8. Gavi Performance Based Funding

The HSS cash support shall be subject to Gavi's performance-based funding (PBF). Under this, the HSS support will be split into two payments: the programmed payment (based on implementation of the approved HSS grant) and the performance-based payment (based on improvements in immunisation outcomes). This means that in the first year, Country will receive 100% of the approved ceiling, or programme budget if different (the initial Annual Amount), as an upfront investment. After the first year, countries will receive 80% of the ceiling, or programme budget if different, based on implementation of the grant, and additional payments will be based on performance on immunisation outcome indicators. Note that countries whose total grant budget would fall below US\$3 million are exempt from this 80% rule.

Country will have the opportunity to receive payments beyond the programme budget amount, for exceptional performance on the same immunisation outcomes. The maximum programmed payment plus performance payment may be up to 150% of the country ceiling.

Performance payments for a given year will be made the following year, based on performance of the indicators listed and data verification.
