Three phases towards the Replenishment conference

Board meeting
26-27 June 2019

The opportunity for all

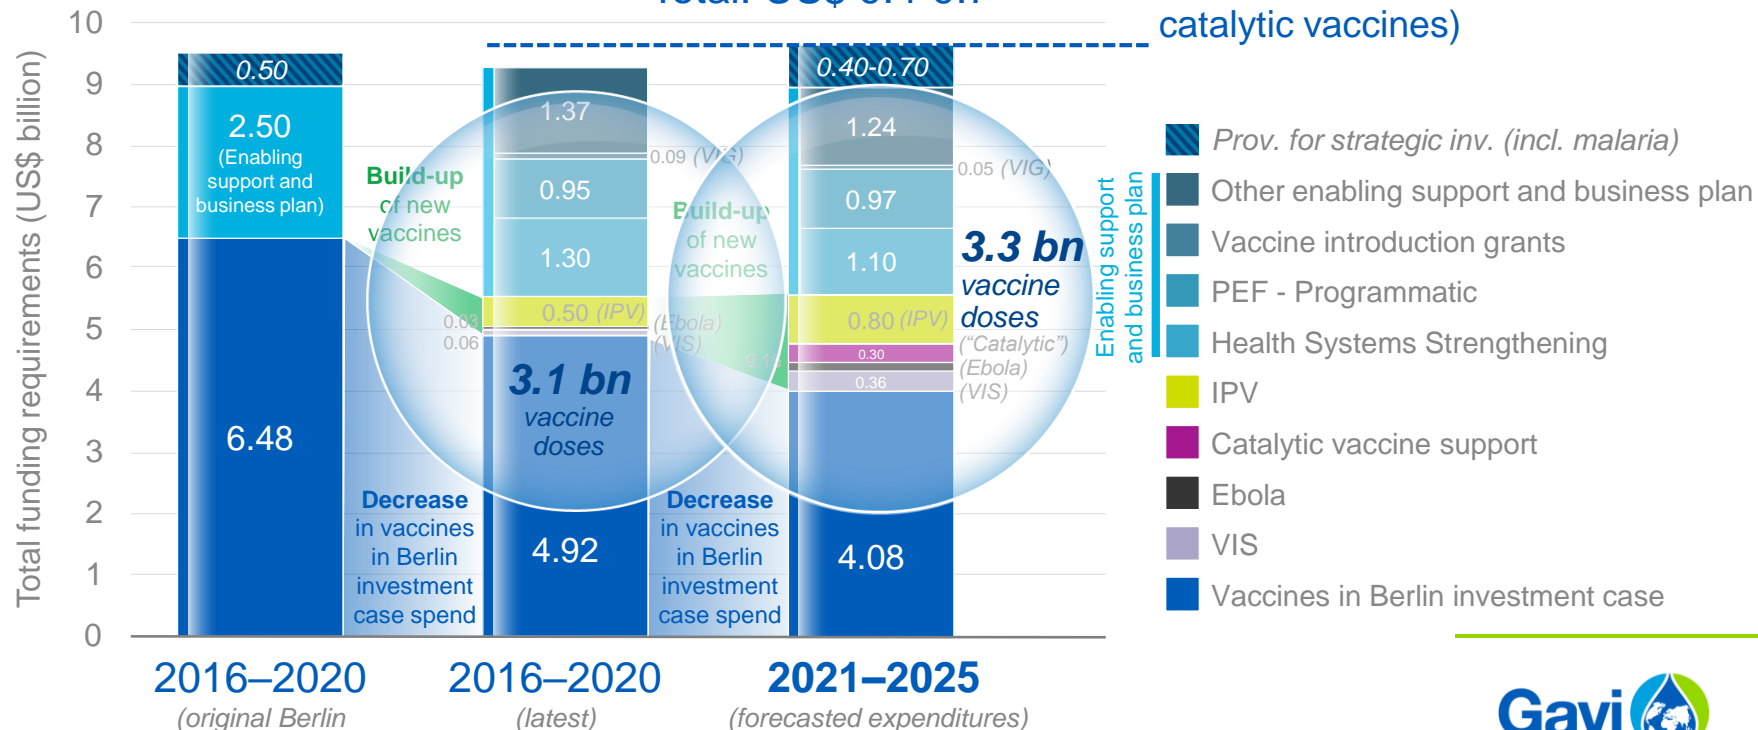

Despite the great progress, we are not done

- Gavi can **address inequalities** in this period and **provide the most complete package of protection and security ever**:
 - **Save every child** from the most debilitating vaccine-preventable killers
 - **Accelerate the critical roll-out of human papillomavirus vaccine**
 - **Fight epidemics and protect against outbreaks**
 - **Insure the world against polio re-emergence**
 - **Help reach the unreached**
 - **Be prepared to help launch new and improved vaccines**

This next period is the turning moment to be able to reach the unreached and make vaccines work for everyone

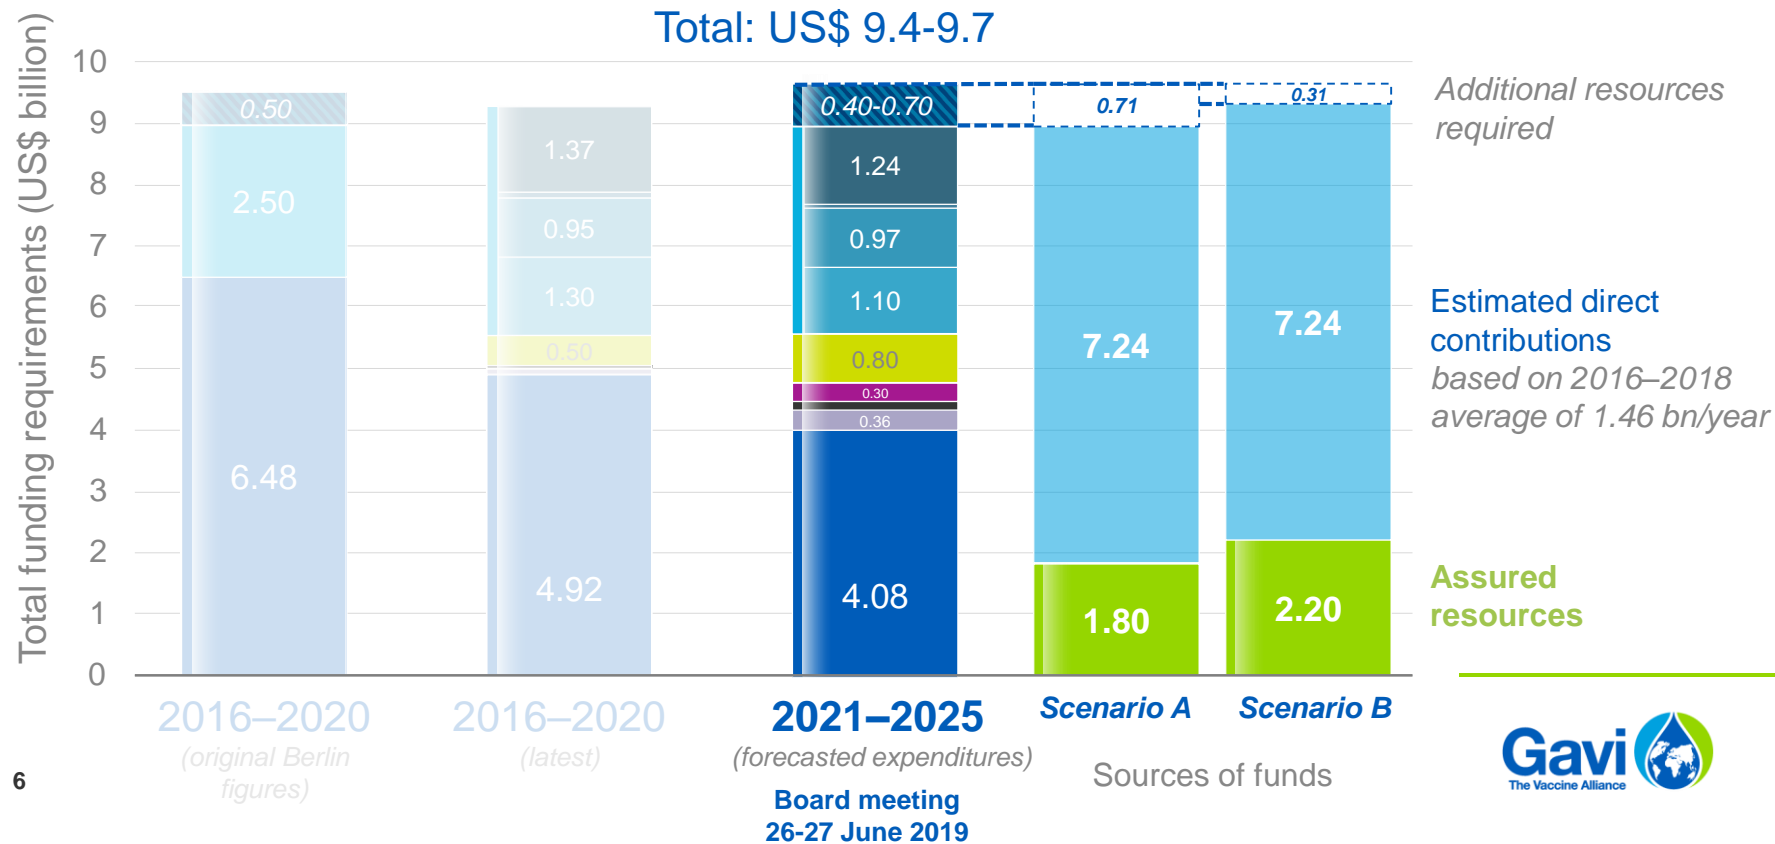

2021-2025 funding scenarios

Total: US\$ 9.4-9.7

For a similar total, Gavi can now deliver **more efficiently, more vaccines** (IPV, VIS, Ebola and other catalytic vaccines)
