

# Independent Review Panel (IRC) Membership

---

## IRC COMPOSITION AND BIOS

as of 1 April 2024

# Gavi's Independent Review Committee (IRC)

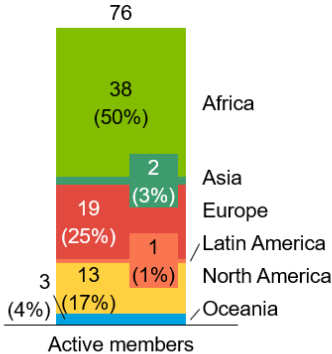

The IRC is established by the Gavi Board to serve as an independent, impartial group of experts seeking to guarantee the integrity and consistency of an open and transparent funding process. The IRC consists of a group of diverse public health experts who review funding proposals and recommend their approval to the Gavi CEO, based on an assessment of whether countries' plans will likely achieve the proposed results and contribute to Gavi achieving its mission and strategy.

## IRC membership composition

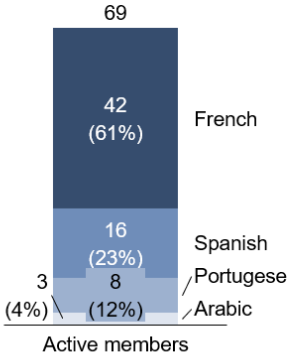

The IRC is led by a Chair and two Vice-Chairs.

Active members: 76 (as of 1 April 2024)

**1 Region of origin**  
Continued focus on strengthening representation from Gavi-supported countries

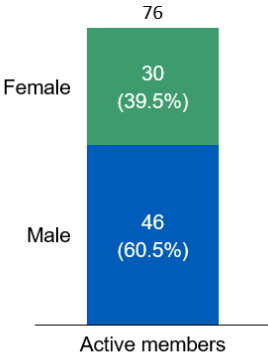

**2 Language**  
Additional French language capacity added, especially amongst financial experts where the need most acute

\*Language\* excludes English

**3 Gender**

## Rose Gana Fomban Leke - IRC Chair

***Current Position:*** Professor of Immunology and Parasitology, Fellow of the Cameroon Academy of Sciences CAS, The African Academy of Science AAS, and The World Academy of Science, TWAS.

***Previous Position and Experience:*** Until March 2013, Professor Rose Leke was the Head of Department at the Faculty of Medicine and Biomedical Sciences, University of Yaoundé 1, and Director of the Biotechnology Centre. Chair of the Board of Directors of the National Medical Research Institute, IMPM, Vice President of the Scientific Committee of Cameroon First Lady's Research Centre (CIRCB). Executive Director of the Cameroon Coalition against malaria, and Chair of the Multilateral Initiative in Malaria (MIM) Secretariat. She also was President of the Federation of African Immunological Societies, a Council member of the International Union of Immunological Societies for two terms. She has served and still serves as a consultant on many committees for the World Health Organization (WHO): the Malaria Policy Advisory Committee (MPAC), The Malaria Elimination Oversight Committee, Chair of the African Regional Commission for the Certification of the Eradication of Poliomyelitis (ARCC), a member of the Global Certification Commission (GCC). She has been a member and Chair of the African Advisory Committee for Health Research (AACHR), a member of the Global ACHR, a Board member of the Global Forum for Health Research, and since 2013 serves on the WHO Emergency Committee for Polio eradication. Technical Evaluation Reference group (TERG) of the Global Fund and awarded a Plaque of Honour. Chair of the DSMB Azithromycin-chloroquine, was a member of the Scientific Advisory Group (SAG) for Ebola vaccine trials in Guinea.

***Areas of Expertise:*** Immunology of parasitic infections, particularly malaria. With a keen interest in Global Health and Health Systems Strengthening. Very effective in training of the next generation of scientists, Higher Women Consortium Cameroon, a mentoring program, is one of her initiatives.

***Education and degrees:*** Honorary Degree; Doctor HONORIS CAUSA, University of Ghana, Legon; Ph.D. in Microbiology/Immunology, University of Montreal, Canada; M.Sc. Zoology (thesis in molecular parasitology), University of Illinois, Champaign-Urbana, USA

***Additional information:*** In 2011, Professor Rose Leke was one of six women who received the African Union Kwame Nkrumah Scientific Award for Women, and received the 2012 award for Excellence in Science from The Cameroon Professional Society. Elected International Honorary Fellow of the American Society of Tropical Medicine and Hygiene ASTMH in 2015. She is a member of the Canada Gairdner Foundation Global Health Award Advisory Committee. She has also been elected one of nine women as HEROINE OF HEALTH 2018. In 2018 she was crowned by the Cameroon Medical Council as Queen Mother of the Cameroonian Medical Community and FORBES AFRICA April/May 2021 Edition named her as ICON #24. In 2014, she was invited as the Aggrey-Fraser-Guggisberg Memorial Lecturer at the University of Ghana and awarded the Doctor Honoris Causa (DSc).

## **Bolanle Oyeledun - IRC Vice-Chair**

**Current position:** Chief Executive Officer at Centre for Integrated Health Programs (CIHP), Nigeria

**Previous positions and experience:** Dr. Oyeledun was Country Director of the International Centre for AIDS Care and Treatment Programs (ICAP)-Nigeria program and an Associate Research Scientist with Mailman School of Public Health, Columbia University.

**Areas of expertise:** Health systems strengthening, PMTCT, comprehensive HIV/AIDS care and treatment, reproductive and adolescent health, MNCH, immunisation, quality of care in health services.

**Education and degrees:** Dr. Oyeledun holds a medical degree from the University of Ibadan, Nigeria, and has Master's degrees in Public Health and Health Management from the Universities of Lagos, Nigeria, and Heidelberg, Germany. She is an associate fellow of the National Post-graduate Medical College of Nigeria (equivalent to the MRCP UK). She has additionally undergone health management and communications training at the Harvard School of Public Health and the Bloomberg School of Public Health, Johns Hopkins University, USA.

**Additional Information:** Dr. Oyeledun is the first woman to chair the Technical Review Panel of the Global Fund to fight AIDS, TB and Malaria. She was a visiting fellow at the University of Washington Population Leadership Program and has served as a member of the program's external advisory board.

She has considerable working experiences working in different countries e.g. Tanzania, Lesotho, Swaziland, Nigeria, Sudan, Nepal amongst others.

## **Pierre Corneille Namahoro - IRC Vice-Chair**

**Current Position:** Senior Director of Global Supply Chain & Health Systems Strengthening (HSS) at Fascinans, Ltd. Fascinans, Ltd is a consulting company based in the United Kingdom (UK) that specialises in Global Health Supply Chain, Cold-Chain Logistics, HSS, Business Development, Project Management, and Program Evaluation.

**Previous positions and experience:** Pierre is an experienced health supply chain and HSS professional with 19+ years of experience in HSS, sustainable governance, supply chain design, and private sector engagement. He led four (4) major USAID health supply chain flagship programs.

Pierre provided Technical Assistance to the World Bank, Global Fund, UNAIDS, and Bill & Melinda Gates Foundation (BMGF). He served in many countries: Rwanda, Haiti, Burundi, Ghana, Gabon, Benin, Kenya, and Ethiopia. He was also interim Director for the “COVID-19 Vaccine Delivery, Coordination and Integration” unit at Gavi Alliance.

Pierre holds a Postgraduate Certificate in Sustainable Supply Chain Management from the University of Cambridge (UK), a Certificate in Strategic Planning from the University of Oxford (UK), a Masters’ degree in Project Management & Development, a Masters’ degree in Management Economics, and a Bachelors’ degree in Business Administration from the Catholic University of Central Africa (Cameroon). He also holds a Bachelors’ degree in Philosophy from the Pontifical Gregorian University in Rome, Italy.

**Areas of expertise:** Pierre is very experienced in cold-chain logistics and the health and pharmaceutical supply chain (supply/demand planning, quantification, procurement, warehousing, distribution, LMIS, and waste management). He also has strong expertise in Health Systems Strengthening (HSS), project management, business development, program design, M&E, and financial management.

**Additional Information:** Pierre speaks eight languages. He is fluent in English, French, Italian, Kinyarwanda, Kirundi, and Swahili, with limited working proficiency in Spanish and Portuguese. His main interests are global health supply chain, HSS, immunisation, vaccines, cold-chain logistics, private sector engagement, and sustainable governance.

## **Abdul-Aziz Garba Mohammed**

**Current Position:** Executive Secretary/Chief Executive Officer, Yobe State Drugs and Medical Consumables Management Agency, Nigeria.

**Previous Position and Experience:** Mr. Mohammed was a National Professional Officer Immunisation (Vaccine Security and Logistics Officer) in World Health Organization Nigeria Country Office. With over 30 years' experience in Supply Chain, 16 of those as Immunisation Supply Chain Expert with WHO, BMGF and UNICEF; the latter as an international consultant.

**Areas of Expertise:** Immunisation Supply Chain with expertise in Vaccine Management; Cold Chain Planning and Supply Chain strengthening; vaccine management and cold chain assessment; data use for action; development of guidelines, policies, and capacity building; and development of proposals for support to country programmes.

**Education and Degrees:** Bachelor of Pharmacy Degree, Ahmadu Bello University, Zaria, Nigeria. Currently studying a Master in Procurement, Logistics and Supply Chain Management, Robert Kennedy College, Salford University, Manchester, England.

**Additional Information:** Mr. Mohammed has worked at all levels of government in Nigeria supporting iSC, Essential Medicines SC and at global level implementing iSC policies and guidelines including domesticating iSC tools for improved performance of country iSCs. He has also conducted several Effective Vaccine Management Assessments across Africa, EPI review in Rwanda and Cold Chain Assessment in Sierra Leone. He has been involved at the global level in Polio Outbreak Response Assessments, development of the nOPV and mOPV vaccine management guidelines and online training materials, and training of cold chain and logistics experts for the polio programme. In addition, he has also worked on the development of various proposals for the Gavi Health System Strengthening and New Vaccines Introduction in Nigeria ranging from the first Gavi HSS in 2007 to development of the CCEOP proposal in 2018. As ES/CEO of YODMA, he is working with the Federal Government of Nigeria MoH for the integration of public health programme supply chains with Essential Medicines in a sustainable manner to ensure efficiency as well as effectiveness in reaching the unreached. Recently he has worked as a member of the Nigeria Presidential Health Sector Reform Committee for the reform of the Nigeria Health Sector working on the subcommittee for Commodities, Technology and Research & Development.

## Akram Ali Eltoum Mohamed

**Current Position:** Independent Global Health Management Consultant

**Previous Position and Experience:** Dr. Eltoum previously served as Sudan's Federal Minister of Health, Global Fund's Director of Partnerships, WHO Representative in Jordan, IOM Chief Medical Officer, Save the Children's Country Director in Georgia, Interim Regional Director for East Africa at Mercy Corps, USAID Caucasus Regional Health Adviser, UNDP Sudan National Program Officer in addition to other roles with World Bank, UNDP, UNICEF, UN WFP, Agha Khan Foundation and others.

**Areas of expertise: Thematic expertise:** Currently serving as Global Health Advisor, Dr Eltoum has over 33 years' experience in global health leadership, policy influence, operational research, strategic analysis as well as program development and management focused on health sector resilience, epidemic/pandemic risk management, humanitarian response, health & community service delivery systems, communicable disease control (including vaccine-preventable illnesses, HIV and NTDs), non-communicable disease control (including nutrition) as well as sexual, reproductive, maternal, neonatal, child and adolescent health (SRMNCAH). **Geographic experience:** Dr. Eltoum's experience spans global, regional and country-level public health roles across industrialized, middle-income, lower-income, fragile and vulnerable states across WHO regions of EURO, AFRO, EMRO, SEARO and WPRO.

**Education and degrees:** Dr. Eltoum's earned an MBBS (1985; Faculty of Medicine, University of Khartoum, Sudan), an MPH (1993; Johns Hopkins Bloomberg School of Public Health, USA) and a Fellowship by Distinction (2015; Faculty of Public Health, UK Royal College of Physicians. His postgraduate training includes Advanced Epidemiological Analysis, Leadership, Global Health Diplomacy, Project Development, Child and Adolescent Health, Rural Health Services Management, HIV, and other areas. He is bilingual in Arabic and English with working proficiency in French.

**Additional Information: Publications, Appointments and Awards:** Dr. Eltoum publishes extensively on various subjects, including refugee and migrant health, HIV, nutrition, humanitarian response, pandemic control and health system reforms. Represented WHO in the Global Validation Advisory Committee in Geneva (GVAC) and in Egypt's Technical Advisory Group (TAG) for Hepatitis, developed African Union's current African Health Strategy 2016-2030 and was awarded as Outstanding Manager in WHO AFRO in 2009. In his capacity as Sudan's Federal Minister of Health, was elected as Africa CDC Board Member, WHO WHA Vice-Chair and Executive Board Member. Expert Member in 2 WHO International Health Regulations Review Committees; COVID-19 and Mpox since August 2022. Member of the American Public Health Association, the Johns Hopkins Alumni Association and has also served as external examiner and guest lecturer with various universities (Fordham, Geneva, Jordan University for Science & Technology, Addis Ababa, Clark and American University in Cairo (AUC, 2019). **LinkedIn Profile:** <https://www.linkedin.com/in/dr-akram-ali-eltom-mph-ffph-uk-988b454b>

## **Aleksandra Caric**

**Current position:** Independent Consultant, Medical Doctor - General Practitioner

**Previous Positions and Experience:** As an independent consultant, Dr Caric has been working for WHO headquarters and regions for the Immunisation, Vaccines and Biologicals, and Regulation of Medicines and Other Health Technologies Departments. She was extensively involved in writing and editing of various WHO guides such as the Global Guide for Measles and Rubella Supplementary Immunisation Activities, Vaccination in Humanitarian Emergencies, Measles and Rubella Preparedness Outbreak and Response, and most recently the Implementation guide for broadening tetanus prevention and sustaining maternal and neonatal tetanus elimination. She has carried out vaccine safety reviews, AEFI field investigations and NRA assessments on behalf of WHO. Dr Caric served as the Director of Medical Programme and the Chief Administrative Officer for the International Rescue Committee in Croatia from 1992 to 2000 where she organized and implemented a number medical/dental services for refugee and displaced populations in Croatia and Bosnia, in particular during the time of conflict. She also provided technical and administrative assistance to the emerging non-governmental sector and multilateral agencies in the region.

**Areas of expertise:** Immunisation – vaccine safety and regulation, programme management and administration

**Education and degrees:** Dr. Caric obtained her Doctorate of General Medicine from the University of Zagreb, Croatia, where she received postgraduate training in Preclinical/Clinical Pharmacology and in Public Health.

**Additional information:** Subject matter expert for numerous WHO e-learning courses, significantly involved in their planning and design. Brighton Collaboration Working Group Member for AEFI case definitions development, reviewer for Vaccine and Sexual Health (2009/10).

## Alima Tene Essoh

***Current position:*** Director for the NGO Agence de Médecine Préventive Afrique (AMP Afrique), a sub-Saharan public African Health Organization headquartered at Abidjan, Côte d'Ivoire.

***Previous positions and experience:*** Prior to assuming her position as Director for AMP Afrique, Dr. Essoh served for 12 years as International Program Lead and Senior Research manager (Europe then Africa) for some of the most important vaccine manufacturing companies: Sanofi Pasteur, Merck Sharp and Dohme and GlaxoSmithKline.

***Areas of expertise:*** Vaccine clinical development and advocacy for market access, health system strengthening, vaccine programming focusing on routine immunisation, new vaccine introduction, strategies addressing vaccine hesitations and pharmacovigilance.

***Education and degree:*** Dr Essoh hold a Doctorate in medicine, a Master's degree in Health system management and a degree in Vaccinology (University of Bordeaux-France). She has completed training in Project management (Reed Smith, US) and Good practices in Clinical trial and Pharmacovigilance (Pharma School-UK). She is an ADVAC Alumni (Advanced Course of Vaccinology organized by Foundation Merieux and University of Geneva).

***Additional information:*** Member of the Gavi subgroup on HPV vaccine; Member of the National Immunisation Technical Advisory Groups (NITAG) in Côte d'Ivoire; Co-Chair of the WHO Regional Technical Working Group on Immunisation for west and central African countries.

## **Alvaro Alonso-Garbayo**

**Current Position:** Independent consultant in health systems & humanitarian health

**Previous Position and Experience:** Mr. Alonso-Garbayo is a health professional specialised in health systems development with experience in different settings including challenging operating environments like conflict/post conflict situations, humanitarian crises and small island countries. More than thirty-nine years of professional experience working in the health sector of which twenty-nine in low- and middle-income countries with governments, UN, and NGOs at global, regional, national and sub-national levels. Humanitarian health worker (including programme management) with broad experience in emergency settings. Academic experience teaching and doing research in social sciences with a focus on health systems (particularly on health workforce) in conflict-affected settings and familiar with action and implementation research. Experience in applied field epidemiology (including epidemic management and control) and basic statistical analysis/quantitative research. Eight years of clinical experience (nursing) in A&E and intensive care.

**Areas of Expertise:** Health workforce, health systems development, humanitarian health, and PHC/UHC.

**Education and Degrees:** University Diploma in Nursing (Universidad Complutense de Madrid, 1985), MSc Health Policy, Planning and Financing (London School of Economics/Univ. of London, 1999), Doctorate in Public Health (DrPH) (LSHTM/Univ. of London, 2007), University Degree in Nursing (Universidad Europea de Madrid, 2012), post-doctoral studies (Liverpool School of Tropical Medicine, 2014-2018).

**Additional Information:** Former member of the TRP GFATM, and official UK accreditation in teaching in higher education.

## Andrew Azman

**Current Position:** Associate Scientist, Department of Epidemiology, Johns Hopkins Bloomberg School of Public Health

**Previous Position and Experience:** Dr. Azman has worked for over a decade on trying to improve our understanding of the dynamics of enteric pathogens like cholera and hepatitis E and how to best use vaccines for these epidemic prone diseases. His work ranges from leading field studies to in-silica modelling-based analyses. He works closely with Médecins Sans Frontières on several projects aiming to improve vaccination strategies and outbreak response approaches. Dr. Azman serves as a member on the oral cholera vaccine working group and the surveillance working group for the Global Taskforce on Cholera Control.

**Areas of Expertise:** Infectious disease epidemiology, cholera, hepatitis E, water and sanitation related diseases, infectious disease dynamics, vaccine study design, seroepidemiology.

**Education and degrees:** PhD Epidemiology, Johns Hopkins University; MHS Biostatistics Johns Hopkins University; MSc Civil Engineering, University of Colorado; BS Environmental Engineering, University of Colorado.

## **Anne McArthur-Lloyd**

**Current position:** Independent Consultant

**Previous positions and experience:** Ms. McArthur-Lloyd has over 20 years of experience in immunisation programming, including 10 years at PATH where she worked on immunisation strengthening activities primarily in Indonesia, Northern Nigeria, and Francophone countries. With PATH and as a consultant for Health Partners International, Ms. McArthur-Lloyd was a Senior Technical Advisor to the Partnership for Reviving Routine Immunisation in Northern Nigeria/MNCH (PRRINN\_MNCH) where she was involved in planning, implementation, and study management of immunisation activities in Jigawa, Katsina, Yobe, and Zamfara States for over seven years. She also served as a Senior Technical Immunisation Advisor on the EU-Strengthening Immunisation Governance in Nigeria (EU-SIGN) project. Ms. McArthur-Lloyd has provided technical support to PATH and Jhpiego on HPV vaccine introduction, including preparing for and supervising HPV coverage surveys; planning for vaccine introduction; and developing training materials. Other consultancies have included work on vaccine hesitancy and immunisation training. Ms. McArthur-Lloyd is a fluent French speaker.

**Areas of expertise:** New vaccine introduction; immunisation system strengthening; immunisation assessments; study management and implementation; training; and community engagement.

**Education and degrees:** Ms. McArthur-Lloyd holds a MSc in Public Health from the London School of Hygiene and Tropical Medicine.

## **Antony Ngatia**

**Current position:** Independent consultant

**Previous Positions and Experience:**

Dr. Antony Ngatia has over twenty years of experience in health and nonprofit sector, with a focus on primary health care, vaccine programs, and digital health initiatives. His work at the Clinton Health Access Initiative included leading vaccine introductions and vaccine supply chain improvements, scaling up digital health solutions, improving vaccine access in Kenya and East Africa. As an independent consultant, Dr. Ngatia provides advice on Vaccine and immunisation, practical health financing and policy development to health organizations and governments.

**Areas of Expertise:**

Dr. Ngatia's expertise includes immunisation, digital health, health financing, and the implementation of health programs in challenging environments. His work emphasizes practical solutions to enhance health system efficiency and accessibility.

**Education:**

Dr. Ngatia holds an MSc in Global Health Sciences from the University of Oxford and a Bachelor of Medicine and Surgery from the University of Nairobi.

## **Beatriz Ayala-Öström**

**Current Position:** Independent consultant on health system strengthening, procurement and supply chain management specialising in equitable access to affordable, quality assured medicines, vaccines, medical equipment and supplies.

**Previous Position and Experience:** Ms Ayala-Öström is a global consultant with immunisation and system response expertise to disease threats including HIV, malaria, TB and Reproductive Health. Ten years in the private sector and academia in operations and supply chain management and over 20 years working in resource limited countries to assess, design, review, problem solve, project manage, monitor and evaluate health system strengthening, procurement and supply chain management systems. Her interests include sustainable delivery systems, equitable access and last mile system availability, pandemic preparedness, supply chain resilience, information systems integration, private sector lessons applicable to resource constrained environments and procurement transformation through market shaping strategies. Innovative sustainability and transition strategy planning for countries leaving traditional donor support.

**Areas of Expertise:** Health and immunisation systems strengthening, supply chain management, immunisation logistics systems reviews, supply chain resilience, and system investments for vaccine preventable pandemics, project management, implementation and evaluations.

**Education and degrees:** MSc in Transport and Logistics Management (1992) Cranfield School of Management, Cranfield University UK, BA in International Relations (1984) from National University of Mexico with a two-year exchange at Harvard University, John F Kennedy School of Government (1983) and a number of residential courses and technical briefing seminars in rational drug management and population and development.

**Additional information:** Gavi IRC member since 2021 and current Thematic Lead for health system strengthening funding windows. Former IRC member from 2008-2014. Former member of the Global Fund Technical Evaluation Reference Group (TERG 2018-2022) and current member of the Technical Review Panel since 2023 and also from 2008-13.

Participated in the WHO/PATH Project Optimize Panel Advisory Group (PAG) 2009-2012.

## **Beena Varghese**

**Current Position:** Independent Consultant

**Previous Positions and Experience:** Public Health Career spanning almost 25 years with majority as a Senior Health Economist at the Public Health Foundation of India, and at the Division of HIV/AIDS prevention at the US. Centers for Disease Control and Prevention, Atlanta.

**Areas of Expertise:** Evaluation of health interventions (maternal and newborn health) including cost and cost-effectiveness analysis; Design of research methods for health systems analyses; and Health financing.

**Education and Degrees:** PhD in Health Economics from University of Memphis (1997); Prevention Effectiveness Fellow at CDC Atlanta with the Epidemic Intelligence Service batch of 1997 to 1999.

**Additional Information:** She has served on various review committees at the CDC, WHO, and Gavi Independent Review Committees. She was a member of technical advisory group for the Maternal Health Task Force, Harvard T.H Chan School of Public Health, Boston. Her recent experience includes setting up and managing the Strategic and Technical Advisory Group of Experts (STAGE) for Maternal, Newborn, Child, Adolescent Health and Nutrition at WHO.

## **Blaise Bikandou**

**Current Position:** Independent Consultant in global health and international health

**Previous positions and experience:** Formerly, Director of Country Office, Preventive Medicine Agency, Guinea & Director of Dept. of Preventive Medicine, Epidemiology of Transmissible Diseases & Clinical Trial at the National Institute of Public Health – Cité Louis Pasteur - Ministry of Health, Congo-Brazzaville. He has multi-faceted professional experiences with support and assistance in public health issues including in-country residence and field operations in developed (France, Japan, US) and multiple developing countries (sub-Saharan African countries and Indian Ocean). He successfully conducted various health projects and led public health programs in Sub-Saharan African countries.

**Areas of expertise:** Health Systems Strengthening - Strategic planning and health policy development - Public Health programs management and administration - Disease preparedness, surveillance and response - Communicable diseases surveillance – Strengthening public health laboratory capacities - Molecular Epidemiology of transmissible diseases - Vaccine preventable disease program development and management.

**Education and degrees:** He obtained a Medical Degree from the University of Brazzaville, PhD in molecular epidemiology from the faculty of medicine of Saint-Peres (Paris) and MBA from ESCP- Europe (Paris)/EHSP (Rennes)/Mailman School of Public Health, University of Columbia (N.Y). He undertook postgraduate studies, mainly focused in Immunology, Virology and Vaccinology in Paris Descartes University, Pasteur Institute (Paris), UmassMed School (MA, US) – UCT/Cap Town. He began his career as “Clinical and Biologist” Practitioner at “Hopitaux de Paris” and was Visiting Scientist at the Kyoto Institute for Virus Research of Kyoto University – Japan and the University of Massachusetts Medical School, MA, US.

**Additional Information:** Dr. Blaise Bikandou is currently member of the Panel Review Committee/UNITAID, former Technical Review Panel/Global Fund.

## **Borja Cuervo Alonso**

**Current position:** Principal of consulting firm Health Equity & Resilience, SL; member of Gavi IRC since 2021

**Previous Positions and Experience:** over 25 years of experience in improving access to health and social services of vulnerable and marginalized communities in challenging environments. Since 2011 Mr. Cuervo Alonso provides technical assistance and consultancy services to WHO, The Global Fund, the European Commission, GIZ, Expertise France and other UN agencies in in strategic investments and policy design, institutional capacity building and monitoring and evaluation and learning and research. Previously, Mr. Cuervo has held the positions of Regional Humanitarian Advisor for Southern Africa for the European Union, Mozambique Deputy Director for CHAI and Delegate of the Red Cross, among others.

**Areas of expertise:** access to HIV/AIDS, malaria and primary healthcare services in low resource settings; health systems strengthening; disaster preparedness and health systems resilience to natural catastrophes; support to refugees and IDPs.

**Languages of work:** English, French, Portuguese, Spanish (native).

**Education and degrees:** MSc Health Promotion, London School of Hygiene and Tropical Medicine, UK; Masters in Humanitarian Action, University of Louvain-la-Neuve, Belgium; Bachelor and Master's degree in Law, A Coruña University, Spain.

## **Chioma Onyinye Nwuba**

**Current Position:** Independent Consultant

**Previous Position and Experience:** Chioma Nwuba is a global health expert with experience in public health and procurement & supply chain management across health programs at global and country levels. She provides consultancy services for PricewaterhouseCoopers (PwC) on the Global Fund grant in Ethiopia, helping to meet the Global Fund's information and risk management requirements for quality grant management decision-making. She recently offered technical assistance to the Government of Nepal to develop a 5-year national health product supply chain strategic plan consistent with national health policies and development goals. Chioma has also provided supply chain consultancy services in several countries across Sub-Saharan Africa and South East Asia. Previously, she served as a Country Representative for i+solutions, where she was responsible for overall strategic planning, program design, and implementation of health initiatives. She led and participated in the implementation of multiple projects funded by USAID, The Global Fund, DFID, World Bank, and BMGF. Furthermore, she was a team lead and senior logistics advisor on the SCMS and USAID | DELIVER Project for John Snow Incorporated (JSI) and served as an advisor for Management Sciences for Health (MSH) in Nigeria.

**Areas of expertise:** Procurement and supply chain management (PSM) of health commodities, grant management reviews, PSM system evaluations, supply chain diagnostic reviews, process designs and evaluations, logistics management information system (LMIS) assessments, health product management reviews, feasibility studies, performance monitoring and evaluations, project design and implementation, humanitarian supply chain, quality assurance, PSM document reviews, development of supply chain strategy plans, systems strengthening and project management.

**Education and degrees:** M.Sc. Public Health, University of Central Nicaragua; M.Sc. Medical Microbiology, University of Nigeria; Ph.D. Policy and Strategic Studies (in view), University of Abuja. She has additionally undergone training in International Health Systems and Public Health Preparedness at the Harvard School of Public Health, Boston, and the North Carolina Center for Public Health, University of North Carolina, USA. She has several certifications and training certificates in procurement & supply chain management, project management, and change management.

**Additional Information:**

She has authored several publications in peer-reviewed journals, is an editor of an internationally reviewed journal, and has presented at multiple international conferences.

## **Dah Cheikh**

**Current Position:** International Independent Consultant in Public Health

**Previous Position and Experience:**

Dr. Dah CHEIKH began his career working for 20 years in Mauritania first as a rural district health officer and then as a provincial officer. In rural areas he worked on setting up community management structures and the cost recovery system. Then he worked at the central level as national head of epidemiological surveillance and then director of health protection in charge of public health programs including EPI, reproductive health, nutrition. He held the position of Secretary General of the Ministry of Public Health in charge of coordinating programs and managing financial and human resources. He then started an international career at WHO and worked as WHO Team Leader for Immunisation in Chad and the DRC, in charge of coordinating the WHO support for EPI, the surveillance of diseases preventable by vaccination and response to outbreaks. He has also been in charge for 5 years of support for the introduction of new vaccines in the 10 Central African countries.

**Areas of expertise:**

Organization and management of vaccination programs. Strengthening health systems. Introduction of new vaccines. Organization of vaccination campaigns. Training of immunisation program managers (French-speaking MLM courses).

**Education and degrees:**

Doctorate of State in Medicine in 1984 from the University of Abidjan (Ivory Coast) in 1984. Diploma of Community Health from the University of Montreal in 1988.

**Additional Information:**

Experience in government structures has allowed for special capacity in negotiating with national officials. Work in conflict-affected countries has also favoured the development of specific strategies for strengthening immunisation and organizing mass vaccination campaigns. Publications in the field of immunisation.

## **Dominique Legros**

**Current Position:** Independent consultant

**Previous Position and Experience:** Dr Legros began his career in international health in Mali in 1990. Over the last 30 years, he occupied several technical and managerial positions at WHO, Epicentre, Médecins sans Frontières, Médecins du Monde and the French aid agency, with a focus on the response to outbreaks and to complex emergencies in developing countries, establishment of surveillance and early warning systems, and development of operational research projects. Dr Legros has worked in Europe, South America, Asia and Africa. In his last position, he was in charge of the cholera program at WHO headquarters in Geneva, Switzerland.

**Areas of Expertise:** Epidemiology of infectious diseases in developing countries, surveillance and early warning systems, vaccinology, operational research, management of outbreaks and of complex emergencies.

**Education and Degrees:** Master of Public Health, Johns Hopkins University, USA - University diploma in Public Health and in Health in developing countries, Nancy, France - Diploma of Tropical Medicine, Antwerp Institute of Tropical Medicine, Belgium - University diploma in Practice of clinical trials, Paris, France - University diploma in Epidemiology, Paris, France. Doctorate in Medicine, Reims, France.

## **Edward Ouko**

**Current Position:** Executive Director of Edrak Associates Limited, a consulting company in Governance, financial management, monitoring and evaluation.

**Previous Positions and Experience:** Mr. Ouko is the immediate former Auditor General of Kenya. Prior to that he was the Auditor General of the African Development Bank where he served for 24 years in various capacities. Before joining the Bank, he worked at Deloitte in Kenya and London. He has over 40 years' remarkable working experience with a successful record of accomplishments in auditing, accounting, and investigations. Some of the assignments and achievements he attests to during his professional and work engagements include having been involved in close networking with Multilateral Development Banks (MDBs) and UN agencies for over 20 years on matters of investigations and audit. While at the African Development Bank, he directed and supervised audits, anti-corruption, fraud, and investigation functions for over 12 years cumulatively. In addition, he collaborated in a Working Group as a member of the MDBs and the UN Heads of Internal Audit on revising the Institute of Internal Auditors (IIA) standard on the current definition of Internal Auditing. He also contributed to the drawing up the first Standards of Investigation for the UN, MDBs and OLAF in 2003.

**Areas of Expertise:** Auditing and public financial management. Over the years, he has developed strong technical knowledge of governance, monitoring and evaluation.

**Degree and Professional Qualifications:** Bachelor of Commerce from the University of Nairobi and a Fellow member of the Institute of Chartered Accountants of England and Wales (ICAEW). Until 2018, a co-opted Council member representing Africa. He is also a Fellow member of the Institute of Certified Public Accountants of Kenya (ICPAK).

**Additional information:** Current Chairperson of the Global Fund Audit and Finance Committee. He was a former member of the United Nations Population Fund (UNFPA) Oversight Advisory Committee. Former Chair of International Organization for Supreme Audit Institutions (INTOSAI)- Capacity Building Committee Work Stream on Guides and Occasional Papers. Former Chair of the African Organisations of Supreme Audit Institution (AFROSAI) Technical Committee on Knowledge Management & Sharing and Chair on Capacity Building Committee of the English-speaking Supreme Audit Institutions of Africa. He is a past Chair Audit and Risk Committee of the African Capacity Building Foundation (ACBF) as well as of the Audit Committee of Food and Agricultural Organization (FAO) 2005-2011. He is also chaired a Working Group on Socio-economic Audit of the Constitution of Kenya; 2010.

## **Elisabeth Paul**

**Current position:** Lecturer, School of Public Health, Université libre de Bruxelles (ULB), Belgium.

**Previous positions and experience:** Ms. Paul combines an academic career and field experience in the spheres of development aid and global health. On the research and academic side, she worked at the University of Liege in various research projects on health aid effectiveness and universal health coverage. She also teaches a number of courses (public financial management, health economics, evaluation of health programmes, health policies and systems, health programme planning) at the University of Liege, ULB and elsewhere. She is also involved in an inter-university certificate on health systems research at ULB, as well as in several university cooperation projects. On the operational side, she was technical assistant by the Ministry of Health (planning department) in Mali from 2007 to 2009, where she supported the sector-wide approach and budget support processes. As a freelance consultant, she has led numerous missions (technical support, project formulation, evaluations of health projects and budget support operations) in a dozen low- and middle-income countries, especially in Western Africa.

**Areas of expertise:** Health systems and policies, support to health systems strengthening, health financing, universal health coverage, performance-based financing, aid effectiveness, public expenditure management.

**Education and degrees:** PhD in Management Sciences (University of Liège, 2006). Post-Graduate Studies in Management of Development Aid (University of Liège, 2000).

**Additional information:** She has published over 20 articles in peer-reviewed journals and a number of book chapters, mostly on performance-based financing, universal health coverage, health aid effectiveness and public financial management in developing countries.

## Emmanuelle Espié

**Current Position:** **Current Position:** Since September 2023, Technical Advisor in Global Health, French Embassy, West Africa-Guinea Gulf (Benin, Cote d'Ivoire, Ghana, Liberia, Nigeria, Togo).

**Previous Position and Experience:** Dr Espié has more than 25 years of experience in Infectious Diseases Epidemiology, Public Health and Vaccinology, at national, regional and global levels. Before joining the French Ministry for European and Foreign Affairs, she was senior scientist at the Coalition for Epidemic Preparedness Innovations (CEPI), in the R&D Department. Previously, from 2014 to 2021, she worked as a pharmaco-epidemiologist at GSK Vaccines, providing expertise in vaccines development from discovery to regulatory approval and market access. From 2008 to 2014, she served as senior epidemiologist or technical expert for different non-profit organisations (Epicentre-MSF, Agence de médecine préventive, Pasteur Institute of Dakar), leading multi-country programmes focusing on vaccine preventable diseases (Pneumococcal disease, cholera, rabies) or on HIV, Tuberculosis, Malaria mostly in Sub-Saharan Africa. From 2001 to 2007, she was at the French National Public Health Institute, contributing to national surveillances, prevention, and control of foodborne diseases and zoonoses.

**Areas of Expertise:** Infectious Diseases Epidemiology, Global health, One health, Population-based surveillance, Outbreak investigation and response, Epidemic preparedness, Vaccinology, Vaccine effectiveness and safety, Capacities building in LMIC.

**Education and Degrees:** Doctorate in Veterinary Medicine from the University of Lyon (1997); MSc of Epidemiology and Public Health intervention from the University of Bordeaux (2000); a PHD in Epidemiology and Modelling from the University of Lyon (2007); short term trainings in Global Health, International organizations management, Project management for development professionals, Health Systems Strengthening, Communication for influence and impact.

**Additional Information:** Dr Espié has published more than 45 peer-reviewed scientific articles and presented more than 30 posters or oral presentations in international conferences.

## **Eric-Didier N’Dri**

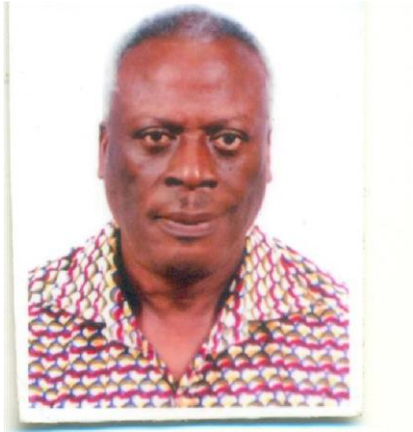

**Current Position:** Independent Consultant

**Previous Position and Experience:** With more than 12 years working experience in the field of public health within public, private as well as non-profit sectors (Ministry of Health of Côte d’Ivoire, Bio-Médical s.a, AIBEF, Save the Children, French Red-Cross, ICRC and WHO), Dr Eric-Didier is a well skilled public health expert with strong experience in immunisation through the lens of malnutrition. Indeed, by designing, implementing, monitoring and evaluating various health and nutrition project in various developing countries, he has acquired expertise in routine immunisation programs. He has supported immunisation campaign for measles in order to prevent malnutrition. He has also proven experience in Polio campaign. Likewise, by operating multisectoral-approaches to improve the nutrition status of vulnerable especially children, he has promoted immunisation, child survival and maternal and newborn health. Furthermore, his previous experience goes beyond health to embrace health determinants such as protection, economic security including food security, water and sanitation. Also, delivering outstanding results in planning and management, monitoring and evaluation of health programs through his previous position and experience. In addition, he has a strong experience working in fragile and emergency settings, and also working to reach underserved and/or hard to reach individuals and communities like in the Sahel region (Mali, Niger, North of Nigeria) and also in detention settings.

**Areas of expertise:** Project analysis and development, Policy analysis and designing, Strategic planning, Public Health including vaccination, Nutrition, Maternal, New-born, Child and Adolescent Health, Sexual and Reproductive Health including Family Planning, Health partner coordination, Protection, Economics Security, Wash, Humanitarian situation analysis, Operation management, Strategic Leadership management, Strategic Financial management, Global marketing, Strategic management and strategic HR management, Security management, Team Leading, Information management, Resources mobilization, Advocacy.

**Education and degrees:** Doctor Eric-Didier N’DRI is Medical Doctor with a Master degree in Public Health and Nutrition, a PGD in Strategic Management and Leadership, a Diploma in Humanitarian Diplomacy and a Master 1 in Psychology of Work and Organization.

## **Eusebe S Hounsokou**

**Current Position:** retired and independent consultant

**Previous Position and Experience:** Mr. Hounsokou carries over 25 years of experience in project development, management and humanitarian programs planning, implementation and evaluation. Prior to joining the United Nations at international level, he served as a lecturer at the National University of Benin and later as a UN national programme officer in support of various UN Agencies and Government.

**Areas of Expertise:** Developing emergency programme, country situation analysis prior to programme development, alert on risk analysis on programme implementation context. Mr. Hounsokou has strong coordination and leadership skills.

**Education and Degrees:** Mr. Hounsokou holds a doctorate in social sciences of the University of Normandy (Caen). Additional trainings include conflict resolution, public policy evaluation (Ecole Nationale d'Administration Publique, Québec) etc.

## **Femi Oyewole**

**Current Position:** Independent consultant

**Previous Positions and Experience:** Femi has been in the Public Health practice for the last 39 years. For over ten years he headed the Central Public Health Laboratory for Nigeria where he was a regular member of the various teams which investigated and helped to control various disease outbreaks throughout Nigeria.

Femi left the government appointment to join the World Health Organization (WHO) where he worked for over a decade. He was the WHO Country Epidemiologist and EPI Team Leader in an acting position in Liberia and as substantive Officer in Ethiopia and Ghana.

He was elevated to do Regional duties when he was moved to the West African Sub-regional Office of the WHO Regional Office (AFRO) in Burkina Faso where he was the Medical Officer supporting the planning, implementation and review of Routine Immunisation/New Vaccine Introduction activities in the 17 countries in the sub-region and was at regular intervals supporting other sub-regions. Femi led or participated in the review of surveillance systems and post-introduction evaluation of New Vaccines across the African Region. He held this position until retirement from WHO in 2012.

After retiring from WHO, Femi had the privilege of being appointed the National Head of the USAID sponsored John Snow Incorporated (JSI) Project – the Maternal and Child Survival Program (MCSP) which was focused wholly on improving routine immunisation (RI) system in two States with poor performance in the northern part of Nigeria. It was an innovative approach to health system strengthening with a view to achieving sustainability rather than concentrating on short-term gains. MCSP-RI also provided technical support at the national level and Femi was a pioneer member of the National Emergency Routine Immunisation Coordinating Centre – part of Nigeria’s efforts to improve routine immunisation delivery services.

**Areas of Expertise:** Defining and applying the role of the laboratory in disease control at various levels of health care delivery. Designing, implementing and evaluating various disease control activities especially in the area of vaccine-preventable diseases with emphasis on providing quality immunisation services

**Education and Degrees:** Femi holds a basic medical degree (MBBS) from the University of Ibadan – the premier Medical College in West Africa, a post-graduate Diploma in Bacteriology/Virology from the University of Manchester, United Kingdom (UK) and a Master degree in Public Health –MPH from the University of Leeds, UK. He is also a Fellow of the West African College of Physicians (Community Medicine)

## **Gavin Surgey**

**Current Position:** Researcher with the Radboud University Medical Center in the Global Health Priorities group in Nijmegen, Netherlands

**Previous positions and experience:** Gavin focuses on Priority Setting and currently supports countries in establishing Health Technology Assessment (HTA) for benefit package design. He has worked in close collaboration with Ministries of Health in Ghana, Tanzania, Zambia, Kazakhstan, Moldova, and others.

Previously he was technical advisor at the SAMRC/Wits Centre for Health Economics and Decision Science (PRICELESS SA) in Johannesburg, and at the Health Economics and HIV/AIDS Research Division (HEARD) at the University of KwaZulu Natal, South Africa. He has also been consultant to the PEPFAR Eastern Southern Caribbean team on their Regional Operational Plan development; Manager at the Global Fund in Geneva; and the Health Economist at the South African National Aids Council (SANAC). He has provided technical support to CCMs and Principal and Sub recipients (PRs/SRs) and supported funding applications.

**Areas of expertise:** Health economics and financing; health systems strengthening; evaluation of new and existing technologies using multiple dimensions (eg. clinical effectiveness, safety, costs and economic implications, ethical); multicriteria decision analysis (MCDA); benefit package design, evidence deliberative processes (EDPs) and health technology assessment (HTA).

**Education and Degrees:** Masters of Commerce (Economics) from Wits University, Johannesburg, South Africa; Bachelors of Business Science (Economics) from University of KwaZulu Natal, Durban, South Africa.

## **Giorgi Pkhakadze**

***Current position:*** Professor in Epidemiology/Public Health and Head, School of Public Health, David Tvildiani Medical University, Tbilisi, Georgia; Chair of the Public Health Institute of Georgia; Representative of the Accreditation Canada in Georgia; Consultant at the WHO Department of Health and Migration, Geneva, Switzerland; Board Member of the Relief International; Member of the Independent Assessment Committee (IAC) of the Gavi Pneumococcal Advanced Market Commitment (AMC) and a member of the Independent Review Committee, Gavi, Geneva, Switzerland.

***Previous Positions and Experience:*** Twenty years of professional experience in offering technical support to the design, implementation, management, assessment, monitoring and evaluation of health and social policies and programmes with a particular focus on hospital management and international healthcare accreditation; health system strengthening; linking of relief and development activities; strengthening of knowledge management systems. Professor Giorgi Pkhakadze has been working in several regions (South Asia, Central Asia, Eastern Africa, Middle East and Eastern Europe). He has provided his expertise for the set-up and implementation of public health policies and programmes – for several UN agencies, for the Global Fund (GFATM), for the European Union, for private consultancy companies, and nongovernmental organizations, as well as for public and private hospitals. Professor Pkhakadze previously served as a Member of the Technical Review Panel for the GFATM, Geneva, Switzerland; and Member of the United Nations Secretary General’s Independent Accountability Panel (IAP), Geneva, Switzerland.

***Areas of expertise:*** Public Health; Accountability; Health Systems; Hospital Management; Healthcare International Accreditation; Health Systems Strengthening; Project/Program Design, Planning, Monitoring and Evaluation; Eradication/Elimination/Control of communicable and non-communicable diseases; Change management; Team development and Performance improvement; Health Promotion (including social media); Health Education.

***Education and degrees:*** Professor Pkhakadze obtained Medical Doctor (MD – Surgery) degree from L&C University, Tbilisi, Georgia; Master in Public Health (MPH) from Tribhuvan University, Kathmandu, Nepal; Doctor of Philosophy (PhD) degree in Public Health/Anthropology from Madras University, Chennai, India. Post graduate and short-term trainings in health emergency management, health financing, financial and human resources management.

***Additional information:*** Subject matter expert in Public Health, health management, healthcare accreditation, drafted handbooks, guidelines, toolkits, e-learning, distance learning courses for several governments. Authored and collaborated on several peer reviewed journal articles, published several books internationally in the field of Public Health and Anthropology.

## Helen Saxenian

**Current Position:** Independent consultant to international organizations and universities and Senior Fellow, Results for Development.

**Previous positions and experience:** 20-year career focused on health financing and health policy issues at the World Bank. Held both managerial and technical positions.

**Areas of Expertise:** health financing, resource mobilization, resource tracking, public financial management, costing (including costs of immunisation coverage surveys), transition from donor assistance, economic evaluation, public-private engagement in immunisation, fiscal policies for health.

**Education and degrees:** PhD in Applied Economics from Stanford University; BA in Economics from UC Berkeley.

**Additional Information:** Recent experience has included lead author of the Sustainable Financing for Immunisation Technical Annex for Immunisation Agenda 2030. Led the team that prepared Immunisation Financing: A Resource Guide for Advocates, Policymakers, and Program Managers, published in 2017.

## **Henry Stanley Katamba**

***Current Position:*** Monitoring and Evaluation Specialist/National Facilitator, Global Fund at the Ministry of Health in Uganda; Technical Advisor to the Country Coordination Mechanism of Global Fund in Uganda; Published Author with 6 peer reviewed, co-authored articles on Pub Med.

***Previous Position and Experience:*** Medical Doctor and Public Health specialist with 20+ years of progressive, professional experience, including consulting, gained in 4 African countries (Uganda, Tanzania, Sudan, and South Africa). Worked in institutions including the Ministry of Health, AIDS information centre, Protestant Medical Bureau, and a District Local Government in Uganda. Collaborated, consulted with, and provided technical support to organisations including Gavi, WHO, the Global Fund, the World Bank and UNICEF.

***Areas of Expertise:*** Infectious and non-communicable diseases epidemiology (HIV/AIDS, TB, Malaria, pneumonia, cancer, diabetes); monitoring and evaluation of health projects and programs; donor relations encompassing networking, strategic partnerships, collaboration, reporting and accountability, notably worked with donors including Gavi, the Global Fund, WHO and World Vision International; health research and advisory including publication and distribution of findings; technical writing including proposals, reports, articles and Health Systems Management

***Education and Degrees:*** Master of Public Health, University of South Africa (UNISA) South Africa; Doctor of Medicine, University of Dar-es-Salaam, Tanzania; Post Graduate Diploma in Monitoring and Evaluation, Uganda Management Institute (UMI) Uganda.

***Additional Information:*** Published peer-reviewed articles on topics including intermittent preventive therapy, Long Lasting Insecticide Treated Nets (LLINs) and Malaria; attracted funds worth over US\$ 860M for various health programs from Gavi, the Global Fund and Interact Worldwide through technical writing; consulted on projects about mosquito nets and malaria control, HIV/AIDS service delivery and food and economic empowerment. Member of the Uganda Medical and Dental Association and Uganda Evaluation Association.

## **Jean-Marc Olivé**

**Current position:** Independent consultant

**Previous positions and experience:** Dr Olivé started as a general practitioner and an occupational medicine physician in Paris, then as Resident Gynecologist and Obstetrician at the Ministry of Health in Zambia. Before joining WHO, he worked for disaster relief in Zaire and was a resident in preventive medicine at the Maryland State Department, USA. In 1980, he was appointed as EPI Medical Epidemiologist at WHO, posted in Sudan, then in Pakistan, and later in Peru. At the Pan American Health Organization (PAHO), he became EPI Regional Adviser where he contributed to the successful poliomyelitis eradication and measles elimination in the Americas, both initiatives part of the effort to further strengthen and institutionalize EPI in the Region. In 1994, he moved to WHO Geneva as Measles focal point, then served as acting Chief of EPI and finally Special Project Leader for V&B in charge of Strengthening Immunisation Services. In 2002, Dr Olivé was appointed as WHO Representative in the Philippines and then in Viet Nam until his retirement at the end of 2010. He now works as a Consultant supporting the Polio Partnership in priority countries, We has been appointed Chair of several Polio Technical Advisory (Horn of Africa, Afghanistan, Pakistan and Lake Chad) and member of various WHO vaccine related Technical Advisory groups and Reviews.

**Areas of expertise:** Strengthening Health systems through targeted programs, Vaccines and immunisation, Eradication/Elimination/Control of Communicable and non-communicable diseases, Project Management, Change management, Team development & performance improvement with diverse multicultural work forces, outbreak control, support for field operations in security compromised areas.

**Education and degrees:** MD degree, University Paris Descartes, France and Masters of Public Health, the Johns Hopkins University School of Hygiene and Public Health in Maryland, USA.

**Additional information:** He has published over 70 scientific papers in various fields of medicine and Public Health and has acted as Chairman, Guest Lecturer, Moderator and Course Facilitator in several global and regional scientific forums.

## **Jean Rostand Jiadiais Kamga**

**Current Position:** Mr. Jean Rostand JIADIAIS KAMGA is the Managing Partner of JRK Management & Governance, a consulting firm in strategy and Governance.

**Previous positions and experience:** Mr. Jean Rostand JIADIAIS KAMGA has over 24 years of practical experience in Development programs auditing, financial Management, and organizational particularly in the African region. Before founding his own consulting firm, he worked as Director of Administration and Finance with the West African Council for Agricultural Research and Development (CORAF/WECARD) where he provided strategic guidance for financial management & resources mobilization of National Agricultural Research Systems (NARS). Prior to CORAF/WECARD, he served as Deputy Secretary General of African Institute for Economic and Social Development (INADES FORMATION). He started his carrier as auditor with Ernst and Young in Cameroon.

**Areas of expertise:** Strengthening of financial management systems for development projects/programs, budgeting tools and systems, proposal development, internal audit, internal controls, and grant management policies and guidelines.

**Education and degrees:** Mr. Jean Rostand Jiadiais Kamga holds a Masters Business Administration (MBA) in financial management from EuroAmerican International University of Miami-Lakes – Florida - US, a Masters degree in Strategy from University of Poitier – France and a Bachelor in Economics and Commerce from the Higher Institute of Economics and Commerce (ESSEC) of Douala, Cameroon.

**Additional information:** He has managed large programs in West, East and Central Africa funded by the World Bank, African Development Bank, USAID, European Commission, DFAT (Australia) and DFID (UK).

## **Jean-Paul Nkaba Paolo**

**Current Position:** Head of supply chain management at JPN Management consulting, LLC.

**Previous Position and Experience:** Mr. Paolo is a senior supply chain and logistics professional with 17 years of experience in Logistics, Procurement and Supply chain Management. He has been in senior management roles in the areas of the supply chain, logistics, equipment procurement, CCE maintenance, rational utilization, equipment deployment and replacement, vaccines logistics, and transportation. In addition to that, he has experience in waste management, warehousing, distribution, Enterprise Resources Planning (ERP) implementation, financial management, and controls for international NGOs, global development financing institutions (like USAID and the Global Fund) and private sector. He mastered the WHO GDP (Good Distribution Practices) and the GMP (Good Manufacturing Practices) with intensive experience in major donors' rules and regulations including DfID, USAID, The Global Fund, The United Nations, European Union, UNDP, UNICEF, and American private donors. Furthermore, Jean-Paul has intensive experience in project management based on his global supply chain background managing high-level supply chain leaders across several countries in the Middle East, North Africa, The Caribbeans, East Africa, West Africa, Southern Africa, and Central Africa. Those deployments included countries like Nigeria, Haiti, Dominican Republic, Guatemala, Mexico, DRC, Congo (Brazzaville), Mauritius, South Africa, Kenya, South Sudan, Tunisia (to support Libya supply chain), Uganda, Burundi, Rwanda, Tanzania, Mali, South Sudan, Jordan, Holland, and USA.

**Areas of expertise:** supply chain management, cold chain logistics, Cold Chain Equipment (CCE), contracts management, procurement, forecasting, planning, vaccines management, and FMCG warehousing and distribution for ambient and controlled temperature items, transport ( 1, 2, 3, 4, 5 PL), cold chain (procurement, storage, and distribution), supply chain governance and health system strengthening, EVMA (Effective Vaccines Management Assessment), e-LMIS, waste management, supply chain costing, project management, KPIs design and development, project monitoring and evaluation.

**Education and degrees:** Masters's degrees in logistics, procurement, and Supply Chain from Salford University/UK in Business Administration at the metropolitan School of Business & Management/ UK; he has bachelor's degrees in architecture and finances management from IBTP (Institut des Batiments et des Travaux Publics) and ISC (Institute Supérieur de Commerce) Institutes in Kinshasa. He has certification in risks management, operations, and performance management at Alison School; a certification in humanitarian logistics and Project Management Professional (PMP) from Fritz Institute and Project Management Institute. Jean-Paul has an ERP certification on SAP as business excellence and super user of SAP R3.

## **Jean-Pierre Matwanga**

**Current Position:** Independent Consultant: Finance Expert consultant, Non-Key Expert (ENP3, ENP8), The European Union Global Technical Assistance Facility (TAF) for sustainable Energy. The project is funded by the European Union and implemented by a STANTEC lead consortium within GIZ.

**Previous Position and Experience:** Mr. Matwanga has a global experience of more than 27 years. He worked as finance analyst, finance expert, senior finance expert, financial management consultant, and finance manager in many various sectors, such as public administration, commercial banks, and development projects (energy, infrastructure, education, water, peace, and health sectors) financed by international organizations such as the World Bank, the African Development Bank, the European Union, the Global Fund, GIZ, USAID, etc.

**Areas of Expertise:** global experience of more than 27 years in the field of administration, banking, accounting, budgeting, finance, financial management, investment, procurement, portfolio management, grant management and project management.

**Education and Degrees:** University of Burundi (1989 to 1994): Faculty of Economics and Administrative Sciences, University degree (Bac+4), Business Administration degree in Economics.

**Additional Information:** He speaks English and French, and has experience in working in Burundi, Rwanda, Uganda, RDC, Ivory Coast and Mali.

## **Joanne (Jo) Thomson**

**Current position:** Independent consultant

**Previous positions and experience:** Jo Thomson has worked in the international development and humanitarian sector for 30+ years throughout Africa, Asia, the Middle East and the Pacific. Jo is committed to the equitable, accessible and appropriate implementation of development and humanitarian responses.

**Areas of expertise:** Her areas of specialisation include public health, gender equality, disability and social inclusion, safeguarding (child protection and PSEAH), development and humanitarian good practice standards, programme design and evaluation.

**Education and degrees:** Jo has a Master of Public Health and Graduate Diploma in International Social Development. Jo lives in Australia.

**Additional information:** Jo is the co-founder of Learning4Development, an international advisory social enterprise. She is a gender equality, social inclusion, program design and evaluation advisor to the Australian Government Aid Program, Australian Human Rights Commission, the Core Humanitarian Standard Alliance and a range of other institutional donors, UN agencies, national governments, INGOs and national CSOs.

## John A. Crump

***Current Position:*** John Crump is McKinlay Professor of Global Health and Co-Director, Otago Global Health Institute, University of Otago, Dunedin; Adjunct Professor of Medicine, Pathology, and Global Health at Duke University; and a Guest Researcher with the US Centers for Disease Control and Prevention

***Previous positions and experience:*** He graduated from the University of Otago Medical School in 1993 and trained as both an internist in infectious diseases and as a pathologist in medical microbiology, training at Christchurch Hospital, New Zealand; the Royal Free Hospital, London; the Canberra Hospital, Australia; Duke University Medical Center; and with the US Centers for Disease Control and Prevention.

***Areas of expertise:*** MB ChB, MD, DTM&H, FRACP, FRCPA, FRCP

He is a Fellow of the Royal Australasian College of Physicians, a Fellow of the Royal College of Pathologists of Australasia, a Fellow of the Royal College of Physicians of the United Kingdom, and a diplomate of the London School of Hygiene and Tropical Medicine.

***Additional information:*** His main interests are in the prevention, diagnosis, and treatment of infectious diseases in developing countries, with particular focus on febrile illness; invasive bacterial diseases especially the salmonellosis; bacterial zoonoses; and enteric infections. He is an expert on typhoid fever epidemiology.

## **Josef Muthuri Kirigia**

**Current Position:** Independent consultant.

**Previous Positions and Experience:** Professor of Health Economics at the School of Health Sciences and the Director of Research at the Meru University of Science & Technology (MUST). Previously worked with the WHO Regional Office for Africa (WHO/AFRO) for 17 years (1999-2016) as Programme Manager (PM) for research and publications, Chief of Regional Director office, PM for health system financing, Regional Advisor (RA) for health economics, and acting RA for planning, monitoring and evaluation. Between 1995 and 1998 was a Senior Lecturer and Coordinator of Master's degree Programme in Health Economics at the University of Cape Town, South Africa.

**Areas of Expertise:** Health systems efficiency and productivity analysis; costing and economic evaluation (cost effectiveness, cost-utility, and cost-benefit analyses) of public health programmes; analysis of economic burden of disease (e.g. COVID-19, Ebola Virus Disease, and causes of maternal and child mortality); national health research systems (NHRS); health care demand analysis; health financing (including national health accounts and equity analysis); national health research systems assessment (including national research ethics review committees); and planning, monitoring and evaluation.

**Education and Degrees:** PhD in Economics (health economics specialisation) from the University of York, UK (1994); Diploma in Health Economics from the University of Tromsø, Norway (1991); MA in Economics from the University of Nairobi, Kenya (1988); BEd in Economics and Geography from University of Nairobi, Kenya (1985).

**Additional Information:** Published over 150 peer-reviewed journal articles, and two books entitled "Economic Evaluation of Public Health Problems in sub-Saharan Africa (2009). ISBN: 9966-846-60-3" and "Efficiency of Health System Units in Africa: A Data Envelopment Analysis (2013). ISBN: 9789966792150" with the University of Nairobi Press. A member of the International Society of Global Health (ISoGH), African Health Economics and Policy Association (AfHEA), International Health Economics Association (iHEA), and Health Systems Global (HSG).

## **Juliana Amanyi-Enegela**

### **Current position:**

Senior Programme Manager & Knowledge Management Lead for neglected tropical diseases (NTD) at CBM where she leads a portfolio of NTDs programmes across Africa and Asia and the eastern Mediterranean region.

### **Previous position and experience:**

A global public health expert with over 16 years' experience in managing complex public health interventions at the global and national level. Throughout her professional journey, she has focused on designing, implementing, and evaluating public health interventions. Over the past decade, her primary focus has been on supporting endemic countries in their efforts to control and eliminate Preventive Chemotherapy-Neglected Tropical Diseases (PC-NTDs) and sustainable management of associated morbidity and disability. Additionally, Juliana has contributed to impactful initiatives at organizations such as Sightsavers, The Leprosy Mission, and the Society for Community Development, notably leading the Malaria, HIV/OVC programmes. On the academic side, Juliana has overseen the dissertations of several postgraduate students in the Department of Leadership and Management in Health and supported the development and delivery of the Global Health Challenges module at Coventry University in the United Kingdom.

### **Education:**

Ms. Juliana possesses a Master's in Public Health from the University of Leeds, UK, and an MA in Leadership and Development Studies from the Nigerian Defence Academy, Kaduna, Nigeria. Her educational background also includes a B.Sc in Zoology from the University of Jos, Nigeria. Additionally, she holds certifications in Qualitative Research from the University of Oxford, Management Essentials from Harvard Business School, Health System Strengthening from the University of Melbourne, Australia, and various other certifications including managing health and related programmes.

## **Julie Pasquier**

**Current Position:** Independent consultant on health system strengthening, procurement and supply chain management specializing in equitable access to affordable, quality assured medicines, vaccines, medical equipment, and supplies.

**Previous Position and Experience:** Julie Pasquier is an expert consultant in the field of immunisation and health system responses to diseases such as HIV, malaria, TB, and reproductive health issues. She has two decades of experience in supply chain management and has spent an equal amount of time working in countries with limited resources. Her work involves evaluating, designing, troubleshooting, managing projects, as well as monitoring and enhancing health systems, procurement, and supply management. Her areas of focus are on developing sustainable delivery methods, enhancing the robustness of supply chains, merging information systems, applying private sector insights to areas with scarce resources, and innovating procurement through strategies that shape the market.

**Areas of Expertise:** Health and immunisation systems strengthening, supply chain management, supply chain resilience, Monitoring and Evaluation.

**Education and degrees:** Master of Science in International Public Health (TropEd network)  
European Master in Management and project financing  
Bachelor in Economics

**Additional information:** Julie is fluent in English, French, German and very comfortable in Spanish, Dutch and Chinese. She is a guest Lecturer at the university of Heidelberg.

## **Katherine (Kate) Gallagher**

**Current position:** Assistant Professor of Epidemiology, Faculty of Epidemiology and Population Health, London School of Hygiene & Tropical Medicine (LSHTM) and KEMRI-Wellcome Trust Research Programme, Kenya.

**Previous positions and experience:** Initial training as a biologist with an MSc and PhD in epidemiology. Relevant previous research projects focused on HPV epidemiology and best practices in HPV vaccine delivery to improve coverage and encourage sustainability. She then worked on two large Ebola vaccine trials. She is currently co-leading a Gates-funded trial of fractional dose pneumococcal vaccine, a study of the impact of COVID-19 pandemic on routine healthcare services and is conducting serosurveillance for SARS-CoV-2.

**Areas of expertise:** Infectious disease epidemiology (particularly human papillomavirus, ebola, pneumococci, and to some extent SARS-CoV-2) and vaccine delivery

**Education and degrees:** BA in Natural Sciences, University of Cambridge, UK. MSc and PhD in Epidemiology, London School of Hygiene & Tropical Medicine, UK. Trained on and now teaching on the short course: Epidemiological evaluation of vaccines: efficacy, safety and policy, at LSHTM.

**Additional information:** Currently based in Kenya. Experience directly working in and collaborating with colleagues in Tanzania, Sierra Leone and Somaliland.

## **Kondwani Msampha**

***Current position:*** Deputy Global Director for Corporate Services and Human Resources Director at the World Scout Bureau Global Support Centre, Kuala Lumpur, Malaysia.

***Previous positions and experience:*** Kondwani has provided global financial and operational leadership to various international non-profit organisations; focus has been on finance, administration, human resources and information technologies. For over 25 years, Kondwani has delivered efficient and effective operational support services that have enabled various international organizations achieve strategic objectives around the world.

***Education and degrees:*** Kondwani is currently studying a Master's Degree in Business Administration with UNICAF University. He is a graduate of the Institute of Chartered Secretaries and Administrators of London, Bachelor of Accounting and Business Studies Diploma from the University of Malawi.

***Additional information:*** Kondwani has conducted operational reviews and enhanced compliance in a variety of international organisations that utilise donor funding. A native of Malawi, he has lived and worked in Botswana, Zimbabwe, Kenya, Ghana, United states of America, Sweden and Malaysia.

## **Linda O'Eckert**

**Current Position:** Professor, Department of Obstetrics & Gynecology, Adjunct Professor, Department of Global Health. University of Washington, Seattle, WA, USA

**Previous positions and experience:** Obstetrics/Gynecology provider with direct patient care for 30 years working in low-income settings and in US. Work at WHO as the HPV vaccine focal point. Consulting with WHO, BMGF, Brighton Collaboration on immunisation issues related to reproductive health (HPV, maternal immunisation, general vaccine issues in women). Work with American College of Obstetrics and Gynecology (ACOG) on Expert Immunisation Committee for 10+ years, working on vaccine policy for adult women, advocacy and education. ACIP working group on HPV vaccine. ACOG liaison to ACIP. Phase 3 vaccine trials in pregnant women site investigator. Multiple academic peer review publications on use of vaccines and vaccine safety in adults, with focus on vaccine use and vaccine safety in pregnant women. Prior Gavi IRC member 2012-2018.

**Areas of expertise:** Infectious diseases, vaccine preventable disease policy and program development especially in teens, and non-pregnant and pregnant women, epidemiology (particularly HPV and measles).

**Education and Degrees:** Doctor of Medicine (MD) from University of California, San Diego. Obstetrics & Gynecology Residency at University of Texas, Houston. Infectious Diseases Fellowship (in department of medicine), University of Washington, Seattle, WA

**Additional information:** Recent experience has included participating as the ACOG liaison to ACIP during Covid vaccine review, speaking particularly to use of Covid vaccines in pregnancy. Worked on maternal immunisation safety and vaccine safety with Brighton Collaboration/GAIA. Served as coordinator/consultant to WHO on global cervical cancer prevention guideline update. Served as a consultant to Botswana, Malawi, and Namibia on national cervical cancer prevention guideline update and program deployment.

## Lisa Cairns

**Current Position:** Independent consultant. Adjunct Professor, Faculty of Medicine, University of British Columbia, Canada.

**Previous positions and experience:** Public health career spanning more than 20 years. Initial training as a medical epidemiologist through CDC. Subsequent positions included multiple roles in US CDC's Global Immunisation Division, and EPI Team Leader in WHO's Country Office for China.

**Areas of expertise:** Infectious disease epidemiology (particularly measles), vaccine preventable disease program development.

**Education and Degrees:** Doctor of Medicine (MD) from Yale University School of Medicine, New Haven, CT, USA; family practice residency, Duke University Medical Center, Durham, NC, USA; Master of Public Health (MPH), Johns Hopkins Bloomberg School of Public Health, Baltimore, MD, USA; preventive medicine residency completed through CDC, Atlanta, GA, USA.

**Additional information:** Recent experience has included participating in the Midterm Review of the Global Measles and Rubella Strategy, assisting in the development of a Global Polio Surveillance Action Plan, and serving as a consultant to WHO's Regional Office for South-East Asia in several capacities, including leading EPI reviews in Myanmar and Sri Lanka.

## Mario Stassen

**Current Position:** Mr. Stassen is EU Qualified Person and independent consultant for supply chain management, quality assurance, design & development strategies, risk management and patient safety for Health Systems & Life Sciences. Beside that he is guest lecturer at the Faculty of Science, Department of Biopharmaceutical Sciences at University of Utrecht, Board Member of Post academic Institute PAOfarmacie, Bilthoven and Chair of Board of Healthcare Institute Aparee, Rotterdam.

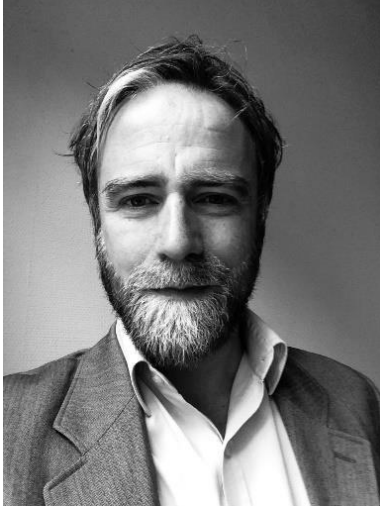

**Previous Position and Experience:** Mario Stassen held in his 30+ year career several senior international positions in quality and supply chain management in the international public-private Healthcare and Life Science environment across US, Europe, India, and China. Also, as Director Quality Affairs for a not-for-profit supplier (IDA Foundation) of essential medicines and medical supplies to developing countries. He was responsible as qualified person for realising worldwide WHO/OCABR certification and introduction of COVID-19 vaccine during pandemic emergency situation 2020-2022.

**Areas of Expertise:** Immunisation supply chain logistics (iSCL) and Cold chain logistics, quality assurance small and large Molecules incl. vaccines, health systems strengthening and management, capacity building and training, performance, planning process and bridging the gap between strategy and operations.

**Education and Degrees:** Mario Stassen holds a PharmD (1987) from the State University of Groningen, The Netherlands; a Master of Science (1986) in Mathematics and Natural Science/ State University of Groningen and a Bachelor's Degree of Business Economics (1994), Business School, Haarlem, The Netherlands. Besides the above: a University Teaching Qualification (UTQ, 2014), Department of Biopharmaceutical Sciences, Faculty of Science, State University Utrecht, The Netherlands.

**Additional Information:** He is a team member of Artificial Intelligence in Operations (AIO), crossindustry discussion group of FDA officials and industry professionals working to increase the predictive assurance of product quality across all operations (e.g. manufacturing, quality, supply chain, etc.) through the power of AI. He chairs Task force 'Regulatory Strategy in Continued Process Verification (CPV) through Artificial Intelligence' project ('CPV of the Future').

## **Mathieu Noirhomme**

**Current position:** Freelance consultant in Health Systems Strengthening in low and middle-income countries & CEO of Howami, a start-up introducing patient experience in the decision-making process, to better cope with adherence issues.

**Previous positions and experience:** Mathieu started his career in 1997 as a financial auditor for a Big Five and a media company, before heading in 2000 for public health and health systems strengthening with leading agencies. He worked in international NGOs (MSF Belgium), as a research fellow in health economics (Institute of Tropical Medicine, Antwerp), and as a freelance consultant as from 2007. He has accumulated since then high-level international expertise in facilitation of policy dialogue & design of public health policies and strategies (20+ overseas countries), design and in-country implementation of analytical tools and methodologies with WHO Geneva (e.g. Country Health Policy Process), and organizational transformation of institutions (e.g. Ministry of Health of Morocco). He has a significant history of collaborations with Gavi Secretariat, including participation to all pre-reviews coordinated by WHO between late 2013 and late 2015, and a 6-months support to the HSS unit in Geneva in late 2015 - early 2016 (+ other short time experiences)

**Areas of expertise:** Public Health, Health Systems Strengthening, Health Policy Dialogue, Health Financing, Universal Health Coverage, Design Thinking & Service Design.

**Education and degree:** Master's in business management (UCLouvain, Belgium, 1997). Several shortcourse trainings in coaching, change management and service design.

**Additional information:** Mathieu is very active in health innovation, change management and patientcentred approaches. He is a scientific collaborator of ULB Public Health School (Brussels). He also teaches in various institutions in subjects related to leadership, organisational change, service design, others. He operates both in English- and French-speaking settings.

## **Mohamed Dramé**

**Current Position:** Independent consultant. Guest lecturer of Public health at Abomey Calavi University (Benin) and GAN University in Conakry (Guinea)

**Previous positions and experience:** A long-standing management and public health expert experience developed with major Global Health players (bilateral cooperation & WHO/HQ) in all regions of the world with a special focus in Africa.

**Areas of expertise:** Health System Strengthening for Universal Health Coverage, health policy dialogue, District Health System, process & impact evaluation, health financing, Human Resource for Health (HRH), Health Care Quality Assurance, Community Health, Immunisation Systems, Disease Control (including communicable and Non-Communicable Diseases).

**Education and Degrees:** Medical Doctorate degree (MD), Havana University - Cuba two master's degrees (Bio-statistics/Epidemiology – UCL/Brussels and Health Systems Management – ITM/Antwerp - Belgium) and an Academic Doctorate (PhD in Health Policy & Global Health – Nova Universidade de Lisboa -Portugal).

**Additional information:** Since 2017, Providing technical support to countries and development agencies as international consultant to support them in their effort to build more Resilient and Sustainable Systems for Health (RSSH).

## **Mutuku Stephen Mutinda**

**Current Position:** Health Economist and Health Financing Specialist; HIV Investments, Strategy and Policy Advisor with the National Syndemic Diseases Control Council formerly, National AIDs Control Council (NACC).

**Previous Position and Experience:** Dr. Mutuku has over 15 years of technical, management and professional experience in programmes within the Health Economics and Health Financing Space, Health Policy, Health Resilient and Systems Strengthening, Climate Change, Natural resources and Environmental Economics, WASH, Urban population/housing, Gender, and Economics of Education. Dr. Mutuku has undertaken assignments covering Health Efficiency and productivity, Costing, Expenditure and Impact analysis, Economic and epidemiological modelling, and related forecasting. Further expertise extends to big data management, Data analysis, Research, Public Expenditure Tracking, Human Centred Design (HCD), Social Protection and safeguards, Resource Mobilization and Financial Investments, the Theory of Change and Making Markets Work for the Poor (M4P).

He has Consulted for UNAIDS/Genesis Analytics-Costing GF Applications; UNICEF-Costing Community Based Policies, Population Services International- Kenya (Consultant in climate change and Health); SNV Netherlands Development Organization (WASH and Renewable Energy). Food and Agriculture Organization (FAO) & Practical Action East Africa among other UNs Agencies.

**Areas of expertise:** Health Economics and Health Financing Specialist; health Strategy and Policy; Costing Analysis, Expenditure (NASA)/SHA Analysis; Monitoring, Evaluation and Learning, Impact Analysis, efficiency and VfM modelling, Strategic Plan, Programme and Policy Development, research, evaluations, and Econometric Modelling/Analysis; Climate Change, Natural Resources and Environmental Economics and nexus to Health, Education, and related Social Sectors.

**Education and Degrees:** Dr. Mutuku holds a PhD-Economics from Kenyatta University (Natural Resource Economics and Economics of Education), A Virtual PhD on Environmental Economics, BREAD-IGC; Master's degree in Economics from the University of Nairobi (Health Economics and Econometrics); Bachelor of Education (Mathematics and Economics) from Moi University and a post-Graduate Diploma in Project management from Kenya Institute of Management (KIM).

**Additional Information:** Dr. Mutuku led the development and reviewed various reports including Kenya's Health Sector Transition Roadmap (2021); The Private Sector Engagement Framework for HIV response (2022); the Draft Domestic resource Mobilization RoadMap for Health and HIV (2018) and Guidelines for Integrating Health and HIV programmes in the infrastructure Programme (2020). Have also published various papers including Co-financing Commitments and Strategy covering HIV, TB, and Malaria Replacement Challenge; Unlocking Investors' Potential in the delivery of UHC in Kenya; The Contribution of the Private Sector in HIV Care and Treatment towards Attainment of the 90-90-90: A case Analysis for Kenya.

## **Natasha Howard**

**Current position:** Associate Professor at National University of Singapore School of Public Health and London School of Hygiene and Tropical Medicine.

**Previous positions and experience:** Dr Howard is an experienced public health researcher, educator/trainer, programme manager, and infectious disease control consultant, having spent over 20 years in public health research, project development, implementation, evaluation, and strategic planning in low and middle-income countries in Asia and Africa, working with the UN, NGOs, private sector, and academia. Her research focuses on the interface between health systems, infectious disease control, and socio-political marginalisation (e.g., poverty, conflict, displacement), and currently includes national responses to dengue and other zoonotic diseases in Southeast Asia. She has researched national vaccination decision-making processes in low and middle-income countries, improving vaccination coverage in low-income urban settings, lessons from HPV demonstration projects, HPV dosage scheduling, and contributed to Ebola epidemic response and Ebola vaccine clinical trials.

**Areas of expertise:** Within the IRC, Dr Howard has expertise in vaccine support (e.g., Covid, Ebola, HPV, MCV/MR, Malaria), EAF, FPP, HSS, MICS, Gender policy, and Fragility, emergencies, and displaced populations policy settings. Additional expertise includes analysis of health policy and systems, particularly in low-income, fragile, and conflict-affected settings; health equity; and social science and operational research.

**Education and degrees:** Dr. Howard has DrPH and MSc degrees from London School of Hygiene and Tropical Medicine and a bachelor's degree in international development from the University of California at Davis.

**Additional information:** Dr. Howard has published over 100 academic articles and numerous book chapters, textbooks, strategic documents, and technical reports.

## **Natalie McCall**

**Current Position:** Chair, Division of Clinical Medicine and Associate Professor of Pediatrics at the University of Global Health Equity in Rwanda

**Previous Position and Experience:** Dr. McCall has twenty-five years of professional experience in child health, primarily within academic institutions. Over the last 12 years, she has been working in Rwanda. Initially, she served as a Visiting Associate Professor of Pediatrics at Yale University and held an Honorary Associate Professor of Pediatrics position at the University of Rwanda. Currently, she serves as the Chair of the Division of Clinical Medicine at the University of Global Health Equity, where she is developing and implementing the clinical education curriculum for the medical school.

Dr. McCall's interest lies in leveraging research to influence health equitably, driving policy reforms to enhance health outcomes. Her research experience includes being the lead coordinator of a project estimating the burden of pneumococcal and Hib diseases at country level. For the past decade, she has mentored colleagues in their dissertations and master's theses on various topics related to newborn and child health.

Beyond her interest in child health and underserved populations, Dr. McCall has specialized in caring for acutely ill children in resource-limited emergency and hospital settings. She has also taught undergraduate medical students and postgraduate pediatrics residents.

**Areas of expertise:** Health Equity, Delivery of health services to underserved populations, Health System Strengthening at the district level, Child Health. Additionally, she has extensive experience in the Hib and Pneumococcal Global Disease Burden Project at Gavi, PneumoADIP experience, and previously worked as a WHO fellow on IMAI and as a researcher on pneumococcal vaccine efficacy.

### **Education and degrees:**

Medical Degree from the University of Geneva, Specialization in Pediatrics at Johns Hopkins University, Master of Public Health and Preventive medicine residency from the Johns Hopkins Bloomberg School of Public Health. US- Board certified in Pediatrics and Preventive Medicine.

## **Ngo Bibaa Lundi-Anne Omam**

***Current Position:*** Senior Country Program Manager, CHAI; PhD candidate in Public Health and Primary Care, University of Cambridge.

***Previous Position and Experience:*** Lundi-Anne Omam is a Public Health expert with over 15 years of experience developing, managing and coordinating primary health interventions in hard-to-reach, post-conflict and conflict-affected communities.

She led the very first and large-scale rapid response mechanism and mobile clinics for internally displaced persons in conflict settings of Cameroon with WHO and UNICEF funding, leading to the reintroduction of immunisation and surveillance interventions in conflict-affected communities. Furthermore, her experience as the Health Cluster Co-Coordinator in conflict-affected communities has equipped me with the skills to lead and coordinate health response efforts, conduct needs assessments, and ensure results-oriented cluster coordination. She recently worked as a consultant with WHO Primary Health Care Special Programme as a consultant developing overviews on Global Health Initiatives like Gavi, Global Fund, Global Financing Facility and Global health partnerships for universal health coverage.

***Areas of expertise:*** Service delivery in humanitarian settings, health systems strengthening in resource limited settings, policy development, and capacity building

***Education and degrees:*** PhD Candidate in Public Health and Primary Care at the University of Cambridge (near completion); Master's degree in Global Health Systems Theory and Policy from Queen Mary University of London, and Masters degree in Microbiology from the University of Buea, Cameroon.

***Additional Information:*** Served as Vice-president for the Oversight committee for Country Coordinating Mechanism (2018 – 2020); Served as coordinator for Gender and Public Health Emergencies (GPHE) of over 750 members (May to December 2023); Served as Health Cluster Coordinator for the North West and South West Regions (2018 – 2020); focus of her PhD research is on primary health care delivery models of care in conflict-affected settings of the North West and South West Regions of Cameroon, and North East Nigeria; and 16 peer-review publications.

## **Nkengafac Villyen Motaze**

**Current Position:** Associate Professor of Epidemiology, Medicine Usage South Africa (MUSA), School of Pharmacy, North-West University, South Africa

**Previous Position and Experience:** Mr. Motaze worked from August 2021 to November 2022 as Consultant Epidemiologist, Health Emergency Information & Risk Assessment (HIM), Field Epidemiology Support (FES), in World Health Organization (WHO) Head Quarters. At the same time, from January 2021 to January 2022 he was Head of Notifiable Medical Conditions (NMC) program, National Institute for Communicable Diseases, (NICD), a division of the National Health Laboratory Services, South Africa. Previously, he worked as Epidemiologist from February to September 2014, AERAS, in South Africa, and from October 2014 to December 2020 in Centre for Vaccines and Immunology, National Institute for Communicable Diseases, a division of the National Health Laboratory Service, in South Africa. He also worked as Medical Officer, Ministry of Public Health, Yaoundé, in Cameroon from September 2007 to February 2012.

**Areas of Expertise:** Vaccinology, infectious disease epidemiology, clinical epidemiology, systematic reviews, evidence-based practice, post-graduate training, and pharmaco-epidemiology.

**Education and Degrees:** PhD in Epidemiology, Faculty of Medicine and Health Sciences, Stellenbosch University (January 2016 to May 2021), MSc Clinical Epidemiology, Faculty of Medicine and Health Sciences, Stellenbosch University (February 2012 to December 2013), Doctor of Medicine (M.D), Faculty of Medicine and Biomedical Sciences, University of Yaoundé 1 (September 2000 to June 2007).

**Additional Information:** 2018 onwards: Scientific Advisory Committee, South Africa Field Epidemiology Training Program (SAFETP). 2017-2018: World Health Organization SAGE Working Group on Measles and Rubella.

## **Ogijo Arome Emmanuel**

**Current Position:** Financial Controller for a multilateral organization.

**Previous Positions and Experiences:** Mr. Emmanuel has worked as Head of Operations & Finance providing strategic oversight in administration and financial management both in East and West Africa at senior leadership levels.

He worked as pioneering staff of GFA Consulting Group, a Global Fund Fiduciary Agent in Nigeria, as Senior Financial Management Specialist. He assisted in the set-up of the Global Fund Fiduciary Agent in Nigeria.

**Areas of Expertise:** Compliance, Financial risk management, operations, project management and organization development (OD) expert. Experience in working with various international nongovernmental organizations in Nigeria, West Africa, East Africa and Europe. Mr. Emmanuel has strong knowledge of international donors such as USAID, World Bank, Global Fund, FCDO, DANIDA and European Union (EU) financial and grant management rules.

**Education & Degrees:** A graduate of accountancy from the prestigious Ahmadu Bello university, Zaria Nigeria, he holds a Master of Science in Finance Degree from the University of Lagos, Akoka, Nigeria. Member of Association of Fraud Examiners USA and CIMA UK. He is undergoing his academic doctorate in the United Kingdom.

## Ousmane Amadou Sy

**Current Position:** Independent International Consultant and CEO of the Consulting Firm: OASYS Financial & Management Services (OASYS SARL).

**Previous position and experience:** Ousmane Amadou SY capitalize more than 22 years of professional experience in technical assistance, grant management and consulting services to recipient countries, field-based beneficiaries/implementers and funding agencies involved in design, implementation, technical monitoring and financial oversight of public health projects, in areas such as HIV/AIDS, Tuberculosis, Malaria, Immunisation, Health System Strengthening and Community System Strengthening, etc. From 1998 to 2008, he held several financial management positions at the international non-governmental organization Frontline AIDS (former International HIV/AIDS Alliance) at country level (Senegal) and at HQ (United Kingdom, designing and implementing technical assistance and capacity building plans for field-based programs. As an independent international consultant, Mr. SY has been providing advisory and consulting services to the Global Fund to fight AIDS, Tuberculosis and Malaria, to bilateral agencies (USAID, France Expertise, GIZ, LuxDev, etc.) and to multiple donor-funded public health programs across Africa, Central America and South East Asia.

Mr. Ousmane Amadou SY has been also an active member of the Gavi IRC (Independent Review Committee) for more than 7 consecutive years (2012-2019).

**Areas of expertise:** Grant management; financial management and internal control mechanisms; technical assistance; public health policy; program design/planning and implementation; health and community systems strengthening, etc.

**Education and degrees:** Solid academic qualifications in finance and accounting and more than 22 years of practice at field level, particularly in the Africa region. Graduated in 1998 from Dakar University (Senegal) with the Diploma of Higher Studies in Commerce and Business Ammonization. Bachelor in Management and Accounting Techniques (Bac G2) obtained in the Technical College of Saint-Louis (Senegal).

**Additional information:** Board member and Steering Committee member of NTAP (Network of Technical Assistance Providers) based in Nairobi (Kenya).

## **Ousmane Dia**

**Current position:** Independent consultant in immunisation and supply chain management of health commodities.

**Previous positions and experience:** Mr. Dia is a global health expert with over 38 years of experience in public health and supply chain management across health programs at both global and country level. In his most recent position, he served at UNICEF/HQ as Senior Immunisation Specialist, and as Team Lead for immunisation supply chain, providing vision, technical leadership and coordination of technical support to regional and country offices to strengthen national immunisation supply chain management systems.

During his 11 years at John Snow, Inc. (JSI), he served in various capacities including: Senior Immunisation Technical Officer with the Immunisation Center and the Maternal and Child Survival Program (MCSP); Country Director for USAID|DELIVER Project in Tanzania; and Senior Logistics and Operations Manager for the Making Medical Injections Safer (MMIS) PEPFAR-funded project. He also coordinated the US government's support for H1N1 pandemic vaccine deployment to Africa. Mr. Dia started his career at the Ministry of Health in Senegal where he spent 16 years and served as Head of Directorate for Infrastructure Equipment and Maintenance. From 1999 to 2002, he provided in-country support to Nigeria and DRC to build capacity in vaccine and cold chain management. He was also in charge of vaccines supplies and quality at WHO/AFRO, whereby he contributed to the development of tools and guidelines and built capacity of logisticians across Africa.

**Areas of expertise:** Health and immunisation systems strengthening, project/program management, capacity building, supply chain management of health commodities, vaccine and cold chain management, maintenance of biomedical equipment, monitoring and evaluation.

**Education and degrees:** Mr. Dia holds a Master's Degree in Project Management from CESAG, Dakar, Senegal and Master of Science in Engineering, Kuban State University of Technology Krasnodar, Russia.

**Additional information:** Mr. Dia co-chaired the Gavi immunisation Supply Chain Steering Committee (iSC2) which aims to coordinate and monitor the implementation of the Gavi Immunisation Supply Chain Strategy. He led the development and the rollout of the new Effective Vaccine Management Assessment (VMA 2.0) and contributed to the development of several WHO/UNICEF tools and guidelines including the Vaccine Management Handbooks.

## Oyewale Tomori

**Current Position:** Independent Consultant. Emeritus Professor, College of Natural Sciences, and Senior Fellow, African Centre of Excellence for Genomics of Infectious Diseases (ACEGID), Redeemer's University, Ede, Osun State, Nigeria

**Previous positions and experience:** Virologist with expertise in laboratory support for disease prevention and control spanning a period of over forty years. Trained as a veterinarian and worked for more than 25 years as a researcher and consultant virologist at the College of Medicine, University of Ibadan, Nigeria. Later served for 10 years as the Regional Virologist and Laboratory Coordinator for Polio Eradication Initiative at the WHO Africa Region. In recent years, continue to serve in advisory roles for disease eradication initiatives at national, regional, and global levels.

**Areas of expertise:** Laboratory systems and support for infectious disease prevention, diagnosis, and control (polio and viral haemorrhage diseases – Lassa fever, Yellow fever, and Ebola Viral Diseases).

**Education and Degrees:** Doctor of Veterinary Medicine (DVM) from Ahmadu Bello University, Zaria, PhD (Virology) University of Ibadan – both in Nigeria. Fellowships of the Nigerian Academy of Science, and Royal College of Pathology, UK, and Member, US National Academy of Medicine.

**Additional information:** Served as the Chair of the Nigeria Expert Review Committee for Polio Eradication and Routine Immunisation since 2004, was a member of the WHO- SAGE (2009-2015). Held the position of Senior Adviser response to the WHO AFRO Regional Director, on Laboratory Planning and Quality Monitoring for Covid19 response.

## **Patricia A. Taylor**

**Current Position:** Independent consultant and part-time advisor at John Snow, Inc. and JSI Research and Training Institute (JSI), Arlington, VA, USA 22036.

**Previous positions and experience:** More than 30 years at JSI, designing, managing and evaluating large global technical assistance projects with immunisation, reproductive, maternal, newborn and child health (RMNCH) objectives. Positions: Director of Country Programs for USAID's flagship Maternal Child Survival Program (MCSP) and Maternal Child Health Integrated Program (MCHIP); Project Director IMMUNISATIONbasics; Deputy Project Director Basic Support for Institutionalizing Child Survival (BASICS); among others. Experienced working with multidisciplinary teams, ministries of health, local governments, civil society, private sector and other national and international partners to improve the coverage, quality and equity of immunisation and other RMNCH interventions.

**Areas of expertise:** Routine immunisation, new vaccine introduction, maternal, newborn and child health, community and urban health, health information systems, commodity security, capacity development and program planning and management.

**Education and Degrees:** Master of Public Health (MPH) from the University of California, Los Angeles; Bachelor of Arts, University of California, Santa Barbara; short courses and certifications in health sector reform, human centered design, implementation research, strategic planning, and project management.

**Additional information:** During my career in public health, I have been involved in the design and management of immunisation, RMNCH and related health systems strengthening efforts in more than 30 countries, including those with large numbers of zero-dose and under-immunized children. I have also supported work in countries emerging from wars and other political and economic crises as they struggled to rebuild their health systems and immunisation programs. In the mid 2000's, I was fortunate to work with WHO, CDC and UNICEF on multi-country reviews of the Reaching Every District (RED) approach. During the same period, I was a member of the working group that designed the first Gavi HSS funding window; an evaluator for WHO/AFRO of the Africa Regional Immunisation Strategies 2000-2005 and 2006-2009; the manager of a six-country Gavi HSS Tracking Study; and, a member of external evaluation teams for Gavi Immunisation Services Support and Injection Safety funding windows.

## **Peter Ndeboc Fonkwo**

**Current Position:** Dr Fonkwo Peter is currently a freelance international consultant in public health with special emphasis on mother and child health issues.

**Previous position and experience:** Dr Fonkwo has more than 30 years of varied experience in the management of health programs and projects at all the levels of the health system, while providing technical support as needed in various domains. Besides within the various programs and projects, a good number of which were reproductive health programs or programs on the fight against major endemic diseases some of which were vaccines preventable diseases This is the case when he worked in Cameroon at the health districts level as medical officer, at the regional level (in the South West Region of Cameroon) as Provincial chief of service for Community Health or at central level where he managed the Family Health and AIDS Prevention (SFPS) Project in Cameroon. This was also the case during his many country support missions for the Global Fund for health or UNFPA, UNICEF, GIZ, WHO etc. He concurrently provided technical assistance in strengthening the health systems in various settings and levels of the health pyramid.

**Areas of expertise:** Health programme design and management, management of routine & mass campaign for immunisation, EPI monitoring and evaluation, Health systems strengthening.

**Education and degrees:** MD degree in the University Centre for Health Sciences in Cameroon, MPH degree at the University of Heidelberg in Germany.

**Additional information:** Dr Fonkwo has provided technical assistance to a good number of countries in Africa in their health system strengthening, with his interventions often involving health programs evaluation and/or strategic and operational planning. These covered areas varying from reproductive health in general, expanded programme of immunisation, to logistic management of related commodities.

## Pierre de Vasson

**Current Position:** Independent consultant; senior instructor, course developer, and strategic advisor at [www.beeskilled.com](http://www.beeskilled.com)

**Previous Position and Experience:** Pierre is an experienced health **supply chain** transformation and HSS expert with 15+ years of experience in sustainable governance, supply chain design, and private sector engagement. He has worked for most donors (such as TGF, USAID, UNFPA, WHO, UNITAID, UNAIDS, World Bank, BMGF, GiZ, France Expertise, etc.) in deep-dive or strategic planning. He served in most French and English-speaking African countries but also in Central and South East Asia (Tajikistan, Kazakhstan, Kyrgyzstan; Thailand, Viet Nam, Myanmar, and Nepal).

More specifically as full-time employee, Pierre supported British Columbia's annual 5 million vaccines' supply chain (including flu, rabies, and HPV's introduction) and advised the Global fund's supply chain department in supply chain. As a consultant, he recently included vaccines' supply chain specifics into the development of about 10 strategic plans of country supply chain in French speaking Africa, central, and South-East Asia (engaging all international donors including Gavi for grant request). For the Bill & Melinda Gates Foundation in 2022, he supported Guinea, Niger, and Chad's EPI departments in redesigning the polio network and supply chain to meet 72 hours from collection to lab. For USAID in 2023, he trained up to 70 experts in basic supply chain (including vaccines) in Madagascar.

**Areas of expertise:**

Specifically in logistics and management of cold-chain; health and pharmaceutical supply chain operational and enabling functions (supply/demand planning including new vaccine introduction, quantification, procurement, warehousing, transport/distribution, and waste management; governance, regulatory, human resources, costing and funding, and data visibility and usage); country readiness and maturity in supply chain and need for technical assistance.

More broadly in health systems strengthening; developing strategic plan of country supply chain and strengthening governance; supplier relationship management and private sector engagement; performance setting and management.

**Education and degrees:** MSc in Finance from Bordeaux business school of management (now KEDGE in France); MBA in supply chain from Michigan State University, USA.

**Additional Information:** Fluent in French and English; Before graduating from an MBA, Pierre worked 5 years in the banking industry as cost controller and eventually financial manager.

## **René Dubbeldam**

**Current position:** Independent consultant in global public health, and Partner of the *Hera* public health group.

**Previous positions and experience:** René Dubbeldam is a medical doctor, specialized in global public health. He carried out numerous assignments on public health issues, for a large range of bi- and multilateral development partners and national governments. He has ample experience in leading multidisciplinary teams.

After internships on surgery and obstetrics in The Netherlands, he was District Medical Officer in the northern provinces of Mozambique (1982-1985). After obtaining his public health degree, he worked for WHO, to support African EPI development (1987). From 1988 to 1992, he was based in Mali to lead a provincial public health project in Ségou, with a focus on the 'Bamako Initiative'. After this, he continued to work at the Royal Tropical Institute as advisor, and lecturer on the International Course on Health Development (ICHD) on public health and health systems research. From 1997 to 2004, he was manager and health expert for ETC Crystal. Dubbeldam also worked in The Netherlands, as Director of a Dutch public municipal public health service in Flevoland. In 2009-2010, he was Chief Medical Officer of PharmAccess, a Dutch NGO focusing on private health sector development, health insurance policies and HIV/AIDS. Recently, from 2014 to 2016, he led the Health Advisory Service (HAS) team, in Brussels; HAS is the technical helpdesk of the EU/DEVCO health team of the EU Commission.

**Areas of expertise:** Formulation and development and evaluation of comprehensive national health policies and strategies; essential medicines policies and strategies; mother- and child health programs; community health; communicable disease programs, in particular TB, HIV and malaria; epidemiology of vaccine preventable disease.

**Education and degrees:** Medical Doctor (Erasmus University Rotterdam, 1979). Certificate Tropical Medicine (NTA course at Royal Tropical Medicine, 1981). MSc. Community Health in Developing Countries (London School of Hygiene and Tropical Medicine, 1986). Medical Specialist in Social Medicine in The Netherlands (Netherlands School of Public and Occupational Health, 2002).

**Working languages:** René Dubbeldam works in Anglophone, Francophone and Lusophone countries.

## **Robert (Bob) Pond**

**Current Position:** Independent Consultant

**Previous Position and Experience:** Mr. Pond is a public health physician trained in general practice medicine, epidemiology and health policy and planning. He has over 35 years of experience in international public health including 11 years resident in West Africa. From 2005 to 2009 he was a Technical Officer with WHO supporting the Health Metrics Network (HMN). Since 2015 he has consulted regularly for WHO in support of activities to strengthen country health information systems and capacities – focusing on data quality review and analysis of health facility data. Since 2017 he has also consulted for the University of Oslo on activities to strengthen the quality and use of DHIS2 data.

**Areas of Expertise:** Bob served on the Gavi IRC from 2012 to 2017, specializing in validation of immunisation coverage estimates and assessment/reinforcement of countries' approaches to data quality assurance.

**Education and Degrees:** M.D. – UCLA School of Medicine, MSc. – London School of Hygiene and Tropical Medicine / London School of Economics

**Additional Information:** Epidemiological Intelligence Service (E.I.S.) fellowship with the U.S. CDC

## **Rochika G. Chaudhry**

**Current Position:** Developing Emergency Preparedness and Infection Prevention and Control protocols for the Johns Hopkins Medical Institution (JHMI).

**Previous Position and Experience:** Ms. Chaudhry is a highly skilled health science professional with twenty-five years of experience working in international health programs across Asia, Africa, Latin America, Europe & Eurasia. She was the Deputy Director for the COVID-19 Vaccine Access and Delivery Initiative at USAID in 2022, leading a multi-disciplinary team working on vaccine supply and demand, country readiness and delivery across 100+ countries, and the Deputy for the overall COVID-19 response in 2020. Prior to this, she served as the Senior Advisor in the Bureau for Global Health (GH) at USAID for a decade, working on HIV, Malaria, TB, Maternal and Child Health, and Health System Strengthening programs across regions. She was detailed to the US Department of State as the Senior Health Policy Advisor, and to the Bureau for Humanitarian Assistance as the GH Lead for the DRC 10<sup>th</sup> Ebola Response Management Team. During her career, Ms. Chaudhry has worked as the Director of Health System Innovations, and as the Technical Manager of Health Systems Supply Chains with international partners. She also served as the Immunisation Officer for PAHO based in Guyana, and worked at the World Bank and the Malaria Vaccine Initiative, based in Washington, DC.

**Areas of Expertise:** Primary Health Care, Immunisation Services, Disease Prevention and Control, Outbreaks, Epidemics and Emergency Response, Health Systems Strengthening, Supply Chain and Logistics, Health Finance, Health Policy and Planning, Universal Health Coverage, Monitoring & Evaluation.

**Education and Degrees:** Bachelor's and Master's degrees in Biochemistry from the University of Texas at Austin, Master of Public Health degree from The Johns Hopkins University, and Bachelor's degree (Honors) in Sociology from The University of Delhi. In addition, she holds a Certificate in Vaccine Science and Policy and a Certificate in Health Finance and Management from the Johns Hopkins University.

**Additional Information:** Ms. Chaudhry has been a representative at numerous global health forums; most recently she co-chaired the COVID-19 Funders Forum, and the White House global syringe coordination forum. She has authored various technical reports and has received numerous awards for her contributions to global health programs.

## **Sabine Beckmann**

**Current Position:** Independent Consultant for Public Health in developing countries.

**Previous positions and experience:** Senior technical and policy expert in reproductive, maternal, neonatal and child health, gender, HSSH, HIV/AIDS, nutrition, tuberculosis, malaria, conflict and fragile settings, community level programs, results-oriented monitoring and evaluation of Public Health projects and programs with 35 years of international and global health experience of which 15 years working in Africa and 14 years for UN organizations worldwide.

Professional practice ranges from coordinating of mother and child health care services in rural Burkina Faso with GIZ managing a community-based primary health care program including routine vaccination and campaigns as well as supply chain management, advising the Ministry of Health in Kenya/GIZ for Reproductive Health and Gender, senior technical advisor for ILOAIDS, UNDP's senior global partnerships advisor and designated Board Member of the Stop TB, Roll Back Malaria, TDR and HRP partnerships, and Senior Advisor M&E for conflict and fragile states, with UNFPA as Program Coordinator for Reproductive Health and humanitarian response in Ethiopia and with the Global Fund as public health specialist for Angola, Madagascar, Comoros, Mauritius.

Presently working as independent consultant in challenging settings, for KfW projects in Togo and Cameroon, for EU/GIZ family health in Guinea Conakry and gender research in rural Burkina Faso.

**Education and Degrees:** Doctoral degree in medicine, Johannes Gutenberg University Mainz, Germany with practice in obstetrics, gynecology and pediatrics, Master of Science degree in Public Health in developing countries from the London School of Hygiene and Tropical Medicine, UK.

**Additional information:** Appointment for the independent technical review committee of the funding program Hospital Partnerships – Partners Strengthen Health of the Germany's Federal Ministry for Economic Cooperation and Development (BMZ) and the Else Kröner-Fresenius Foundation.

## **Saidou Pathé BARRY**

***Current Position:*** Independent Consultant in Public Health and Director of NGO « Association pour la Recherche et le Développement Sanitaire (APREDESA) » since his retirement from WHO in 2012.

***Previous Position and Experience:*** Dr Barry worked as WHO Representative in Chad from June 2010 to December 2012. He worked as Technical Advisor in the Unit of Country Analysis and Support from December 2001 to June 2003 and as Regional Adviser of national health systems (July 2003 to May 2010), in Brazzaville at WHO Regional Office for Africa. He coordinated a health project in Gabon funded by the European Development Fund (1996-2001). Prior joining WHO he occupied many high management positions within the MoH in Guinea (1983-1996). He has more than thirty years' experience in the field of strengthening national health systems, public health projects management including immunisation. He was member of the Afro's Advisory Group in health governance.

***Areas of expertise:*** Strengthening national health systems in particular the development of national health policies and elaboration of national health strategic plans, partnership, coordination, policy dialogue in the health sector, district health system management, health services monitoring and evaluation, management of maternal and child health services, primary health care etc.

***Education and degrees:*** Doctorat d'Etat en médecine (MD) 1983, Faculté de Médecine et de Pharmacie, Institut Polytechnique Gamal Abdel Nasser, Conakry, République de Guinée. Master's in public health, Public Health and Tropical Medicine School in 1994, Tulane University, New Orleans, LA United States of America. He has many certificates on malaria and health education, health services management, immunisation, community participation, health professional training of trainers and primary health care.

***Additional Information:*** In the past five years, Dr Barry provided technical support to WHO in the African Region in various areas including development of Guinea's National Health Policy and National Health Strategic Plan (2014), evaluation of Togo's National Health Strategic Plan 2012-2015 (2015), elaboration of Guinea's third country cooperation strategy (2016-2021) in 2016, supervision of the WHO-EU and Luxemburg Project on health policy dialogue in 5 countries (DRC, Guinea, Liberia, Mozambique and Togo,) in 2016, mid-Term Review of the Human Resources for Health Project in 3 States in Nigeria in 2017. He published around 15 publications as author or co-author in various areas such as health policies, strategic planning, district health system performance, monitoring and evaluation of health sector reforms, role of Health systems in managing health emergencies, economic burden of diabetes mellitus etc.

## **Sehrish Tehreem**

**Current Position:** Independent Consultant in Public Health

**Previous Position and Experience:** Dr. Sehrish Tehreem is a dedicated medical professional and public health expert. She has effectively contributed in Pakistan's efforts to eradicate Polio by serving as the youngest female Polio Eradication Officer in Global Polio Eradication Initiative (GPEI) of World Health Organization (WHO). In her role as Immunisation Officer in WHO, she worked at the grassroots level to lead the rollout of new vaccines (typhoid, measles & rubella) in routine immunisation schedule of Pakistan. She advised the healthcare administration in areas of revamping polio vaccination, planning and management of routine immunisation, and introducing digital tools to improve the health service delivery.

Dr. Tehreem has served in various capacities ranging from a general physician across primary, secondary, and specialized healthcare facilities to advising the senior healthcare leadership in improving immunisation infrastructure of Pakistan. She possesses a diverse skillset of clinical expertise, strategic planning, and management of infectious diseases.

**Areas of expertise:** Health and immunisation system strengthening, vaccine management, disease surveillance, and designing capacity building programs.

**Education and degrees:** Dr. Tehreem holds a degree in medicine (MBBS) from Quaid e Azam Medical College, Pakistan and received her Master's in Public Health from Health Services Academy, Pakistan.

**Additional Information:** She has strong interest in areas of digital healthcare solutions, telemedicine, and digital literacy of healthcare professionals.

## **Soleine Scotney**

**Current Position:** Country Director, Clinton Health Access Initiative Cambodia

**Previous Position and Experience:** Mrs Scotney is currently CHAI's Country Director for Cambodia. Her team provides support to the Royal Government of Cambodia's Ministry of Health to improve health outcomes across nine health programs, including Vaccines. With regards to immunisation, this involves supporting New Vaccine Introduction and strengthening routine immunisation outcomes. Previously Soleine was Associate Director for Vaccines Markets at CHAI, leading CHAI's team which works globally to achieve affordable yet sustainable vaccine prices and adequate antigen supply for Low- and MiddleIncome countries. This work involved working closely with Developing Country Vaccine Manufacturers, FPMA actors, global partners (BMGF, UNICEF, Gavi, WHO, etc.) and collaborating with Ministries of Health in LMICs towards vaccine access. Prior to this role, Soleine supported over 20 new vaccine introductions, mostly in East and Central Africa, in collaboration with Ministries of Health and in-country partners, as CHAI's Senior Manager for Immunisation Systems Strengthening and New Vaccine introduction. She led CHAI's involvement in the Global Polio Eradication Initiative, and in the Human Papillomavirus Vaccine Global Leadership team. Prior to CHAI, Soleine worked at The Global Fund to Fight HIV, TB and Malaria in Geneva, where she supported the design of the New Funding Model and its piloting with early applicant countries. She also worked for four years as a strategy consultant for the Boston Consulting Group, with a focus on healthcare and social impact.

**Areas of Expertise:** Health and immunisation systems strengthening, primary health care (including infectious diseases, maternal and child health, non-communicable diseases), vaccine market dynamics, supply chain management, health programme implementation, strategic planning, policy development, financial planning, budgeting, and analysis skills, monitoring and evaluation.

**Education and Degrees:** Soleine holds a Double Masters' degree in International Political Economy and in Finance from the London School of Economics & Sciences Po Paris, obtained with distinction.

**Additional Information:** Member of the Oversight Committee of the CCM for Global Fund investments in Cambodia, ensuring maximum impact of funds invested and operationalization of grants.

## **Sophie Newland**

**Current Position:** Program Officer at PATH, a non-profit, global health organization, based in Seattle.

**Previous Position and Experience:** Ms. Newland is a public health professional with over 20 years of experience providing technical and managerial support to infectious disease prevention, control, and surveillance projects globally. Contributions to health system strengthening initiatives includes development of a toolkit outlining value-based public procurement approaches for health technologies; review of national supply chain assessments tools; and drafting modules in the WHO/UNICEF Vaccine Management Handbook. Ms. Newland managed development of a database tool to facilitate standards-based cold chain equipment inventories.

**Areas of Expertise:** Health and immunisation system strengthening; health technology evaluation and introduction; cold chain equipment inventory and maintenance data management; and healthcare waste management systems.

**Education and Degrees:** MSPH, Environmental Health Microbiology (1997), University of North Carolina at Chapel Hill, School of Public Health; Emerging Infectious Diseases fellow (1999), U.S. CDC.

**Additional Information:** Global health experience includes facilitation of national and facility-based healthcare waste management assessments. Laboratory experience includes development of surveillance tools to monitor efficacy of wastewater treatment and point-of-care diagnostic tests.

## **Susan Rackstraw**

**Current Positions:** Susan is the Director of SKR Ventures, an international management and advisory firm, and Health Policy Adviser to the Kiribati Ministry of Health and Medical Services.

**Previous Positions and Experience:** Susan is an experienced strategy, design and policy implementation specialist with 20 years' experience across government and non-government sectors in Australia, Asia, and the Pacific. She has designed and managed the implementation of social and economic policy, governance, and program frameworks for the Australian, Papua New Guinea (PNG) and Kiribati Government Departments of Health and Finance, in line with budget and performance management frameworks. She has more than ten years' experience in leading and managing donor funded programs at the facility, agency, country, and regional levels (Kiribati, PNG, Indonesia, Solomon Islands, Philippines, Timor Leste and Mongolia), including strategies to improve individual, team and organisational capacity and outcomes.

**Areas of Expertise:** Susan's areas of expertise include health strategy, design, policy and program implementation in fragile and emergency settings, mainstreaming environmental and social safeguards, planning, budgeting and financial management, establishment and review of policy and governance mechanisms, and health system strengthening.

**Education and Degrees:** Susan has a Master of Commerce (eBusiness and Supply Chain Management and Commercial Law) and Bachelor of Sciences (Honours) in Biomedical Sciences (Clinical Biochemistry and Immunopathology).

**Additional Information:** Susan is the founding Director / Strategy, Design and Policy Implementation Specialist of SKR Ventures. She has held senior leadership, management and advisory roles with the Australian Government aid program, New Zealand Aid Programme, and a range of development partners.

## **Teklay Desta**

**Current position:** Dr Teklay is a consultant working as measles elimination technical assistance in the Federal Ministry of Health of Ethiopia.

**Previous Positions and Experience:** Dr Teklay has been working in the area of public health for more than 25 years. He has worked for the government of Ethiopia as disease prevention and control, and monitoring and evaluation team leader. In the last 20 years, Dr Teklay has been working in the immunisation program, managing immunisation program from the lowest level to the national level. He has worked as immunisation officer for the World Health Organization, and as vaccine program Director, and Senior vaccine program manager for the Clinton Health Access Initiative (CHAI).

**Areas of Expertise:** Managing immunisation program, Vaccine Preventable Disease surveillance and outbreak investigation, New vaccine introduction and data management.

**Education and degrees:** Doctor of medicine from Jimma University of Ethiopia. Master of Public Health in international health from Unea University, Sweden.

**Additional information:** Planning and implementation of operational studies, coverage surveys, polio and measles campaigns and vaccine supply management.

## **Tippi Mak**

**Current Position:** Independent Consultant. Member, Board of Directors, Vaccine & Infectious Diseases Organization, University of Saskatchewan, Canada. Visiting Expert at Centre of Regulatory Excellence, Duke-NUS, Singapore.

**Previous positions and experience:** Clinical practice in family medicine and vaccination clinics for 5 years. WHO Consultant for over 8 years, serving in VPD and AEFI surveillance, outbreak investigations, campaign planning, program evaluation and capacity building in numerous countries and regional level, and in scientific reviews for immunisation policymaking and regulatory support at global level. Clinical Assessor for the Swiss national regulatory authority for vaccines including 2009 H1N1 pandemic vaccines (pharmacovigilance) for 3 years in Switzerland. Senior Deputy Director, Regional Health and Community Outreach, Health Promotion Board, MOH for community engagement and health program implementation for 1.5 years in Singapore. Regional Director & Senior Director Asia Pacific on vaccine policy and medical affairs for Sanofi Pasteur and Janssen, respectively, for 3 years based in Singapore.

**Areas of expertise:** Vaccinology and scientific reviews for immunisation policy, safety and regulation. Late-phase vaccine development and launch readiness. Implementation planning, epidemiologic research and primary care.

**Education and Degrees:** Doctor of Medicine (MD) & Family Medicine Residency (CCFP, FCFP), University of BC, Canada. Master of Science in Public Health (MScPH) London School of Hygiene and Tropical Medicine, UK. PhD in Epidemiology, Swiss Tropical & Public Health, University of Basel, Switzerland.

**Additional information:** Supported or led significant initiatives on vaccines against pandemic H1N1 influenza, dengue, tuberculosis, polio, measles, and currently covid-19. Cross-sector experience and understanding of vaccines span clinical medicine, public health, academia, governments and industry.

## **Toagoe T. Karzon**

**Current position:** Financial Controller at Redemption Hospital located in Newkru Town, Monrovia, Liberia.

**Previous positions and experience:** Mr. Karzon is a financial management specialist having progressively performed financial management responsibilities for the past 22 years with many renowned institutions including United Nations Development Program and the Liberia Ministry of Health, where he served for nine years as Financial Controller.

**Area of Expertise:** Budget preparation, management and analysis; Accounting system development, maintenance and reforms; financial reporting and analysis; payroll management; and procurement.

**Education and degrees:** Mr. Karzon holds Master of Business Administration and Bachelor of Business Administration from Cuttington University and University of Liberia respectively in Liberia. He has certificates of training from Harvard Kennedy School in USA, Duke University in USA, London School of Business and Finance, and Galilee International Management Institute in Israel.

**Additional information:** Mr. Karzon successfully led financial management reform at the Liberia Ministry of Health resulting into decentralized system with good record keeping, financial reporting, and responsive audit management. At the same institution, he led the migration of the accounting system to a cloud-based integrated system to account for huge donor and government funding. Over the years, he has also developed strong interest in other support areas such as procurement and human resources management.

## **Tony Chahale**

**Current Position:** Independent Consultant in Global Public Health

**Previous Position and Experience:** Tony is an experienced public health professional with 12+ years of a strong track record in developing, implementing, and evaluating public health programs. Skilled in coordinating with international agencies and implementing partners. 3 years in clinical practice in the rural Western Kenya and 10 years' experience in malaria programming in Kenya and East Africa.

**Areas of expertise:**

Health Systems Strengthening, Malaria, Epidemiology and disease surveillance, Immunisation

**Education and degrees:**

Fellowship Epidemiology: University of Nairobi Kenya (Ongoing)

MSc Health Systems Management | Kenya Methodist University, Nairobi Kenya | 2021

BSc Health Systems Management | Kenya Methodist University, Nairobi Kenya | 2016

Diploma Clinical Medicine and Surgery, Community Health | Lake Institute of Tropical Medicine, Kisumu Kenya | 2008

**Additional Information:**

Technical Support Specialist with Roll Back Malaria, providing technical support to national malaria control programs on a need basis.

## **Viviana Mangiaterra**

***Current position:*** Since January 2020 Dr. Mangiaterra has joined the SDA, School of Management, Bocconi University, Milan, Italy where she is an Associate Professor in the Department of Government, Health and Not-for-Profit. She also coordinates the work on Global Health for the Center for Research on Health and Social Care (CERGAS) and she is the Director of the Master in International Health Care Management, Economics and Policy (MIHMEP). In her capacity, she has led an evaluation study on eLIMS/EIR systems in 4 LMICs (Gates grant); she has coordinated cost-effective analysis in research on Quality Improvement of Integrated HIV, TB, and Malaria in Antenatal and Postnatal care in Kenya (in collaboration with the Liverpool School of Tropical Medicine) and she has directed several SDA Bocconi executive courses: i) Access to Medicines in LMICs; ii) Hospital Management Simulation Course; iii) The Academy in Health Care Management for executives of Libya hospitals and health care administrators.

***Previous positions and experience:*** From 2014 to 2019 Dr Mangiaterra held the position of Senior Coordinator RMNCAH/ HSS at the Global Fund to Fight AIDS, Tuberculosis and Malaria based in Geneva and from 2012 to 2019 she was cochair of the Roll Back Malaria, Malaria in Pregnancy Working Group. From 2007 and 2013 Dr. Mangiaterra worked at the WHO Headquarter, responsible for the integration and partnership work of the Cluster of Family, Women and Child Health with the Commission of Commodities, Immunisation, the H6, HIV, Malaria programs within WHO and with other relevant partners.

Between 2002 and 2007 she was at the World Bank as Advisor Children and Youth. During that period, she was responsible for the preparation of a comprehensive Children and Youth strategy, and she was instrumental in the development of the World Development Report 2007 on Youth.

Between 1987 and 2001 she was a staff of the World Health Organization working at all levels of the WHO system, national (Rwanda and Indonesia), regional (European Region), and HQ.

***Areas of expertise:*** Dr. Mangiaterra is a specialist in international public health with primary expertise in reproductive, maternal, newborn, child, and adolescent health, health system strengthening and infectious diseases programs.

***Education and degrees:*** She has a medical degree with further training (PhD Level) in pediatrics (University of Milan, Italy) and epidemiology (CDC Atlanta).

***Additional information:*** During her career, she has gained extensive experience in policy and strategy development, implementation, and evaluation of programs embracing reproductive, maternal, newborn, child, and adolescent health interventions including programmatic areas related to health system strengthening and integrated service delivery.

She has also several publications in international peer-reviewed journals.

## **Vivien Tsu**

***Current Position:*** Associate Director of Reproductive Health and Director of Cervical Cancer Prevention project, PATH; Affiliate Professor of Epidemiology, University of Washington, Seattle.

***Previous Position and Experience:*** More than 35 years of experience at PATH designing and managing field evaluations of new technologies and health interventions in low-resource countries. Directed PATH project on HPV vaccine introduction (2006-2012); previously worked on Japanese encephalitis vaccine introduction, diphtheria outbreak in Ukraine, evaluation of Uniject and SoloShot devices, early evaluations of vaccine vial monitors.

***Areas of expertise:*** Breast and cervical cancer prevention and early detection; immunisation; maternal and newborn health; evaluation of new technologies and public health strategies in low-resource settings.

***Education and degrees:*** PhD in Epidemiology from University of Washington; MPH in International Health from UCLA; MA in African History from UC Berkeley. BA with Honors in History from Wellesley College.

***Additional Information:*** Served on Gavi subgroup on HPV vaccine (2012-2016); served on WHO Steering Committee for Cervical Cancer Guidelines for practice (2012-2014). More than 85 peer reviewed journal articles, and guest editor of two special journal issues on cervical cancer (2005, 2017).

## Walter A. Orenstein

**Current Position:** Professor of Medicine, Paediatrics, Epidemiology & Global Health at Emory University; Associate Director, Emory Vaccine Center; Director, Emory Vaccine Policy and Development.

**Previous Position and Experience:** Dr. Orenstein also held his current position from 2004 to 2008. From 2008 through 2011, he was Deputy Director for Immunisation Programs at the Bill & Melinda Gates Foundation. His primary focus at the foundation had been on polio eradication, measles control, and improving routine immunisation programs. Prior to 2004, he worked for 26 years in the Immunisation Program at the Centers for Disease Control and Prevention. From 1988-2004, he was the Director of the United States Immunisation Program. He is a former Assistant Surgeon General of the USPHS.

**Areas of expertise:** Dr. Orenstein's research focus has been on assessment of vaccine effectiveness in observational studies, methods to overcome vaccine hesitancy, ways to enhance uptake of recommended vaccines, and ways to facilitate polio eradication and sustain that eradication. One of his major focus areas involves eliminating measles globally. He led the Mid-term Review of Measles and Rubella Strategic 2020 plan for WHO in 2016/2017. In addition, he is the Principal Investigator for an NIH funded Center of Excellence for Influenza Research and Response (Emory CEIRR), with a focus on better understanding influenza pathogenesis and host response.

**Education and degrees:** MD, Albert Einstein College of Medicine, Bronx, NY; DSc (Hon), Wake Forest University, Winston-Salem, NC. Completed Residency's in Paediatrics (University of California & Children's Hospital of Los Angeles) and Preventive Medicine (CDC); Fellowship in Infectious Diseases (University of Southern California). EIS Officer in the Division of Immunisation, CDC, Atlanta, GA.

**Additional Information:** Authored and co-authored numerous books, journals and reviews. He coedited *Plotkin's Vaccines*, 7th edition in 2018 – the leading textbook in the field. He is past Chair of the WHO's Poliomyelitis Technical Consultative Group. He served as the Chair of the National Vaccine Advisory Committee (NVAC) from 2012 to 2016. He is currently a member of the WHO's Strategic Advisory Group of Experts (SAGE) on Immunisation Measles and Rubella and Ebola Working Groups. He is currently the Chair of WHO's Immunisation and Vaccines Related Implementation Research Advisory Committee (IVIR-AC). Between 2016- 2018, he was the President of the National Foundation for Infectious Diseases (NFID). He is a Member of the National Academy of Medicine (2006-IOM); a Fellow of the American Association for the Advancement of Science (2018); a Fellow of the American Academy of Paediatrics (1980); as well as numerous other prestigious organizations.

## **Wangara Tidiani**

**Additional information:** Board member of the OECT and member of the Small and Medium Practices (SMP) committee of the IFAC (International Federation of Accountants).

Member of the Consultative Group on Anti- Money Laundering and Counter terrorism for the Tunisian Financial Analysis Committee (National committee located at the Central Bank of Tunisia).

## Yilchini Yilben Ishaku

**Current Position:** Independent Consultant on Cold Chain Logistics for UNICEF in Nigeria, where he provides technical assistance to the National Primary Health Care Development Agency to ensure cold chain logistics functions of the immunisation program are optimal.

**Previous Position and Experience:** Over 10 years of experience in cold chain and vaccine management, immunisation strategic planning and execution, implementation of last-mile vaccine delivery, and health systems strengthening. Previously, he served as the Immunisation Supply Chain Management Consultant for UNICEF and Senior Program Officer/State Team Lead for the Clinton Health Access Initiative (CHAI) in Nigeria. Before working at CHAI, he was a Pharmacist Manager with Médecins Sans Frontières (MSF) in Papua New Guinea and later the Pharmacy Coordinator for the Nigerian Mission. As Pharmacy Coordinator, he oversaw the proper management of the pharmaceutical and medical supply process for MSF France in Nigeria.

**Areas of Expertise:** Cold chain and vaccine logistics management, routine immunisation, new vaccine introduction, Effective Vaccine Management Assessment (EVM 2.0), health systems strengthening, and supply chain management of health commodities.

**Education and Degrees:** Master of Science (MSc) in Procurement, Logistics, and Supply Chain Management from the University of Salford, United Kingdom; Master of Science (MSc) in Health Systems Management from the University of Baltimore, United States, and a Bachelor of Pharmacy (B. Pharm) from the University of Jos, Nigeria.

**Additional Information:** Served as Deputy Program Manager of Niger State Emergency Routine Immunisation Coordination Center (2017 - 2019) and led the Service Delivery Results Coordination Group of BMGF grantees of the Primary Health Care MoU (2018 - 2019).

## **Zenaw Adam**

**Current Position:** Independent Consultant

**Previous Position and Experience:** Dr. Zenaw Adam has more than 30 years of experience in international public health and pursued his career in disease control and maternal and child health programs. Until very recently, he served as Chief of Party and Director of the BMGF funded nationwide “Universal Immunisation through improving Family Health Services Project (JSI/UI-FHS)” for 10 years in Ethiopia. The project specialized in strengthening the routine immunisation (RI) system through innovatively aligning immunisation strategies with quality improvement (RED-QI) approaches, primarily to narrow immunisation inequities, targeting the underserved communities in the hardest to reach areas in the country. Prior to that, Dr Zenaw assumed positions in major international organizations such as WHO/AFRO, WHO/SEARO and WHO/EMRO, UNICEF and CIDA in various countries in Africa (Ethiopia, Tanzania, S. Sudan), the Middle East (Egypt, Iraq, Yemen), Asia (Pakistan) and the Far East (East Timor). Dr. Zenaw has also worked at Addis Ababa University, Faculty of Medicine as a lecturer in Community Health and served the Ethiopian Ministry of Health in different capacities including managerial and primary health care service delivery and functions.

**Areas of expertise:** Health and immunisation system strengthening through review and analysis of existing systems, design, test, and introduction of innovative strategic and quality improvement approaches to increase coverage, quality, and equity of immunisation services. Project management including the design, development, and execution of immunisation projects with particular focus on improving access to and utilization of available services with expansion to reach-the-unreached by formulating and adapting newer contextual strategies. Human capacity building and performance improvement efforts including development and application of tailored methodologies, training plans, guidelines, tools, and instruments. Enhancing partnerships, collaboration, and coordination of efforts, and when feasible, integration of services to achieve shared goals and objectives around immunisation activities, MCH and nutrition interventions and other primary health care activities. Data quality improvement efforts including data triangulation to promote evidence-based prioritization and decision-making processes in the context that available immunisation data and information system is far inadequate and of poor quality.

**Education and degrees:** PhD, Epidemiology, London School of Hygiene & Tropical Medicine, London, UK. MSc. Epidemiology, London School of Hygiene & Tropical Medicine, London, UK. MPH, Community Medicine, Addis Ababa University, Faculty of Medicine, Ethiopia. BSc., Public Health, Addis Ababa University, Gondar College of Public Health, Ethiopia.
