1. Immunization Programme Support (ISS, NVS, INS)

1.1 Immunization Services Support (ISS)

Were the funds received for ISS on-budget in 2008? (reflected in Ministry of Health and/or Ministry of Finance budget): Yes/No

If yes, please explain in detail how the GAVI Alliance ISS funding was reflected in the MoH/MoF budget in the box below.

If not, please explain why the GAVI Alliance ISS funding was not reflected in the MoH/MoF budget and whether there is an intention to get the ISS funding on-budget in the near future?

Tanzania didn't qualify to receive ISS fund in 2008. All activities are reflected in the MOH/MOF budget however due to various revisions at different levels some of the activities are missing.

1.1.1 Management of ISS Funds

Please describe the mechanism for management of ISS funds, including the role of the Inter-Agency Co-ordinating Committee (ICC).

Please report on any problems that have been encountered involving the use of those funds, such as delay in availability for programme use.

The program prepares annual work plan, which is inline with cMYP, and Health Sector plan (priorities). The plan is shared with the ICC members for discussion and approval. The plan is then, submitted to WHO for fund disbursement. (WHO is a custodian of GAVI ISS fund).

WHO will support the approved activities after receiving request of specific activities from Ministry of Health and Social Welfare with a signed local cost subsidy form. Procurement of requested items is done according to WHO procurement procedures however, Ministry provides specifications of items.

The internal auditors from internal audit department of the MOHSW do audit.

There is a delay in procurement process at times

Change of rates of payment requires new submission of request and this cause delay in the implementation.

Megaphones procured were not of provided specification.

No regular updates on ISS fund status

1.1.2 Use of Immunization Services Support

In 2008, the following major areas of activities have been funded with the GAVI Alliance **Immunization Services Support** contribution.

Funds received during 2008 –**1,746,313.95**

Remaining funds (carry over) from 2007 -**2,445,159.00**

Balance to be carried over to 2009 - **3,493,880.60**

Table 1.1: Use of funds during 2008*

1.1.3 ICC meetings

How many times did the ICC meet in 2008? 2 TIMES

Please attach the minutes (DOCUMENT N°.....) from all the ICC meetings held in 2008 specially the ICC minutes when the allocation and utilization of funds were discussed.

Are any Civil Society Organizations members of the ICC: **[Yes]**

if yes, which ones?

List CSO member organisations
Baraza la Waislam Tanzania , Christian Social Service Community, Pediatric Association of Tanzania, Tanzania Red Cross Society, Tanzania Marketing and Communication

Please report on major activities conducted to strengthen immunization, as well as problems encountered in relation to implementing your multi-year plan.

ACTIVITIES CONDUCTED:

- **Annual evaluation meeting**
- **National level RED supervisors training/planning meeting**
 - **Analysis of 2007 data was done and 17 low performing districts were identified. These were designated RED implementation emphasis districts.**
 - **Meeting with Kinondoni district to plan how to raise coverage was conducted. Two more personnel were assigned to do immunization activities however; due to staff shortage currently they have been assigned to do another job.**
- **Megaphones for continuous health education messages were procured for all immunizing health facilities.**
- **Routine data management orientation was done to regional immunization resource persons.**
- **New comers training was conducted to newly appointed immunization resource persons.**
- **Cold chain management, SMT and Cold Chain Inventory Tool training was done.**
 - **Micro plan training**
 - **Quarterly EPI evaluation meeting in Zanzibar**
- **Support of IMC activities**

PROBLEM ENCOUNTERED:

- **Lack of recording facilities in the procured megaphones. This caused the health education messages not to be continuous hence mothers reporting late to the clinic continue to miss the health education sessions.**
- **Timeliness of reporting of routine immunisation data is still a problem. The timeliness was 21%, which does not allow prompt rectification of the problem.**
- **Attrition of trained staff affects some facilities especially in remote areas.**
- **Lack of transport for supervision**

Attachments:

Three (additional) documents are required as a prerequisite for continued GAVI ISS support in 2010:

- a) Signed minutes (DOCUMENT N°.....) of the ICC meeting that endorse this section of the Annual Progress Report for 2008. This should also include the minutes of the ICC meeting when the financial statement was presented to the ICC.
- b) Most recent external audit report (DOCUMENT N°.....) (e.g. Auditor General's Report or equivalent) of **account(s)** to which the GAVI ISS funds are transferred.
- c) Detailed Financial Statement of funds (DOCUMENT N°.....) spent during the reporting year (2008).
- d) The detailed Financial Statement must be signed by the Financial Controller in the Ministry of Health and/or Ministry of Finance and the chair of the ICC, as indicated below:

1.1.4 Immunization Data Quality Audit (DQA)

If a DQA was implemented in 2007 or 2008 please list the recommendations below:

List major recommendations

DQA was neither conducted in 2007 nor in 2008

Has a plan of action to improve the reporting system based on the recommendations from the last DQA been prepared?

YES

☒

NO

☐

If yes, what is the status of recommendations and the progress of implementation and attach the plan.

- **Districts introduced one year booklet tally sheets**
- **Data Quality Self Assessment training was conducted country wide**
- **Ledgers are checked during supervisory visits and appropriate actions are advised**
- **Few districts integrated Data Quality Self Assessment into routine supervisory checklist**
- **Introduction of electronic data management tool countrywide was done however; timeliness of reporting routine immunization data is a problem in Tanzania Mainland. Only 9 regions report regularly in Tanzania Mainland while all zones in Zanzibar reports timely.**
- **HIMS department revised data collecting tools**
- **Timeliness of routine reporting is one of the payment for performance indicators**

Please highlight in which ICC meeting the plan of action for the last DQA was discussed and endorsed by the ICC. February/2009]

Please report on any studies conducted and challenges encountered regarding EPI issues and administrative data reporting during 2008 (for example, coverage surveys, DHS, house hold surveys, etc).

List studies conducted:

Coverage survey was conducted immediately after measles campaign

Measles outbreak investigations

Risk Factors for Recurrent outbreaks of Measles in Temeke Municipality, Dar es Salaam, 2008.

List challenges in collecting and reporting administrative data:

Timeliness of reporting is very low

There is a problem of target population as the estimated population appears to be too high or too low

Transfer of data from one level to the other is a challenge.

Lack of reliable courier system

Use of data at the local level

Emerging rumours

Low level of immunization knowledge among media people

Low awareness at the community

1.2. GAVI Alliance New & Under-used Vaccines Support (NVS)

1.2.1. Receipt of new and under-used vaccines during 2008

When was the new and under-used vaccine introduced? Please include change in doses per vial and change in presentation, (e.g. DTP + HepB mono to DTP-HepB)

[List new and under-used vaccine introduced in 2008]

DPT-HB-Hib vaccine (pentavalent) was introduced in 2009 however preparations started in 2008

[List any change in doses per vial and change in presentation in 2008]

From 10 doses vial tetravalent to single dose Pentavalent vaccine

Dates shipments were received in 2008.

Vaccine	Vials size	Total number of Doses	Date of Introduction	Date shipments received (2008)
DPT Hep B	10 dose	311,000	16/1/2002	21/1/2008
DPT Hep B	10 dose	310,500	16/1/2002	27/2/2008

Please report on any problems encountered.

[List problems encountered]

No serious problem encountered

1.2.2. Major activities

Please outline major activities that have been or will be undertaken, in relation to, introduction, phasing-in, service strengthening, etc. and report on problems encountered.

Advocacy to decision makers on new vaccine (pentavalent) introduction and the need of co financing

Securing co-financing fund and budget preparation

Forecasting of the Pentavalent vaccine requirements.

Sensitization to different levels/people including Central Vaccine Store on new vaccine management

Development of training manual and IEC materials for pentavalent introduction

Other activities for introduction of pentavalent were done in early 2009 which include:

- ***Printing of training manuals and IEC materials***
- ***Distribution of training manuals and IEC manuals, pentavalent vaccine (bundling)***
- ***Training of national, zonal and regional resource persons on new vaccine***
- ***Training to all health facilities (Training of immunization service providers on new vaccine.***
-
- ***Inauguration of pentavalent vaccine***

[List activities]

1.2.3. Use of GAVI funding entity support for the introduction of the new vaccine

These funds were received on: **[08/08/2008]**

Please report on the proportion of introduction grant used, activities undertaken, and problems encountered such as delay in availability of funds for programme use.

Year	Amount in US\$	Date received	Balance remaining in US\$	Activities	List of problems
2009	547,000	8/8/2008	56,444.62	Printing IEC& training manuals Training of H/providers Inauguration	Long government procedures. Delay in transferring fund for Zanzibar

1.2.4. Effective Vaccine Store Management/Vaccine Management Assessment

When was the last Effective Vaccine Store Management (EVSM)/Vaccine Management Assessment (VMA) conducted? *[mm/yyyy]* **2007**

If conducted in 2007/2008, please summarize the major recommendations from the EVSM/VMA.

[List major recommendations]

- *The National level should secure enough funds to meet national vaccine requirements and to avoid frequent stock outs experienced at all levels.*
- *In view of weaknesses revealed by this assessment the national EPI office should mobilize resources to conduct vaccine management training workshops initially targeting national and sub-national vaccine storekeepers and then their supervisors. WHO may provide technical assistance if required. For all other relevant health workers the Ministry could include vaccine management issues in agendas of other meetings/fora and or give on the job training during supervisory visits*
- *The Central Vaccine Store cold and freezer rooms should be fitted with continuous temperature recording systems and temperature alarm units.*
- *Ensure freeze dried vaccines have appropriate correct quantities of diluents. Request lower levels to conduct a physical inventory of all freeze dried vaccines and their diluents and ask them to end any excess diluents to upper level possible redistribution the areas where there are shortage. Otherwise all vaccine without diluents should be discarded.*
- *Develop new and or update existing vaccine management guidelines and distribute*

them to all levels for use by health workers.

- *Strengthen supportive supervision to address vaccine management issues at all levels.*

Was an action plan prepared following the EVSM/VMA? **Yes**

If yes, please summarize main activities under the EVSM plan and the activities to address the recommendations and their implementation status.

[List main activities]

In 2007

Advocacy for vaccine security, development and dissemination of Vaccine Management guidelines and training of supervisors and Implementers on Vaccine Management. Other activities include; printing and distribution of VVM stickers and other job aid materials.

In 2008

Training of cold chain officers (CCIT, SMT)

Vaccine management training was conducted for regional supervisors

Printing of VMA report

When will the next EVSM/VMA* be conducted **2010**

**All countries will need to conduct an EVSM/VMA in the second year of new vaccines supported under GAVI Phase 2.*

1.3 Injection Safety

1.3.1 Receipt of injection safety support (for relevant countries)

Are you receiving Injection Safety support in cash or supplies?. **Currently No cash, except syringes and safety boxes for GAVI supported vaccine**

If yes, please report on receipt of injection safety support provided by the GAVI Alliance during 2008 (add rows as applicable).

Injection Safety Material	Quantity	Date received

Please report on any problems encountered.

[List problems]

No problem encountered

1.3.2. Even if you have not received injection safety support in 2008 please report on progress of transition plan for safe injections and management of sharps waste.

If support has ended, please report how injection safety supplies are funded.

[List sources of funding for injection safety supplies in 2008]

All injection materials and safety boxes for non-GAVI support vaccines are procured using government fund

Please report how sharps waste is being disposed of.

[Describe how sharps is being disposed of by health facilities]

Sharps are disposed in the incinerators in the area where incinerators are available and for facilities without incinerators burn and bury method are used. Burn and bury is done daily under supervision of the health workers.

Please report problems encountered during the implementation of the transitional plan for safe injection and sharps waste.

[List problems]

- **Unavailability of quality building materials for incinerators in the country /**
- **Poor quality of firebricks used for constructed incinerators.**
- **Poor supervision during construction.**
- **Lack of knowledge on how to manage incinerator among health staff/ incinerator Attendants.**

1.3.3. Statement on use of GAVI Alliance injection safety support in 2008 (if received in the form of a cash contribution)

The following major areas of activities have been funded (specify the amount) with the GAVI Alliance injection safety support in the past year:

[List items funded by GAVI Alliance cash support and funds remaining by the end of 2008]

INS ended in 2004

2. Vaccine Immunization Financing, Co-financing, and Financial Sustainability

Table 2.1: Overall Expenditures and Financing for Immunization

The purpose of Table 2.1 is to guide GAVI understanding of the broad trends in immunization programme expenditures and financial flows.

Please the following table should be filled in using US \$.

	Reporting Year 2008	Reporting Year + 1	Reporting Year + 2
	Expenditures	Budgeted	Budgeted
Expenditures by Category			
Traditional Vaccines	2,085,000	2145465	2207683.49
New Vaccines	3,825,528	23199753	17188849
Injection supplies	1,066,806	1348342.38	1387444

Other (please specify)	12,500,000	1,500,000	800,000
Total EPI	22,743,675	23,199,753.00	17,188,849.00
Total Government Health	13,000,000	13,000,000	13,000,000

Exchange rate used	1300
--------------------	------

Please describe trends in immunization expenditures and financing for the reporting year, such as differences between planned versus actual expenditures, financing and gaps. Give details on the reasons for the reported trends and describe the financial sustainability prospects for the immunization program over the next three years; whether the funding gaps are manageable, challenge, or alarming. If either of the latter two is applicable, please explain the strategies being pursued to address the gaps and indicate the sources/causes of the gaps.

The immunization financing has increased especially from the Government over the years. However, in the year 2006, funds allocated to EPI were reduced. This influenced the drop in 2007 vaccination coverage.

Future Country Co-Financing (in US\$)

Please refer to the excel spreadsheet Annex 1 and proceed as follows:

- Please complete the excel sheet's "Country Specifications" Table in Tab 1 of Annex 1, using the data available in the other Tabs: Tab 3 for the commodities price list, Tab 5 for the vaccine wastage factor and Tab 4 for the minimum co-financing levels per dose.
- Then please copy the data from Annex 1 (Tab "Support Requested" Table 2) into Tables 2.2.1 (below) to summarize the support requested, and co-financed by GAVI and by the country.

Please submit the electronic version of the excel spreadsheets Annex 1 (one Annex for each vaccine requested) together with the application.

Table 2.2.1 is designed to help understand future country level co-financing of GAVI awarded vaccines. If your country has been awarded more than one new vaccine please complete as many tables as per each new vaccine being co-financed (Table 2.2.2; Table 2.2.3;)

3rd Awarded Vaccine (specify)		

Q. 3: What factors have slowed or hindered or accelerated mobilization of resources for vaccine co-financing?
1. <i>Poverty</i>
2. <i>Competing priorities with Malaria and HIV/AIDS.</i>
3. <i>Lack of awareness on the importance of immunisation among decision makers/immunisation stakeholders</i>
4.

*** Reprogramming available balance with UNICEF Copenhagen of US\$ 1,623,904 by October 2008**

If the country is in default please describe and explain the steps the country is planning to come out of default.

3. Request for new and under-used vaccines for year 2010

Section 3 is to the request new and under-used vaccines and related injection safety supplies for 2010.

3.1. Up-dated immunization targets

Please provide justification and reasons for changes to baseline, targets, wastage rate, vaccine presentation, etc. from the previously approved plan, and on reported figures which differ from those reported in the **WHO/UNICEF Joint Reporting Form** in the space provided below.

Are there changes between table A and B? Yes/no

If there are changes, please describe the reasons and justification for those changes below:

Provide justification for any changes *in births*:

Population growth and census projection

Provide justification for any changes *in surviving infants*:

Population growth and census projection

Provide justification for any changes *in Targets by vaccine*:

Population growth and census projection

Provide justification for any changes *in Wastage by vaccine*:

The estimated wastage rate was 10% but actual wastage rate is 7%. This was due to the fact that the multi dose vial policy was implemented following refresher training on vaccine management for the cold chain officers and vaccinators.

Vaccine 1: DTPHepBHib

Please refer to the excel spreadsheet Annex 1 and proceed as follows:

- Please complete the “Country Specifications” Table in Tab 1 of Annex 1, using the data available in the other Tabs: Tab 3 for the commodities price list, Tab 5 for the vaccine wastage factor and Tab 4 for the minimum co-financing levels per dose.
- Please summarise the list of specifications of the vaccines and the related vaccination programme in Table 3.1 below, using the population data (from Table B of this APR) and the price list and co-financing levels (in Tables B, C, and D of Annex 1).
- Then please copy the data from Annex 1 (Tab “Support Requested” Table 1) into Table 3.2 (below) to summarize the support requested, and co-financed by GAVI and by the country.

Please submit the electronic version of the excel spreadsheets Annex 1 together with the application.

(Repeat the same procedure for all other vaccines requested and fill in tables 3.3; 3.4;)

4. Health Systems Strengthening (HSS)

Instructions for reporting on HSS funds received

1. As a Performance-based organisation the GAVI Alliance expects countries to report on their performance – this has been the principle behind the Annual Progress Reporting –APR– process since the launch of the GAVI Alliance. Recognising that reporting on the HSS component can be particularly challenging given the complex nature of some HSS interventions the GAVI Alliance has prepared these notes aimed at helping countries complete the HSS section of the APR report.
2. All countries are expected to report on HSS on the basis of the January to December calendar year. Reports should be received by 15th May of the year after the one being reported.
3. This section **only needs to be completed by those countries that have been approved and received funding for their HSS proposal before or during the last calendar year**. For countries that received HSS funds within the last 3 months of the reported year can use this as an inception report to discuss progress achieved and in order to enable release of HSS funds for the following year on time.
4. It is very important to fill in this reporting template thoroughly and accurately, and to ensure that **prior to its submission to the GAVI Alliance this report has been verified by the relevant country coordination mechanisms** (ICC, HSCC or equivalent) in terms of its accuracy and validity of facts, figures and sources used. Inaccurate, incomplete or unsubstantiated reporting may lead to the report not being accepted by the Independent Review Committee (IRC) that monitors all APR reports, in which case the report might be sent back to the country and this may cause delays in the release of further HSS funds. Incomplete, inaccurate or unsubstantiated reporting may also cause the IRC to recommend against the release of further HSS funds.
5. Please use additional space than that provided in this reporting template, as necessary.

4.1 Information relating to this report:

- a) Fiscal year runs from(month) to(month).
- b) This HSS report covers the period from(month/year) to(month/year)
- c) Duration of current National Health Plan is from(month/year) to(month/year).
- d) Duration of the immunisation cMYP:
- e) Who was responsible for putting together this HSS report who may be contacted by the GAVI secretariat or by the IRC for any possible clarifications?

It is important for the IRC to understand key stages and actors involved in the process of putting the report together. For example: *'This report was prepared by the Planning Directorate of the Ministry of Health. It was then submitted to UNICEF and the WHO country offices for necessary verification of sources and review. Once their feedback had been acted upon the report was finally sent to the Health Sector Coordination Committee (or ICC, or equivalent) for final review and approval. Approval was obtained at the meeting of the HSCC on 10th March 2008. Minutes of the said meeting have been included as annex XX to this report.'*

Name	Organisation	Role played in report submission	Contact email and telephone number
Government focal point to contact for any clarifications			
Other partners and contacts who took part in putting this report together			

- f) Please describe briefly the main sources of information used in this HSS report and how was information verified (validated) at country level prior to its submission to the GAVI Alliance. Were any issues of substance raised in terms of accuracy or validity of information and, if so, how were these dealt with or resolved?

This issue should be addressed in each section of the report, as different sections may use different sources. In this section however one might expect to find what the MAIN sources of information were and a mention to any IMPORTANT issues raised in terms of validity, reliability, etcetera of information presented. For example: *The main sources of information used have been the external Annual Health Sector Review undertaken on (such date) and the data from the Ministry of Health Planning Office. WHO questioned some of the service coverage figures used in section XX and these were tallied with WHO's own data from the YY study. The relevant parts of these documents used for this report have been appended to this report as annexes X, Y and Z.*

The following table shows the results of the regression analysis. The dependent variable is the number of days absent from work due to illness or injury. The independent variables are age, gender, education, experience, tenure, and industry. The R-squared value indicates the proportion of variance explained by the model.

- g) In putting together this report did you experience any difficulties that are worth sharing with the GAVI HSS Secretariat or with the IRC in order to improve future reporting? Please provide any suggestions for improving the HSS section of the APR report? Are there any ways for HSS reporting to be more harmonised with existing country reporting systems in your country?

4.2 Overall support breakdown financially

Period for which support approved and new requests. For this APR, these are measured in calendar years, but in future it is hoped this will be fiscal year reporting:

Amount spent in 2008:

Remaining balance from total:

Table 4.3 note: This section should report according to the original activities featuring in the HSS proposal. It is very important to be precise about the extent of progress, so please allocate a percentage to each activity line, from 0% to 100% completion.. Use the right hand side of the table to provide an explanation about progress achieved as well as to bring to the attention of the reviewers any issues relating to changes that have taken place or that are being proposed in relation to the original activities.

Please do mention whenever relevant the **SOURCES** of information used to report on each activity. The section on **support functions** (management, M&E and Technical Support) is also very important to the GAVI Alliance. Is the management of HSS funds effective, and is action being taken on any salient issues? Have steps been taken to improve M&E of HSS funds, and to what extent is the M&E integrated with country systems (such as, for example, annual sector reviews)? Are there any issues to raise in relation to technical support needs or gaps that might improve the effectiveness of HSS funding?

Table 4.4 note: This table should provide up to date information on work taking place in the first part of the year when this report is being submitted i.e. between January and April 2009 for reports submitted in May 2009.

The column on Planned expenditure in coming year should be as per the estimates provided in the APR report of last year (Table 4.6 of last year's report) or –in the case of first time HSS reporters- as shown in the original HSS proposal.

Any significant differences (15% or higher) between previous and present “planned expenditure” should be explained in the last column on the right.

4.6 Programme implementation for reporting year:

- a) Please provide a narrative on major accomplishments (especially impacts on health service programs, notably the immunization program), problems encountered and solutions found or proposed, and any other salient information that the country would like GAVI to know about. Any reprogramming should be highlighted here as well.

This section should act as an executive summary of performance, problems and issues linked to the use of the HSS funds. This is the section where the reporters point the attention of reviewers to **key facts**, what these mean and, if necessary, what can be done to improve future performance of HSS funds.

- b) Are any Civil Society Organizations involved in the implementation of the HSS proposal? If so, describe their participation? For those pilot countries that have received CSO funding there is a separate questionnaire focusing exclusively on the CSO support after this HSS section.*

4.7 Financial overview during reporting year:

4.7 note: In general, HSS funds are expected to be visible in the MOH budget and add value to it, rather than HSS being seen or shown as separate “project” funds. These are the kind of issues to be discussed in this section

- a) Are funds on-budget (reflected in the Ministry of Health and Ministry of Finance budget): Yes/No If not, why not and how will it be ensured that funds will be on-budget? Please provide details.*

- b) Are there any issues relating to financial management and audit of HSS funds or of their linked bank accounts that have been raised by auditors or any other parties? Are there any issues in the audit report (to be attached to this report) that relate to the HSS funds? Please explain.*

Five pieces of further information are required for further disbursement or allocation of future vaccines.

- a. Signed minutes of the HSCC meeting endorsing this reporting form
- b. Latest Health Sector Review report
- c. Audit report of account to which the GAVI HSS funds are transferred to
- d. Financial statement of funds spent during the reporting year (2008)
- e. This sheet needs to be signed by the government official in charge of the accounts HSS funds have been transferred to, as below.

5. Strengthened Involvement of Civil Society Organisations (CSOs)

1.1 TYPE A: Support to strengthen coordination and representation of CSOs

This section is to be completed by countries that have received GAVI TYPE A CSO support⁴

Please fill text directly into the boxes below, which can be expanded to accommodate the text.

Please list any abbreviations and acronyms that are used in this report below:

5.1.1 Mapping exercise

Please describe progress with any mapping exercise that has been undertaken to outline the key civil society stakeholders involved with health systems strengthening or immunisation. Please identify conducted any mapping exercise, the expected results and the timeline (please indicate if this has changed).

⁴ Type A GAVI Alliance CSO support is available to all GAVI eligible countries.

Please describe any hurdles or difficulties encountered with the proposed methodology for identifying the most appropriate in-country CSOs involved or contributing to immunisation, child health and/or health systems strengthening. Please describe how these problems were overcome, and include any other information relating to this exercise that you think it would be useful for the GAVI Alliance secretariat or Independent Review Committee to know about.

5.1.2 Nomination process

Please describe progress with processes for nominating CSO representatives to the HSCC (or equivalent) and ICC, and any selection criteria that have been developed. Please indicate the initial number of CSOs represented in the HSCC (or equivalent) and ICC, the current number and the final target. Please state how often CSO representatives attend meetings (% meetings attended).

Please provide Terms of Reference for the CSOs (if developed), or describe their expected roles below. State if there are guidelines/policies governing this. Outline the election process and how the CSO community will be/have been involved in the process, and any problems that have arisen.

Please state whether participation by CSOs in national level coordination mechanisms (HSCC or equivalent and ICC) has resulted in a change in the way that CSOs interact with the Ministry of Health. Is there now a specific team in the Ministry of Health responsible for linking with CSOs? Please also indicate whether there has been any impact on how CSOs interact with each other.

5.1.3 Receipt of funds

Please indicate in the table below the total funds approved by GAVI (by activity), the amounts received and used in 2008, and the total funds due to be received in 2009 (if any).

ACTIVITIES	Total funds approved	2008 Funds US\$			Total funds due in 2009
		Funds received	Funds used	Remaining balance	
Mapping exercise					
Nomination process					
Management costs					
TOTAL COSTS					

5.1.4 Management of funds

Please describe the mechanism for management of GAVI funds to strengthen the involvement and representation of CSOs, and indicate if and where this differs from the proposal. Please identify who has overall management responsibility for use of the funds, and report on any problems that have been encountered involving the use of those funds, such as delay in availability for programme use.

TYPE B: Support for CSOs to help implement the GAVI HSS proposal or cMYP

This section is to be completed by countries that have received GAVI TYPE B CSO support⁵

Please fill in text directly into the boxes below, which can be expanded to accommodate the text.

Please list any abbreviations and acronyms that are used in this report below:

5.2.1 Programme implementation

Briefly describe progress with the implementation of the planned activities. Please specify how they have supported the implementation of the GAVI HSS proposal or cMYP (refer to your proposal). State the key successes that have been achieved in this period of GAVI Alliance support to CSOs.

Please indicate any major problems (including delays in implementation), and how these have been overcome. Please also identify the lead organisation responsible for managing the grant implementation (and if this has changed from the proposal), the role of the HSCC (or equivalent).

⁵ Type B GAVI Alliance CSO Support is available to 10 pilot GAVI eligible countries only: Afghanistan, Burundi, Bolivia, DR Congo, Ethiopia, Georgia, Ghana, Indonesia, Mozambique and Pakistan.

Please state whether the GAVI Alliance Type B support to CSOs has resulted in a change in the way that CSOs interact with the Ministry of Health, and or / how CSOs interact with each other.

Please outline whether the support has led to a greater involvement by CSOs in immunisation and health systems strengthening (give the current number of CSOs involved, and the initial number).

Please give the names of the CSOs that have been supported so far with GAVI Alliance Type B CSO support and the type of organisation. Please state if were previously involved in immunisation and / or health systems strengthening activities, and their relationship with the Ministry of Health.

For each CSO, please indicate the major activities that have been undertaken, and the outcomes that have been achieved as a result. Please refer to the expected outcomes listed in the proposal.

Name of CSO (and type of organisation)	Previous involvement in immunisation / HSS	GAVI supported activities undertaken in 2008	Outcomes achieved

Please list the CSOs that have not yet been funded, but are due to receive support in 2009/2010, with the expected activities and related outcomes. Please indicate the year you expect support to start. Please state if are currently involved in immunisation and / or health systems strengthening.

Please also indicate the new activities to be undertaken by those CSOs already supported.

Name of CSO (and type of organisation)	Current involvement in immunisation / HSS	GAVI supported activities due in 2009 / 2010	Expected outcomes

5.2.2 Receipt of funds

Please indicate in the table below the total funds approved by GAVI, the amounts received and used in 2008, and the total funds due to be received in 2009 and 2010. Please put every CSO in a different line, and include all CSOs expected to be funded during the period of support. Please include all management costs and financial auditing costs, even if not yet incurred.

[illegible]

5.2.3 Management of funds

Please describe the financial management arrangements for the GAVI Alliance funds, including who has overall management responsibility and indicate where this differs from the proposal. Describe the mechanism for budgeting and approving use of funds and disbursement to CSOs.

--

Please give details of the management and auditing costs listed above, and report any problems that have been experienced with management of funds, including delay in availability of funds.

--

5.2.4 Monitoring and Evaluation

Please give details of the indicators that are being used to monitor performance. Outline progress in the last year (baseline value and current status), and the targets (with dates for achievement).

These indicators will be in the CSO application and reflect the cMYP and / or GAVI HSS proposal.

Activity / outcome	Indicator	Data source	Baseline value	Date of baseline	Current status	Date recorded	Target	Date for target

Finally, please give details of the mechanisms that are being used to monitor these indicators, including the role of beneficiaries in monitoring the progress of activities, and how often this occurs. Indicate any problems experienced in measuring the indicators, and any changes proposed.
