

Country	Investment Areas (select from dropdown)	Objectives (select from dropdown)	Activities (describe the activity)	Key Results (mandatory for multi-year activities)	Primary Partner (directly contracted organization)	Implementing Partner (primary partner or subcontractor if any)	MULTI-YEAR TOTAL
Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.1 Strengthen capacity of governance/technical bodies for planning, coordination and tracking progress at all levels, particularly for reaching zero-dose children	Provide technical assistance during EPI coordination and planning forums e.g. TWGs, MAITAG meetings	EPI performance reviewed and decisions on new strategies and innovations made to guide the MOH	JSI	JSI	\$300,000.31
Malawi	1. Service Delivery	1.7 Design and implement life-course immunisation approaches relevant to Gavi-supported vaccine programmes (HPV, MCV2)	Provide technical assistance for training of health workers and teachers during the introduction of TCV	Health worker's capacity built in introduction of New vaccines to reduce the burden of Typhoid and Malaria	JSI	JSI	
Malawi	1. Service Delivery	1.1 Extend immunisation services to reach zero-dose, underimmunised children and missed communities	In collaboration with other partners monitor the implementation of immunization services at all level to ensure compliance with policies and guidelines	Technical support provided through supervisory visits to districts, health facilities, schools	JSI	JSI	
Malawi	1. Service Delivery	1.1 Extend immunisation services to reach zero-dose, underimmunised children and missed communities	Provide technical support for building the capacity of vaccinators in tracking the status of child health (immunization, Vit A and deworming) and monitoring the implementation at village level using the MVMH tool	Reduced zero dose children at village level through status tracking	JSI	JSI	
Malawi	1. Service Delivery	1.7 Design and implement life-course immunisation approaches relevant to Gavi-supported vaccine programmes (HPV, MCV2)	Provide technical support to monitoring of routine delivery of HPV vaccine in schools and health facilities	Increased coverage of HPV vaccine	JSI	JSI	
Malawi	4. Health Information Systems and Monitoring & Learning	4.2 Improve data use-related capacity, tools, evidence generation and/or systems for programme monitoring and learning, especially at the subnational level	TA to design and implement approach and tools to improve denominator estimation for under-five children including for zero-dose and under-immunised children in 3 low performing sites based on recommendations from the GAVI HSIS funded denominator study.	1) Designed approach and tools for use by districts and facilities teams to accurately estimate the denominators for under-five children including zero-dose and under-immunised children in order to improve vaccine coverage estimates. 2) Improved denominator estimates for populations, under-five children including zero-dose and under-immunised children in 3 low performing or overperforming health facilities	KUHES	KUHES	\$150,603.15
Malawi	1. Service Delivery	1.1 Extend immunisation services to reach zero-dose, underimmunised children and missed communities	TA support to revise the EPI Field manual for health care workers including with focus to reach zero-dose, underimmunised children and missed communities	1) Revised EPI field manual for health care workers developed	KUHES (local)	KUHES	
Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.1 Strengthen capacity of governance/technical bodies for planning, coordination and tracking progress at all levels, particularly for reaching zero-dose children	Provide technical support in the development of a reference manual, operation guide and training deck for typhoid conjugate vaccine to motivate and equip health workers with knowledge about the disease, the vaccine, and its messaging approaches.	(a). Reference manual for typhoid conjugate vaccine developed; (b). Operational manual for front line health workers in the immunization system developed; (c). A training deck for typhoid conjugate vaccine developed;	PATH	PATH	\$100,000.00
Malawi	6. Demand Generation and Community Engagement	6.2 Design and implement social and behaviour change interventions	Provide technical assistance in the development of communication strategy and crisis communication plan for typhoid conjugate vaccine and development of messaging and IEC materials for integrated typhoid conjugate vaccine (TCV) and measles rubella (MR) campaign	(a). Communication strategy and crisis communication plan for typhoid conjugate vaccine developed; (b). IEC materials for typhoid conjugate vaccine developed	PATH	PATH	
Malawi	1. Service Delivery	1.2 Integrate delivery of services to improve efficiency, regularity and/or reliability of planned immunisation activities with a focus on zero-dose and underimmunised children and missed communities	Provide technical assistance in developing EPI microplans for the catch-up campaign for typhoid conjugate vaccine and follow up supplemental immunization activities for measles rubella targeting zero dose and underimmunised communities through static, outreach and designated temporary sites during the campaign; support the mapping of school going under 15 year aged children in all public and private schools; support supervision during subnational health worker trainings for TCV/MR campaign and for other primary health care services	(a). Integrated TCV/MR microplans developed; (b). Integrated TCV/MR campaign conducted	PATH	PATH	
Malawi	6. Demand Generation and Community Engagement	6.2 Design and implement social and behaviour change interventions	Provide Technical Support on development of communication materials and implementation of Social mobilization on activities that promote vaccine uptake	The capacity of Health Education Service units at national and district level strengthened.	UNICEF	UNICEF	\$757,587.30
Malawi	3. Supply Chain	1.2 Integrate delivery of services to improve efficiency, regularity and/or reliability of planned immunisation activities with a focus on zero-dose and underimmunised children and missed communities	Provide Technical Support and facilitate vaccine procurement, management and distribution at the point of delivery	Improved immunization supply chain and cold chain management system and availability of quality vaccine at service delivery level.	UNICEF	UNICEF	
Malawi	1. Service Delivery	1.2 Integrate delivery of services to improve efficiency, regularity and/or reliability of planned immunisation activities with a focus on zero-dose and underimmunised children and missed communities	Provide Technical Support on Planning, Coordination and strengthen routine immunization including introduction of new vaccines	1. Programme planning, management and coordination of EPI programme of MOH and District health authorities improved focusing coverage and equity in immunization 2. Improved capacity of MOH and District Health Authorities on equity-focused on immunisation programming integrated into national immunisation programme.	UNICEF	UNICEF	
Malawi	3. Supply Chain	3.2 Improve stock management for vaccines and devices to avoid facility level stock-outs	Provide vaccine quantification and forecasting technical assistance to EPI national and subnational level teams including vaccine data reviews and analysis to feed into future forecasting	National and sub national level vaccine supply planning strengthened	UNICEF	UNICEF	
Malawi	3. Supply Chain	3.4 Strengthen Logistics Management Information Systems to assure real-time monitoring at all immunisation supply chain levels	Build capacity of HCWs on OLMIS reporting to strengthen vaccine stock management and monitoring through supportive supervision and mentoring	Sub national level vaccine stock reporting improved	UNICEF	UNICEF	
Malawi	3. Supply Chain	3.2 Improve stock management for vaccines and devices to avoid facility level stock-outs	Provide vaccine quantification and forecasting technical assistance to EPI national and subnational level teams including vaccine data reviews and analysis to feed into future forecasting	National and sub national level vaccine supply planning strengthened	VillageReach (new)	VillageReach (new)	\$149,819.73
Malawi	3. Supply Chain	3.4 Strengthen Logistics Management Information Systems to assure real-time monitoring at all immunisation supply chain levels	Build capacity of HCWs on OLMIS reporting to strengthen vaccine stock management and monitoring through supportive supervision and mentoring	Sub national level vaccine stock reporting improved	VillageReach (new)	VillageReach (new)	

Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.1 Strengthen capacity of governance/technical bodies for planning, coordination and tracking progress at all levels, particularly for reaching zero-dose children	Strengthen AEFI Monitoring AEFI surveillance and response a. Provide technical and logistic support for establishment, implementation and monitoring/evaluation of AEFI surveillance b. Facilitate electronic platform for AEFI surveillance reporting and feedback in Malawi c. Support the national AEFI causality assessment team to classify cases including field visits to verify reported cases d. Support AEFI technical committee Quarterly review meetings	Functional AEFI Surveillance system at national and in atleast 50% of Districts. Electronic flat form (ISS) established and Technical reports of roll-out and implementation available using ISS	WHO	WHO	\$621,139.91
Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.4 Other objective related to governance, policy, strategic planning and programme management	Malawi Immunization Technical Advisory Group (MITAG) a. Provide technical and logistic support for coordination meetings b. Support the MITAG members to attend the EPI quarterly Review meetings and field visit for EPI activities	Functional MITAG with clear TORs and operational guidelines at national level. Quarterly Reports on MITAG Activities	WHO	WHO	
Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.2 Strengthen programme performance monitoring and management systems at all levels	Conduct a Post Introduction Evaluation (PIE) for TCV and Malaria Vaccine	Post Vaccine Introduction Evaluation for TCV and Malaria Vaccine with Report Prepared and Findings Disseminated	WHO	WHO	
Malawi	2. Human resources for health	7.2 Strengthen programme performance monitoring and management systems at all levels	Support the implementation of the Annual EPI Review Meeting	Key Findings from Review meetings are used to inform updates to the Annual EPI Programmes of Work to meet objectives of Strategic Plan	WHO	WHO	
Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.2 Strengthen programme performance monitoring and management systems at all levels	Support the Development of the National Immunisation Strategy(2022-2027)	A National Immunisation Strategy Plan for 2022-2027 will be developed for implementation	WHO	WHO	
Malawi	1. Service Delivery	1.1 Extend immunisation services to reach zero-dose, underimmunised children and missed communities	TA for the Conduct Quarterly PIRs and Mop-ups to reach zero-dosed,underimmunised children and missed communities in Low Performing Districts	Reduction in the number of missed children and underserved communities	WHO	WHO	
Malawi	1. Service Delivery	1.1 Extend immunisation services to reach zero-dose, underimmunised children and missed communities	Provide TA for immunization coverage survey in consistently low performing districts using the revised EPI Cluster Survey Methodology to identify zero- doses, underimmunised and missed communities	Identify, reach and monitor the burden of missed children and underserved communities	WHO	WHO	
Malawi	1. Service Delivery	1.1 Extend immunisation services to reach zero-dose, underimmunised children and missed communities	Training of District level Teams in Microplanning to reach Zero dose, underimmunised children and missed communities in Low Performing Districts	Reduction in the number of Zero dosed, Missed children and underserved communities	WHO	WHO	
Malawi	7. Governance, Policy, Strategic Planning, and Programme Management	7.1 Strengthen capacity of governance/technical bodies for planning, coordination and tracking progress at all levels, particularly for reaching zero-dose children	Provide technical assistance during EPI coordination and planning forums e.g. TWGs, MAITAG meetings	EPI performance reviewed and decisions on new strategies and innovations made to guide the MOH	WHO	WHO
