

#### 4. Haiti

The Panel, following its deliberations:

- Recommended to the CEO:

Programme	Recommendation	Period	Indicative amount to be paid by Gavi
<i>NVS - Pentavalent</i> in existing presentation	Renewal	2019	US\$ 397,000
<i>NVS - PCV</i> in existing presentation	Renewal	2019	US\$ 674,300
<i>NVS - Rotavirus</i> in existing presentation	Renewal	2019	US\$ 319,500
<i>NVS - IPV</i> in existing presentation	Renewal	2019	US\$ 144,400
<i>CCEOP</i>	Renewal	2019	US\$ 1,509,613
<i>HSS – Performance Payment</i>	Not Eligible	2018	US\$ 0

- Noted the no-cost extension of the current HSS grant approved by the SCM until 31/12/2018;
- Noted that target-setting for vaccine coverage was still unrealistically high and recommended that the national logistics group monitor it on a regular basis, so that next year's request could be well-informed and preceded by country-level discussions;
- Appreciated the quality of the Joint Appraisal report, recognizing that Haiti was a very challenging context in which multiple partners were active. The Panel also commended the country for establishing a plan for crisis management;
- Observed that Haiti was the first country to benefit from CCEOP and would be an appropriate case to generate learnings and lessons to understand successes and challenges, especially in terms of coverage and equity impact;
- Noted that actions related to data quality have not been taken, and therefore recommended that focus be maintained on data-related initiatives, along with an HSS end-of-grant evaluation;
- Noted with concern the recent diphtheria outbreaks, and therefore recommended that adequate funding be used to bring sharper focus on those populations that are victim of such outbreaks;
- Noted that supportive supervision was a very strong characteristic of EPI, and therefore encouraged Alliance partners and the country to undertake adequate follow-up to the findings of the supportive supervisory visits;
- Noted the multiplicity of NGOs and bilateral investors in the country, and, while recognizing the challenges around coordination, encouraged all stakeholders to continue cooperating;
- Highlighted the importance of looking at joint external evaluations to ensure that Gavi's support effectively supports investments in global health security;
