Measurement & Accountability: Current measurement and accountability framework for Gavi 4.0

1

Policies: Ensuring Gavi's funding policies are fit for purpose

Illustrative -
for discussion

2

- How do we ensure our HSS allocation formula is aligned with focus on zero dose children?
- How do we incentivise the most appropriate delivery strategy?
- How do we define programmatic readiness for transition?
- How do we simplify our co-financing and make it more consistent?

Processes: Rigorous simplification of portfolio management processes

3

- Planning and proposal development
- Review and approval
- Funding modality & disbursement
- Reporting & monitoring

Risk appetite and assurance
Three lines of defence

Partnerships: Review of partner engagement framework (PEF)

Illustrative -
for discussion

4

- Maintain PEF principles of country ownership, differentiation, transparency and accountability?
- Include the principle of sustainability?
- Structure funding more clearly for global, regional and country level support from partners?
- Incentivise equity, including gender, focused technical assistance?
