

Gavi 5.0: Measurement Framework/Strategy Indicators

BOARD MEETING

Dan Hogan

30 July 2020, Virtual Meeting

Background and discussion objectives

Mission and strategy indicators piece of larger 5.0 M&E system

- Consultative process with strong connections to IA2030 M&E
- Measurement sensitive to Gavi investments

COVID-19 implications

- Extended timeline for 5.0 measurement framework
- Situation & response monitoring underway, near-term learning planning

For discussion:

- Feedback on indicators
- Agreement on extended timelines for 5.0 measurement

Our recommendations on mission indicators

Mission indicators

M.1 Under-five mortality rate (SDG 3.2.1)
M.2 Future deaths averted
M.3 Future DALYs averted

M.4 Reduction in zero-dose children (Equity indicator)
M.5 Unique children immunised
M.6 Economic benefits unlocked

1. ***Reduction in number of zero-dose children as equity indicator***
2. ***Add number of unique children immunised***
3. ***Remove two indicators (can be monitored elsewhere)***
 - *“People (male & female) vaccinated with Gavi support across the life course”*
 - *“People (male & female) vaccinated with Gavi support against outbreak-prone diseases”*
4. **Maintain four SDG 3.b.1 coverage indicators as strategy indicators**

Gavi 5.0 measurement framework

Deliverables, timelines and potential interdependencies
