Reports and other information	Due dates
To prepare for the annual procurement of vaccines, Country shall submit the following information in May each year: number of children to be vaccinated, vaccine stock levels including buffer stock, wastage rates, any proposed changes in presentation or minimum co-financing levels and vaccines received.	May
In accordance with applicable Gavi processes, Country shall report on programmatic and financial performance.	To be agreed with Secretariat
17. Financial clarifications: The country shall address any recommendations, prioritised needs or strategic actions as described in the High Level Review Panel Report (October 2016)	
18. Other conditions: Due to unprecedented demand for IPV and the challenges to scale up production capacities, the global IPV supply is highly constrained and is unlikely to meet all country requirements in the short term. As a consequence, the actual presentation and number of doses shipped may differ from those specified in this Decision Letter. In order to mitigate these circumstances, you are strongly encouraged to optimally manage available supply and follow recommendations and guidelines from WHO and UNICEF to reduce vaccine wastage.
