

Annex B: Draft Gavi 5.0 Indicator Dashboard

Gavi 5.0 Mission and Strategy Performance Indicators (WORKING DRAFT)

Mission indicators	M.1 Under-five mortality rate (SDG 3.2.1) M.2 Future deaths averted M.3 Future DALYs averted		M.4 Reduction in zero-dose children (Equity indicator) M.5 Unique children immunized M.6 Economic benefits unlocked	
Goals	INTRODUCE AND SCALE UP VACCINES	STRENGTHEN HEALTH SYSTEMS TO INCREASE EQUITY IN IMMUNISATION	IMPROVE SUSTAINABILITY OF IMMUNISATION PROGRAMMES	ENSURE HEALTHY MARKETS FOR VACCINES AND RELATED PRODUCTS
Strategy performance indicators	S1.1 Breadth of protection S1.1.1SDG 3.b.1 (DTP3, MCV2, PCV3, HPV coverage) S1.1.2Rate of scale up of new vaccines S1.1.3Number of vaccine introductions S1.1.4Country <u>prioritisation</u> S1.2Preventive campaign reach (measles) S1.3 Timely response to outbreak response requests	S2.1 Additional under-immunized children reached (across key immunization touchpoints in first year of life) S2.2 Geographic equity of zero dose Indicators for objectives on programmatic areas (e.g., supply, demand, gender barriers) pending further finalization of HSIS programmatic approaches.	Measurement of SG3 pending Alliance discussions on financing and Board decision on the updated eligibility, transition and co-financing policy.	S4.1 Number of markets exhibiting acceptable supply dynamics S4.2 Number of innovative products within the pipeline with commercial-scale manufacturers S4.3 Number of vaccine and immunisation-related products with improved characteristics procured

¹Zero dose defined as lack of first dose of DTP-containing vaccine
