<p>6. Gavi performance based funding</p> <p>The Programme shall be subject to Gavi’s performance-based funding (PBF). Under this, the HSS support will be split into two payments: the programmed payment (based on implementation of the Programme) and the performance payment (based on improvements in immunisation outcomes). This means that in the first year, Country will receive 100% of the year one annual amount, as an upfront payment. After year one, countries will receive 80% of the annual amount, based on implementation of the grant. Note that countries whose total grant budget would fall below US\$3 million are exempt from this 80% rule.</p> <p>Country will have the opportunity to receive payments beyond the programme budget amount, for exceptional performance. Such performance payments will be based on performance on immunisation outcome indicators. For any given year, the programmed payment and performance payment may total up to 150% of the country’s year one annual amount (upfront investment).</p> <p><u>Performance payments for a given year will be made the following year, based on performance of the indicators listed and data verification.</u></p>
