US\$.

**Table 2:** Overall Expenditure and Financing for Immunisation from all sources (Government and donors) in US\$.

Expenditures by Category	Expenditure Year 2009	Budgeted Year 2010	Budgeted Year 2011
Traditional Vaccines <sup>2</sup>	150,943	150,943	
New Vaccines	875,000	875,000	1,976,000
Injection supplies with AD syringes	56,604	56,604	
Injection supply with syringes other than ADs	37,736	37,736	
Cold Chain equipment			
Operational costs	7,547	7,547	
Other (please specify)			
Total EPI	1,127,830	1,127,830	1,976,000
Total Government Health	301,830	301,830	164,500

#### Exchange rate used

Please describe trends in immunisation expenditures and financing for the reporting year, such as differences between planned versus actual expenditures, financing and gaps. Give details on the reasons for the reported trends and describe the financial sustainability prospects for the immunisation program over the next three years; whether the funding gaps are manageable, challenging, or alarming. If either of the latter two is applicable, please explain the strategies being pursued to address the gaps and indicate the sources/causes of the gaps.

Between 2009 and 2010, expenditures were identical because the budget line item allocated by the central government was the same for those two years. Since 2006, EPI financing has been drastically reduced, specifically the line item for purchase of vaccines and consumables. Between 2006 and 2010, this decrease was approximately 54%. The financing deficit is a major obstacle to reaching program targets. These deficits are mostly attributable to political and/or institutional problems. The country has gone through a political transition period which has lasted for nearly four years and has affected the budget for all sectors, including the health sector. Each allocation has been reduced by half. In addition, the EPI has been without a national coordinator for more than two (2) years. At the moment, opportunities are favoring the EPI, translating into greater engagement on the part of the new authorities in terms of health services and strengthening of the routine EPI in the context of the 2010/2011 national triennial health plan and the WHO 2010-2011 biennial plan.

#### 1.5 Interagency Coordinating Committee (ICC)

How many times did the ICC meet in 2009? ......Three meetings of the ICC strategic committee out of four planned annual meetings (minutes attached). The fourth report concerns the meeting during which the document was approved, in May 13, 2010.

Please attach the minutes (**Document N°.4.**) from all the ICC meetings held in 2009, including those of the meeting endorsing this report.

List the key concerns or recommendations, if any, made by the ICC on items 1.1 through 1.4

The EPI Inter-Agency Coordinating Committee held three meetings in 2009 (June, August and October) out of the four ordinary sessions specified in the decree that created the ICC. In the three meetings the committee discussed the following points:

- -Strengthening the routine EPI,
- -Preparation of tetanus and poliomyelitis vaccination campaigns,
- -Rapid and organized evaluation between the two phases of the tetanus prevention campaign,
- -Approval of a budget prepared for the purpose of extending the cMYP until 2015, in response to a condition for approval of the country's submission to RSS/GAVI,
- -Preparation of a measles prevention campaign.

Traditional vaccines: BCG, DTP, OPV (or IPV), Mealses 1<sup>st</sup> dose (or the combined MR, MMR), TT. Some countries will also include HepB and Hib vaccines in this row, if these vaccines were introduced without GAVI support.

Are any Civil Society Organisations members of the ICC ?: [ Yes / No ]. If yes, which ones?

List CSO member organisations:

In effect, only Rotary International is a member of the ICC but it is important to emphasize that while its involvement is apparent during national poliomyelitis vaccination days, in the form of activities intended to raise awareness, Rotary's participation in the routine EPI is almost nonexistent.

#### 1.6 Priority actions in 2010-2011

What are the country's main objectives and priority actions for its EPI programme for 2010-2011? Are they linked with cMYP?

- -Progressive implementation of the Reach Each District approach
- -Improvement of the EPI's information system
- -Introduction of the Anti-Pneumo vaccine
- -Strengthening of advocacy on behalf of the EPI
- -Strengthening of epidemiological surveillance

These goals and activities are included in the 2008-2012 cMYP.

# 2. Immunisation Services Support (ISS)

2.1 Report on the use of 188 funds in 2009
Funds received during 2009: US\$
Please report on major activities conducted to strengthen immunisation using ISS funds in 2009.
Mauritania has not received any vaccination services support since 2006.
2.2 <u>Management of ISS Funds</u>
Has a GAVI Financial Management Assessment (FMA) been conducted prior to, or during the 2009 calendar year? [IF YES]: please complete Part A below. [IF NO]: please complete Part B below.
<b>Part A:</b> briefly describe progress against requirements and conditions which were agreed in any Aide Memoire concluded between GAVI and the country, as well as conditions not met in the management of ISS funds.
<b>Part B:</b> briefly describe the financial management arrangements and process used for your ISS funds. Indicate whether ISS funds have been included in national health sector plans and budgets. Report also on any problems that have been encountered involving the use of ISS funds, such as delays in availability of funds for programme use.
Please include details on: the type of bank account(s) used (commercial versus government accounts); how budgets are approved; how funds are channelled to the sub-national levels; financial reporting arrangements at both the sub-national and national levels; and the overall role of the ICC in this process.
2.3 <u>Detailed expenditure of ISS funds during the 2009 calendar year</u>

External audit reports for ISS, HSS, CSO Type B programmes are due to the GAVI Secretariat six months following the close of your government's fiscal year. If an external audit report is available for your ISS programme during your government's most recent fiscal year, this must also be attached (**Document N**°......).

of Ministry of Health.

Please attach a detailed financial statement for the use of ISS funds during the 2009 calendar year **(Document N°......).** (Terms of reference for this financial statement are attached in Annex 2). Financial statements should be signed by the Chief Accountant or by the Permanent Secretary

#### 2.4 Request for ISS reward

In June 2009, the GAVI Board decided to improve the system to monitor performance of immunisation programmes and the related calculation of performance based rewards. Starting from 2008 reporting year, a country is entitled to a reward:

- a) if the number of children vaccinated with DTP3 is higher than the previous year's achievement (or the previous high), and
- b) if the reported administrative coverage of DTP3 (reported in the JRF) is in line with the WHO/UNICEF coverage estimate for the same year.

If you may be eligible for ISS reward based on DTP3 achievements in 2009 immunisation programme, estimate the \$ amount by filling Table 3 in Annex 1.3

1

<sup>3</sup> The Monitoring IRC will review the ISS section of the APR after the WHO/UNICEF coverage estimate is made available.

# 3. New and Under-used Vaccines Support (NVS)

#### 3.1 Receipt of new & under-used vaccines for 2009 vaccination programme

Did you receive the approved amount of vaccine doses that GAVI communicated to you in its decision letter (DL)? Fill Table 4.

Table 4: Vaccines received for 2009 vaccinations against approvals for 2009

	[ A ]		[B]	
Vaccine Type	Total doses for 2009 in DL	Date of DL	Total doses received by end 2009 *	Total doses of postponed deliveries in 2010
Pentavalent	388,742	July 2008*	284,850**	

<sup>\*</sup> Please also include any deliveries from the previous year received against this DL

If numbers [A] and [B] are different,

What are the main problems encountered? (Lower vaccine utilisation than anticipated? Delay in shipments? Stock-outs? Excessive stocks? Problems with cold chain? Doses discarded because VVM changed colour or because of the expiry date?)	Nothing to report concerning this item
What actions have you taken to improve the vaccine management, e.g. such as adjusting the plan for vaccine shipments? (in the country and with UNICEF SD)	•

The pentavalent vaccine was approved in 2008 and a lump sum of US \$100,000, intended for preparing for the introduction of this vaccine, was sent in September 2008. However, implementation did not begin until 2009. The expense report for this activity is attached.

	Planned		Spent		Balance	
Activities	Local currency	\$US	Local currency	\$US	Local currency	
Preparation for introduction of pentavalent *	700,000	3,043	718,000	3,122	-18,000	
Writing and duplication of data collection tools	5,000,000	21, 739	4,970,000	21,609	30,000	
Support for operations of the central EPI unit	4,000,000	17, 391	4,000,000	17,391		
Training employees on introducing the pentavalent vaccine into the routine EPI	4,800,000	20, 870	4,815,000	20,935	-15,000	
Providing training-oriented supervision	3,200,000	13, 913	3,370,000	14,652	-170,000	
Sending vaccines from the central level to the outlying levels	1,000,000	4,348	960,000	4,174	40,000	
Mobilization of population	3,600,000	15, 652	3,540,000	15,391	60,000	
Official launch ceremony **	600,000	2,609	580,000	2,522	20,000	
Total	22,900 000	99 565	22,953 000	99,796	-53,000	

\*Preparation for introduction of pentavalent: creation of commissions, revision of tools, preparation of technical guide and training modules.

\*\*Official launch: The launch date was March 1, 2009. The bank subtracted some fees and the exchange rate was approximately 230 ouguiyas to the dollar in September 2008. The introduction project resulted in a few small gaps which were, for the most part, taken care of by the central government.

3.2	Introduction	of a New	Vaccine	in 2009
J.Z	เบเบบนนนเบบเ	UI a IVEW	vaccine	111 2003

3.2.1 If you have been approved by GAVI to introduce a new vaccine in 2009, please refer to the vaccine introduction plan in the proposal approved and report on achievements.

Vaccine introduced:	
Phased introduction [YES / NO]	Date of introduction
Nationwide introduction [YES / NO]	Date of introduction
The time and scale of introduction was as planned in the proposal? If not, why?	•

3.2.2 Use of new vaccines introduction grant (or lumpsum)

Funds of Vaccines Introduction Grant received:	US\$	Receipt date:
Please report on major activities that have be vaccine, using the GAVI New Vaccine Introdu		dertaken in relation to the introduction of a new Grant.
Please describe any problems encountered i	n the ir	nplementation of the planned activities:
Is there a balance of the introduction grant th If YES, how much? US\$	at will	pe carried forward? [YES] [NO]
Please describe the activities that will be und	ertake	n with the balance of funds:

3.2.3 Detailed expenditure of New Vaccines Introduction Grant funds during the 2009 calendar year

Please attach a detailed financial statement for the use of New Vaccines Introduction Grant funds

Annual Progress Report 2009

in the 2009 calendar year **(Document N°......).** (Terms of reference for this financial statement are attached in Annex 2). Financial statements should be signed by the Chief Accountant or by the Permanent Secretary of Ministry of Health.

#### 3.3 Report on country co-financing in 2009 (if applicable)

Table 5: Four questions on country co-financing in 2009

Q. 1: How have the proposed payment scl N/A	nedules and ac	tual sched			reporting year?
Schedule of Co-Financing Payments	Planned   Schedule		Actual Pay Date in 2		Proposed Payment Date for 2010
	(month	/year)	(day/mo	nth)	
1 <sup>st</sup> Awarded Vaccine (Pentavalent)			January 27	<b>7</b> , 2009	
2 <sup>nd</sup> Awarded Vaccine (specify)					
3 <sup>rd</sup> Awarded Vaccine (specify)					
Q. 2: Actual co-financed amounts and do	ses?				
Co-Financed Payments		Total Amo	ount in US\$	Total A	mount in Doses
1 <sup>st</sup> Awarded Vaccine (Pentavalent)		96,9	97.85		30,350
2 <sup>nd</sup> Awarded Vaccine (specify)					
3 <sup>rd</sup> Awarded Vaccine (specify)					
Q. 3: Sources of funding for co-financing?	?				
1. Government					
2. Donor (specify) GAVI					
3. Other (specify)					
Q. 4: What factors have accelerated, slow-financing?	ed or hindered	mobilisat	ion of resou	rces for	vaccine co-
<u>2.</u> 3.					_
4.					

If the country is in default please describe and explain the steps the country is planning to take to meet its co-financing requirements. For more information, please see the GAVI Alliance Default Policy http://www.gavialliance.org/resources/9\_\_\_Co\_Financing\_Default\_Policy.pdf

The country has committed to provide the co-financing necessary for introduction of the pentavalent

#### 3.4 Effective Vaccine Store Management/Vaccine Management Assessment

When was the last Effective Vaccine Store Management (EVSM)/Vaccine Management Assessment (VMA) conducted? [November, 2007]

If conducted in 2008/2009, please attach the report. (**Document N**°......)

An EVSM/VMA report must be attached from those countries which have introduced a New and Underused Vaccine with GAVI support before 2008.

Was an action plan prepared following the EVSM/VMA? [ YES / NO ]

If yes, please summarise main activities to address the EVSM/VMA recommendations and their implementation status.

The last EVSM dates to 2007. Its primary recommendations are included in the cMYP for 2008-2012. However in 2008 and 2009, as described above, no other evaluation was completed.

When is the next EVSM/VMA\* planned? [mm/yyyy] 2<sup>nd</sup> half of 2010. A new study for vaccine management is planned for the second half of 2010. It has been delayed because of multiple polio prevention campaigns organized during the first half of the year (6).

\*All countries will need to conduct an EVSM/VMA in the second year of new vaccines supported under GAVI Phase 2.

#### 3.5 Change of vaccine presentation

If you would prefer during 2011 to receive a vaccine presentation which differs from what you are currently being supplied (for instance, the number of doses per vial; from one form (liquid/lyophilised) to the other; ...), please provide the vaccine specifications and refer to the minutes of the ICC meeting recommending the change of vaccine presentation. If supplied through UNICEF, planning for a switch in presentation should be initiated following the issuance of Decision Letter for next year, taking into account country activities needed in order to switch as well as supply availability.

Please specify below the new vaccine presentation:	

Please attach the minutes of the ICC meeting (**Document N**°.....) that has endorsed the requested change.

# 3.6 <u>Renewal of multi-year vaccines support for those countries whose current support is ending in 2010</u>

If 2010 is the last year of approved multiyear support for a certain vaccine and the country wishes to extend GAVI support, the country should request for an extension of the co-financing agreement with GAVI for vaccine support starting from 2011 and for the duration of a new Comprehensive Multi-Year Plan (cMYP).

The country hereby request for an extension of GAVI support for ......[vaccine type(s)] vaccine for the years 2011-.....[end year]. At the same time it commits itself to co-finance the

procurement ofco-financing levels as summ	[vaccine type(s)] vaccine in accordance with the minimum GAVI arised in Annex 1.
	[vaccine type(s)] vaccine support is in line with the[1st and last year] which is attached to this APR ( <b>Document</b>
	ed this request for extended support of[vaccine meeting whose minutes are attached to this APR. (Document

#### 3.7 Request for continued support for vaccines for 2011 vaccination programme

In order to request NVS support for 2011 vaccination do the following:

- 1. Go to Annex 1 (excel file)
- 2. Select the sheet corresponding to the vaccines requested for GAVI support in 2011 (e.g. Table4.1 HepB & Hib; Table4.2 YF etc)
- 3. Fill in the specifications of those requested vaccines in the first table on the top of the sheet (e.g. Table 4.1.1 Specifications for HepB & Hib; Table 4.2.1 Specifications for YF etc)
- 4. View the support to be provided by GAVI and co-financed by the country which is automatically calculated in the two tables below (e.g. Tables 4.1.2. and 4.1.3. for HepB & Hib; Tables 4.2.2. and 4.2.3. for YF etc)
- 5. Confirm here below that your request for 2011 vaccines support is as per Annex 1:

[YES, I confirm] / [NO, I don't]

If you don't confirm, please explain:

Yes, we confirm that our request for vaccine support in 2011 is in compliance with Annex 1.

# 4. Injection Safety Support (INS)

In this section the country should report about the three-year GAVI support of injection safety material for routine immunisation. In this section the country should not report on the injection safety material that is received bundled with new vaccines funded by GAVI.

#### 4.1 Receipt of injection safety support in 2009 (for relevant countries)

Are you receiving Injection Safety support in cash [ YES/NO ] or supplies [ YES/NO ]?

If INS supplies are received, please report on receipt of injection safety support provided by the GAVI Alliance during 2009 (add rows as applicable).

Table 7: Received Injection Safety Material in 2009

Injection Safety Material	Quantity	Date received

Please report on any problem	ns encountered:		

#### 4.2 Progress of transition plan for safe injections and management of sharps waste.

Even if you have not received injection safety support in 2009 please report on progress of transition plan for safe injections and management of sharps waste.

If support has ended, please report what types of syringes are used and the funding sources: GAVI's support for injection safety ended in 2006.

Table 8: Funding sources of Injection Safety material in 2009

Vaccine	Types of syringe used in 2009 routine EPI	Funding sources of 2009
BCG	AD syringes	Central government
Measles	AD syringes	Central government
TT	AD syringes	Central government
DTP-containing vaccine	AD syringes	Central government

Please report how sharps waste is being disposed of:

As described in the 2008 APR, Mauritania has widely adopted the use of AD syringes, secure receptacles and incineration of waste since 2001. In areas where an incinerator is available, vaccine waste is collected, stored and disposed of through incineration. In the absence of an incinerator, other forms of disposal are still used (burying and burning). During mass vaccination campaigns that generate large quantities of waste, the plan specifies collection, storage, and transportation to centralized district locations that have incinerators; incineration is the only method allowed.

Does the country have an injection safety policy/plan? [ YES / NO ]

If YES: Have you encountered any problem during the implementation of the transitional plan for safe injection and sharps waste? (Please report in box below)

IF NO: Are there plans to have one? (Please report in box below)

No difficulties have been encountered, because the injection safety equipment was and continues to be paid for by the central government.

4.3	Statement on use of GAVI Alliance injection safety support in 2009 (if received in
	the form of a cash contribution)

The following major areas of activities have been funded (specify the amount) with the GAVI Alliance injection safety support in the past year: N/A

Fund from GAVI received in 2009 (US\$):
Amount spent in 2009 (US\$):
Balance carried over to 2010 (US\$):

Table 9: Expenditure for 2009 activities

2009 activities for Injection Safety financed with GAVI support	Expenditure in US\$
Total	

If a balance has been left, list below the activities that will be financed in 2010:

#### Table 10: Planned activities and budget for 2010

Planned 2010 activities for Injection Safety financed with the balance of 2009 GAVI support	Budget in US\$

Total	

## 5. Health System Strengthening Support (HSS)

#### Instructions for reporting on HSS funds received

- 1. This section only needs to be completed by those countries that have been approved and received funding for their HSS application before or during the last calendar year. For countries that received HSS funds within the last 3 months of the reported year this section can be used as an inception report to discuss progress achieved and in order to enable release of HSS funds for the following year on time.
- 2. All countries are expected to report on GAVI HSS on the basis of the January to December calendar year. In instances when countries received funds late in 2009, or experienced other types of delays that limited implementation in 2009, these countries are encouraged to provide interim reporting on HSS implementation during the 1 January to 30 April period. This additional reporting should be provided in Table 13.
- 3. HSS reports should be received by 15<sup>th</sup> May 2010.
- 4. It is very important to fill in this reporting template thoroughly and accurately and to ensure that, **prior to its submission to the GAVI Alliance**, **this report has been verified by the relevant country coordination mechanisms** (HSCC or equivalent) in terms of its accuracy and validity of facts, figures and sources used. Inaccurate, incomplete or unsubstantiated reporting may lead the Independent Review Committee (IRC) either to send the APR back to the country (and this may cause delays in the release of further HSS funds), or to recommend against the release of further HSS funds or only 50% of next tranche.
- 5. Please use additional space than that provided in this reporting template, as necessary.
- 6. Please attach all required supporting documents (see list of supporting documents on page 8 of this APR form).

#### Background to the 2010 HSS monitoring section

It has been noted by the previous monitoring Independent review committee, 2009 mid-term HSS evaluation and tracking study that the monitoring of HSS investments is one of the weakest parts of the design.

All countries should note that the IRC will have difficulty in approving further trenches of funding for HSS without the following information:

- Completeness of this section and reporting on agreed indicators, as outlined in the approved M&E framework outlined in the proposal and approval letter;
- Demonstrating (with tangible evidence) strong links between activities, output, outcome and impact indicators;
- Evidence of approval and discussion by the in country coordination mechanism;
- Outline technical support that may be required to either support the implementation or monitoring of the GAVI HSS investment in the coming year
- Annual health sector reviews or Swap reports, where applicable and relevant
- Audit report of account to which the GAVI HSS funds are transferred to
- Financial statement of funds spent during the reporting year (2009)

#### 

5.1.5	Person(s) responsible for putting together this HSS report who can be contacted by the
	GAVI secretariat or by the IRC for possible clarifications:

[It is important for the IRC to understand key stages and actors involved in the process of putting the report together. For example: 'This report was prepared by the Planning Directorate of the Ministry of Health. It was then submitted to UNICEF and the WHO country offices for necessary verification of sources and review. Once their feedback had been acted upon the report was finally sent to the Health Sector Coordination Committee (or ICC, or equivalent) for final review and approval. Approval was obtained at the meeting of the HSCC on 10<sup>th</sup> March 2008. Minutes of the said meeting have been included as annex XX to this report.']

Name	Organisation	Role played in report submission	Contact email and telephone number
Government focal point to contact for	any programmatic c	larifications:	
Focal point for any accounting of final	ncial management cl	arifications:	
Other partners and contacts who took	part in putting this r	eport together:	

5.1.6 Please describe briefly the main sources of information used in this HSS report and how was information verified (validated) at country level prior to its submission to the GAVI Alliance. Were any issues of substance raised in terms of accuracy or validity of information (especially financial information and indicators values) and, if so, how were these dealt with or resolved?

[This issue should be addressed in each section of the report, as different sections may use different sources. In this section however one might expect to find what the MAIN sources of information were and a mention to any IMPORTANT issues raised in terms of validity, reliability, etcetera of information presented. For example: The main sources of information used have been the external Annual Health Sector Review undertaken on (such date) and the data from the Ministry of Health Planning Office. WHO questioned some of the service coverage figures used in section XX and these were tallied with WHO's own data from the YY study. The relevant parts of these documents used for this report have been appended to this report as annexes X, Y and Z.]

5.1.7 In putting together this report did you experience any difficulties that are worth sharing with the GAVI HSS Secretariat or with the IRC in order to improve future reporting? Please provide any suggestions for improving the HSS section of the APR report? Are there any ways for HSS reporting to be more harmonised with existing country reporting systems in your country?

5.1.8 Health Sec	ctor Coo	rdinatino	g Comm	ittee (HS	SCC)

#### 5.3 Report on HSS activities in 2009 reporting year

**Note on Table 12 below:** This section should report according to the original activities featuring in the HSS application. It is very important to be precise about the extent of progress, so please allocate a percentage to each activity line, from 0% to 100% completion. Use the right hand side of the table to provide an explanation about progress achieved as well as to bring to the attention of the reviewers any issues relating to changes that have taken place or that are being proposed in relation to the original activities. It is very important that the country provides details based on the M& E framework in the original application and approval letter.

Please do mention whenever relevant the **SOURCES** of information used to report on each activity.

Table 12: HSS activities in the 2009 reporting year

5.4	Support functions	;
O. I	Ouppoit failouonic	,

This section on **support functions** (management, M&E and Technical Support) is also very important to the GAVI Alliance. Is the management of HSS funds effective, and is action being taken on any salient issues? Have steps been taken to improve M&E of HSS funds, and to what extent is the M&E integrated with country systems (such as, for example, annual sector reviews)? Are there any issues to raise in relation to technical support needs or gaps that might improve the effectiveness of HSS funding?

5.4.1 Management
Outline how management of GAVI HSS funds has been supported in the reporting year and any changes to management processes in the coming year:
5.4.2 Monitoring and Evaluation (M&E)
Outline any inputs that were required for supporting M&E activities in the reporting year and also any support that may be required in the coming reporting year to strengthen national capacity to monitor GAVI HSS investments:
5.4.3 Technical Support
Outline what technical support needs may be required to support either programmatic implementation or M&E. This should emphasise the use of partners as well as sustainable options for use of national institutes:

Note on Table 13: This table should provide up to date information on work taking place during the calendar year during which this report has been submitted (i.e. 2010).

The column on planned expenditure in the coming year should be as per the estimates provided in the APR report of last year (Table 4.6 of last year's report) or –in the case of first time HSS reporters- as shown in the original HSS application. Any significant differences (15% or higher) between previous and present "planned expenditure" should be explained in the last column on the right, documenting when the changes have been endorsed by the HSCC. Any discrepancies between the originally approved application activities / objectives and the planned current implementation plan should also be explained here

funds. This is the section where the reporters point the attention of reviewers to key facts, what these mean and, if necessary, what can be done to improve future performance of HSS funds.
5.5.2 Are any Civil Society Organisations involved in the implementation of the HSS proposal? If
5.5.2 Are any Civil Society Organisations involved in the implementation of the HSS proposal? If
so, describe their participation? For those pilot countries that have received CSO funding there is a separate questionnaire focusing exclusively on the CSO support after this HSS section.
5.6 <u>Management of HSS funds</u>
Has a GAVI Financial Management Assessment (FMA) been conducted prior to or during the 2009 calendar year?  [IF YES]: please complete Part A below.  [IF NO]: please complete Part B below.
<b>Part A:</b> further describe progress against requirements and conditions which were agreed in any Aide Memoire concluded between GAVI and the country, as well as conditions not met in the management of HSS funds.

**Part B:** briefly describe the financial management arrangements and process used for your HSS funds. Notify whether HSS funds have been included in national health sector plans and budgets. Report also on any problems that have been encountered involving the use of HSS funds, such as delays in availability of funds for programme use.

Please include details on: the type of bank account(s) used (commercial versus government accounts); how
budgets are approved; how funds are channelled to the sub-national levels; financial reporting
arrangements at both the sub-national and national levels; and the overall role of the ICC in this process.

#### 5.7 <u>Detailed expenditure of HSS funds during the 2009 calendar year</u>

Please attach a detailed financial statement for the use of HSS funds during the 2009 calendar year **(Document N°......)**. (Terms of reference for this financial statement are attached in Annex 2). Financial statements should be signed by the Chief Accountant or by the Permanent Secretary of Ministry of Health.

If any expenditures for the January – April 2010 period are reported above in Table 16, a separate, detailed financial statement for the use of these HSS funds must also be attached **(Document N°......)**.

External audit reports for HSS, ISS and CSO-b programmes are due to the GAVI Secretariat six months following the close of your government's fiscal year. If an external audit report is available for your HSS programme during your government's most recent fiscal year, this should also be attached (**Document N**°......).

### 5.8 General overview of targets achieved

The indicators and objectives reported here should be exactly the same as the ones outlined in the original approved application and decision letter. There should be clear links to give an overview of the indicators used to measure outputs, outcomes and impact:

Table 15: Indicators listed in original application approved

Name of Objective or Indicator (Insert as many rows as necessary)	Numerator	Denominator	Data Source	Baseline Value and date	Baseline Source	2009 Target
Objective 1:						
1.1						
1.2						
Objective 2:						
2.1						
2.2						

In the space below, please provide justification and re	asons for those indicators	that in this APR are d	ifferent from the or	ginal approved app	olication:	
Provide justification for any changes in the <b>definition</b>	of the indicators:					
Provide justification for any changes in the denomina	itor:					
Provide justification for any changes in data source:						

Table 16: Trend of values achieved

Name of Indicator (insert indicators as listed in above table, with one row dedicated to each indicator)	2007	2008	2009	Explanation of any reasons for non achievement of targets
1.1				
1.2				
2.1				
2.2				

	Explain any	y weaknesses in link	s between indicators	s for inputs, outputs an	d outcomes:		
Ī							

#### 5.9 Other sources of funding in pooled mechanism for HSS

If other donors are contributing to the achievement of objectives outlined in the GAVI HSS proposal, please outline the amount and links to inputs being reported on:

Table 17: Sources of HSS funds in a pooled mechanism

Donor	Amount in US\$	Duration of support	Contributing to which objective of GAVI HSS proposal
	_		

#### Strengthened Involvement of Civil Society Organisations (CSOs) 6.

#### 6.1 TYPE A: Support to strengthen coordination and representation of CSOs

This section is to be completed by countries that have received GAVI TYPE A CSO

support <sup>4</sup>
Please fill text directly into the boxes below, which can be expanded to accommodate the text.
Please list any abbreviations and acronyms that are used in this report below:
6.1.1 Mapping exercise
Please describe progress with any mapping exercise that has been undertaken to outline the
key civil society stakeholders involved with health systems strengthening or immunisation.  Please describe the mapping exercise, the expected results and the timeline (please indicate if
this has changed). Please attach the report from the mapping exercise to this progress report, if the mapping exercise has been completed ( <b>Document N</b> °).
Please describe any hurdles or difficulties encountered with the proposed methodology for identifying the most appropriate in-country CSOs involved or contributing to immunisation, child health and/or health systems strengthening. Please describe how these problems were overcome, and include any other information relating to this exercise that you think it would be useful for the GAVI Alliance secretariat or Independent Review Committee to know about.

Annual Progress Report 2009

Type A GAVI Alliance CSO support is available to all GAVI eligible countries.

#### 6.1.2 Nomination process

Please describe progress with processes for nominating CSO representatives to the HSCC (or equivalent) and ICC, and any selection criteria that have been developed. Please indicate the initial number of CSOs represented in the HSCC (or equivalent) and ICC, the current number and the final target. Please state how often CSO representatives attend meetings (% meetings attended).
Please provide Terms of Reference for the CSOs (if developed), or describe their expected roles below. State if there are guidelines/policies governing this. Outline the election process and how the CSO community will be/have been involved in the process, and any problems that have arisen.
Please state whether participation by CSOs in national level coordination mechanisms (HSCC or equivalent and ICC) has resulted in a change in the way that CSOs interact with the Ministry of Health. Is there now a specific team in the Ministry of Health responsible for linking with CSOs? Please also indicate whether there has been any impact on how CSOs interact with each other.

#### 6.1.3 Receipt and expenditure of CSO Type A funds

Please ensure that the figures reported below are consistent with financial reports and/or audit reports submitted for CSO Type A funds for the 2009 year.

Funds received during 2009: US\$......

Remaining funds (carried over) from 2008: US\$......

Balance to be carried over to 2010: US\$......

#### 6.2 TYPE B: Support for CSOs to help implement the GAVI HSS proposal or cMYP

This section is to be completed by countries that have received GAVI TYPE B CSO support <sup>5</sup>
Please fill in text directly into the boxes below, which can be expanded to accommodate the text.
Please list any abbreviations and acronyms that are used in this report below:
6.2.1 Programme implementation
Briefly describe progress with the implementation of the planned activities. Please specify how they have supported the implementation of the GAVI HSS proposal or cMYP (refer to your proposal). State the key successes that have been achieved in this period of GAVI Alliance support to CSOs.
Please indicate any major problems (including delays in implementation), and how these have been overcome. Please also identify the lead organisation responsible for managing the grant implementation (and if this has changed from the proposal), the role of the HSCC (or equivalent).

<sup>&</sup>lt;sup>5</sup> Type B GAVI Alliance CSO Support is available to 10 pilot GAVI eligible countries only: Afghanistan, Burundi, Bolivia, DR Congo, Ethiopia, Georgia, Ghana, Indonesia, Mozambique and Pakistan.

Please state whether the GAVI Alliance Type B support to CSOs has resulted in a change in the way that CSOs interact with the Ministry of Health, and or / how CSOs interact with each other.
Please outline whether the support has led to a change in the level and type of involvement by CSOs in immunisation and health systems strengthening (give the current number of CSOs involved, and the initial number).
Please outline any impact of the delayed disbursement of funds may have had on implementation and the need for any other support.

Please give the names of the CSOs that have been supported so far with GAVI Alliance Type B CSO support and the type of organisation. Please state if were previously involved in immunisation and / or health systems strengthening activities, and their relationship with the Ministry of Health.

For each CSO, please indicate the major activities that have been undertaken, and the outcomes that have been achieved as a result. Please refer to the expected outcomes listed in the proposal.

Table 18: Outcomes of CSOs activities

Name of CSO (and type of organisation)	Previous involvement in immunisation / HSS	GAVI supported activities undertaken in 2009	Outcomes achieved

Please list the CSOs that have not yet been funded, but are due to receive support in 2010/2011, with the expected activities and related outcomes. Please indicate the year you expect support to start. Please state if are currently involved in immunisation and / or health systems strengthening.

Please also indicate the new activities to be undertaken by those CSOs already supported.

**Table 19:** Planned activities and expected outcomes for 2010/2011

Name of CSO (and type of organisation)	Current involvement in immunisation / HSS	GAVI supported activities due in 2010 / 2011	Expected outcomes

### Please ensure that the figures reported below are consistent with financial reports and/or audit reports submitted for CSO Type B funds for the 2009 year. Funds received during 2009: US\$..... Remaining funds (carried over) from 2008: US\$..... Balance to be carried over to 2010: US\$..... 6.2.3 Management of GAVI CSO Type B funds Has a GAVI Financial Management Assessment (FMA) been conducted prior to or during the 2009 calendar year ? [ IF YES ] : please complete Part A below. [ IF NO ] : please complete Part B below. Part A: further describe progress against requirements and conditions for the management of CSO Type B funds which were agreed in any Aide Memoire concluded between GAVI and the country, as well as conditions not met in the management of CSO Type B funds. Part B: briefly describe the financial management arrangements and process used for your CSO Type B funds. Indicate whether CSO Type B funds have been included in national health sector plans and budgets. Report also on any problems that have been encountered involving the use of CSO Type B funds, such as delays in availability of funds for programme use.

6.2.2 Receipt and expenditure of CSO Type B funds

Please include details on: the type of bank account(s) used (commercial versus government accounts); how budgets are approved; how funds are channelled to the sub-national levels; financial reporting arrangements at both the sub-national and national levels; and the overall role of the HSCC in this process.

6.2.4 Detailed expenditure of CSO Type B funds during the 2009 calendar year

Please attach a detailed financial statement for the use of CSO Type B funds during the 2009 calendar year (**Document N**°......). (*Terms of reference for this financial statement are attached in Annex 4*). Financial statements should be signed by the Chief Accountant or by the Permanent Secretary of Ministry of Health.

External audit reports for CSO Type B, ISS, HSS programmes are due to the GAVI Secretariat six months following the close of your government's fiscal year. If an external audit report is available for your CSO Type B programme during your government's most recent fiscal year, this should also be attached (**Document N**°......).

#### 6.2.5 Monitoring and Evaluation

Please give details of the indicators that are being used to monitor performance; outline progress in the last year (baseline value and current status), and the targets (with dates for achievement).

These indicators will be in the CSO application and reflect the cMYP and / or GAVI HSS proposal.

**Table 20:** Progress of CSOs project implementation

Activity / outcome	Indicator	Data source	Baseline value and date	Current status	Date recorded	Target	Date for target

Finally, please give details of the mechanisms that are being used to monitor these indicators, including the role of beneficiaries in monitoring the progress of activities, and how often this occurs. Indicate any problems experienced in measuring the indicators, and any changes proposed.							

### 7. Checklist

Table 21: Checklist of a completed APR form

Fill the blank cells according to the areas of support reported in the APR. Within each blank cell, please type: Y=Submitted or N=Not submitted.

	MANDATORY REQUIREMENTS (if one is missing the APR is NOT FOR IRC REVIEW)	ISS	NVS	HSS	cso
1	Signature of Minister of Health (or delegated authority) of APR	X			
2	Signature of Minister of Finance (or delegated authority) of APR	X			
3	Signatures of members of ICC/HSCC in APR Form	X			
4	Provision of Minutes of ICC/HSCC meeting endorsing APR	X			
5	Provision of complete excel sheet for each vaccine request		X		
6	Provision of Financial Statements of GAVI support in cash				
7	Consistency in targets for each vaccines (tables and excel)		X		
8	Justification of new targets if different from previous approval (section 1.1)		X		
9	Correct co-financing level per dose of vaccine		X		
10	Report on targets achieved (tables 15,16, 20)				

11	Provision of cMYP for re-applying					
----	-----------------------------------	--	--	--	--	--

	OTHER REQUIREMENTS	ISS	NVS	HSS	cso
12	Anticipated balance in stock as at 1 January 2010 in Annex 1		X		
13	Consistency between targets, coverage data and survey data		X		
14	Latest external audit reports (Fiscal year 2009)				
15	Provide information on procedure for management of cash				
16	Health Sector Review Report				
17	Provision of new Banking details				
18	Attach VMA if the country introduced a New and Underused Vaccine before 2008 with GAVI support				
19	Attach the CSO Mapping report (Type A)				

### 8. Comments

Comments from ICC/HSCC Chairs:
Please provide any comments that you may wish to bring to the attention of the monitoring IRC in the course of this review and any information you may wish to share in relation to challenges you have experienced during the year under review. These could be in addition to the approved minutes, which should be included in the attachments

# GAVI ANNUAL PROGRESS REPORT ANNEX 2 TERMS OF REFERENCE: FINANCIAL STATEMENTS FOR IMMUNISATION SERVICES SUPPORT (ISS) AND NEW VACCINE INTRODUCTION GRANTS

- I. All countries that have received ISS /new vaccine introduction grants during the 2009 calendar year, or had balances of funding remaining from previously disbursed ISS/new vaccine introduction grants in 2009, are required to submit financial statements for these programmes as part of their Annual Progress Reports.
- II. Financial statements should be compiled based upon countries' own national standards for accounting, thus GAVI will not provide a single template to countries with predetermined cost categories.
- III. **At a minimum**, GAVI requires a simple statement of income and expenditure for activity during the 2009 calendar year, to be comprised of points (a) through (f), below. A sample basic statement of income and expenditure is provided on page 2 of this annex.
  - a. Funds carried forward from the 2008 calendar year (opening balance as of 1 January 2009)
  - b. Income received from GAVI during 2009
  - c. Other income received during 2009 (interest, fees, etc)
  - d. Total expenditure during the calendar year
  - e. Closing balance as of 31 December 2009
  - f. A detailed analysis of expenditures during 2009, based on *your government's own system of economic classification*. This analysis should summarise total annual expenditure for the year by your government's own system of economic classification, and relevant cost categories, for example: wages & salaries. If possible, please report on the budget for each category at the beginning of the calendar year, actual expenditure during the calendar year, and the balance remaining for each cost category as of 31 December 2009 (referred to as the "variance").
- IV. Financial statements should be compiled in local currency, with an indication of the USD exchange rate applied. Countries should provide additional explanation of how and why a particular rate of exchange has been applied, and any supplementary notes that may help the GAVI Alliance in its review of the financial statements.
- V. Financial statements need not have been audited/certified prior to their submission to GAVI. However, it is understood that these statements should be subjected to scrutiny during each country's external audit for the 2009 financial year. Audits for ISS are due to the GAVI Secretariat 6 months following the close of each country's financial year.

#### MINIMUM REQUIREMENTS FOR ISS AND VACCINE INTRODUCTION GRANT FINANCIAL STATEMENTS: An example statement of income & expenditure

Summary of income and expenditure – GAVI ISS							
	Local Currency (CFA)	Value in USD <sup>7</sup>					
Balance brought forward from 2008 (balance as of 31 December 2008)	25,392,830	53,000					
Summary of income received during 2009	'						
Income received from GAVI	57,493,200	120,000					
Income from interest	7,665,760	16,000					
Other income (fees)	179,666	375					
Total Income	65,338,626	136,375					
Total expenditure during 2009	30,592,132	63,852

<sup>8</sup> Expenditure categories are indicative, and only included for demonstration purposes. Each implementing government should provide statements in accordance with its own system for economic classification.

# GAVI ANNUAL PROGRESS REPORT ANNEX 3 TERMS OF REFERENCE: FINANCIAL STATEMENTS FOR HEALTH SYSTEMS STRENGTHENING (HSS)

- All countries that have received HSS grants during the 2009 calendar year, or had balances of funding remaining from previously disbursed HSS grants in 2009, are required to submit financial statements for these programmes as part of their Annual Progress Reports.
- II. Financial statements should be compiled based upon countries' own national standards for accounting, thus GAVI will not provide a single template to countries with predetermined cost categories.
- III. **At a minimum**, GAVI requires a simple statement of income and expenditure for activity during the 2009 calendar year, to be comprised of points (a) through (f), below. A sample basic statement of income and expenditure is provided on page 3 of this annex.
  - a. Funds carried forward from the 2008 calendar year (opening balance as of 1 January 2009)
  - b. Income received from GAVI during 2009
  - c. Other income received during 2009 (interest, fees, etc)
  - d. Total expenditure during the calendar year
  - e. Closing balance as of 31 December 2009
- f. A detailed analysis of expenditures during 2009, based on *your government's own system of economic classification*. This analysis should summarise total annual expenditure for each HSS objective and activity, per your government's originally approved HSS proposal, with further breakdown by cost category (for example: wages & salaries). Cost categories used should be based upon your government's own system for economic classification. Please report the budget for each objective, activity and cost category at the beginning of the calendar year, the actual expenditure during the calendar year, and the balance remaining for each objective, activity and cost category as of 31 December 2009 (referred to as the "variance").
- IV. Financial statements should be compiled in local currency, with an indication of the USD exchange rate applied. Countries should provide additional explanation of how and why a particular rate of exchange has been applied, and any supplementary notes that may help the GAVI Alliance in its review of the financial statements.
- V. Financial statements need not have been audited/certified prior to their submission to GAVI. However, it is understood that these statements should be subjected to scrutiny

during each country's external audit for the 2009 financial year. Audits for HSS are due to the GAVI Secretariat 6 months following the close of each country's financial year.
